

# Hybrid Learning Model

**HAND SANITIZER** is available at all entry points to the building and inside classrooms.

**OUTSIDE AIR INTAKE** is increased in all buildings. Existing ventilation systems increase fresh air and accelerate filtration changes per CDC and MDH guidance.

**SIGNAGE** is placed in all schools to remind students and staff to practice healthy habits that prevent the spread of germs.

**DISTANCE LEARNING ACADEMY**  
Students enrolled in the DLA continue to learn online.

**STUDENTS** sit in assigned seats that are arranged in rows rather than in pods.

**HIGH-TOUCH AREAS** such as chairs, desks, and doors are sanitized at regular intervals (elementary) or between classes (secondary).

**STAFF** are trained to maintain safe environments, recognize COVID-19 symptoms, and interact with students while maintaining a safe physical distance.

**FACE COVERINGS** are worn in school buildings by all people who are able, as per the governor's mandate. This includes students in grades K-12. Staff must wear both face masks and face shields.

**SPECIALS/ELECTIVES** may be taught inside the classroom.

**HAND WASHING** throughout the day is encouraged by teachers at all grade levels.

**PHYSICAL DISTANCING** measures in classrooms include fewer desks spaced 6 feet apart.

ISD  279

# Hybrid Learning Model

## PLAYGROUNDS

and other outdoor areas remain open. Students are reminded to stay 6 feet apart, and additional cleaning takes place on hard surfaces.

## WATER FOUNTAINS

are turned off, though students may refill reusable water bottles.

## OUTDOOR SPACES

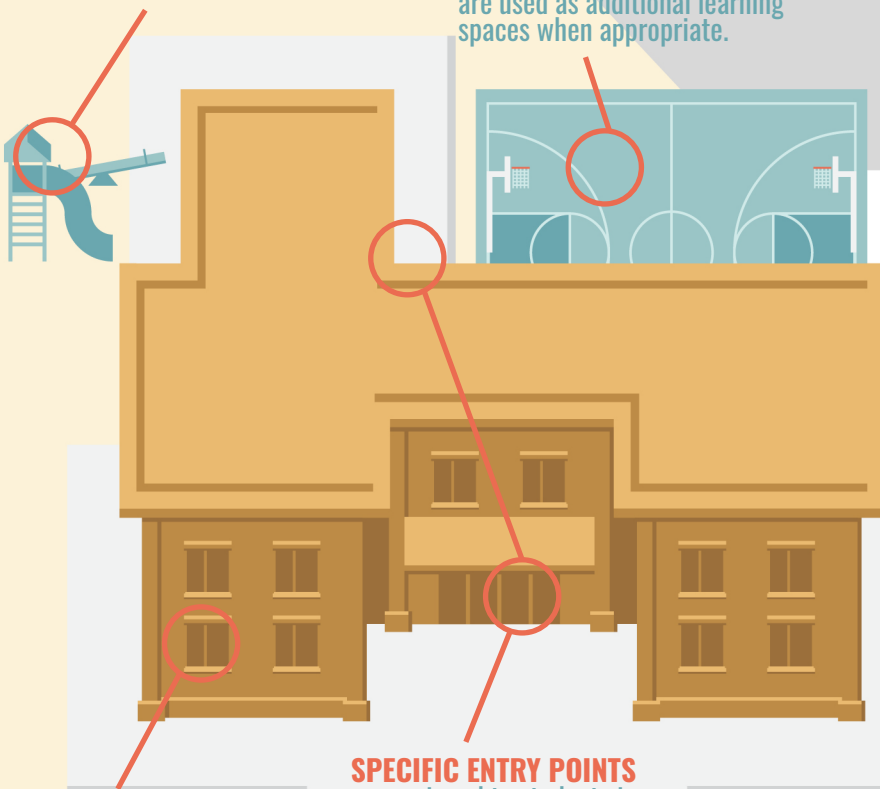

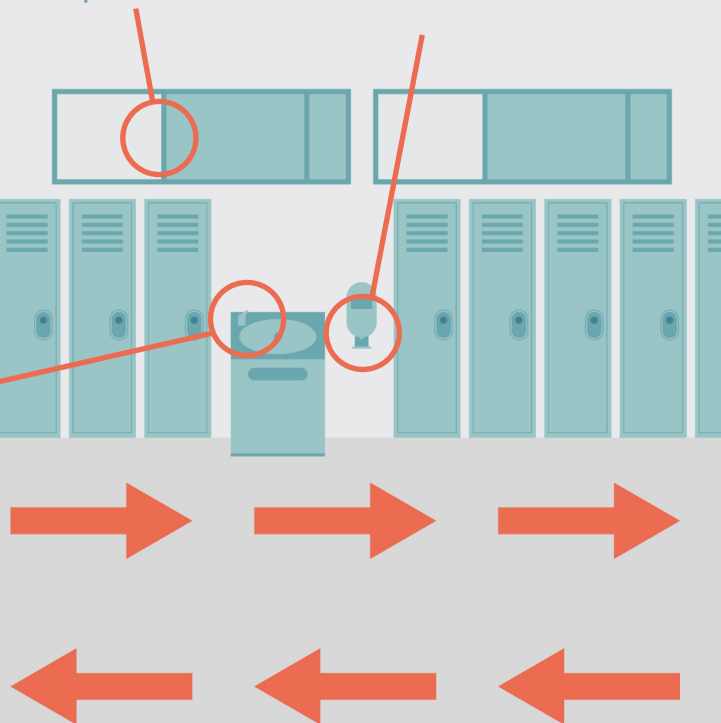

like fields, courts, and open areas are used as additional learning spaces when appropriate.

## WINDOWS

remain closed to prevent untreated air from entering the space.

## HAND SANITIZER

is available at all entry points to the building and inside classrooms.

## ISOLATION ROOMS

are available to individuals displaying COVID symptoms until they can be picked up from school.

## SPECIFIC ENTRY POINTS

are assigned to students in order to maintain physical distancing.

## ALL GROUPS ARE SOCIALLY DISTANT

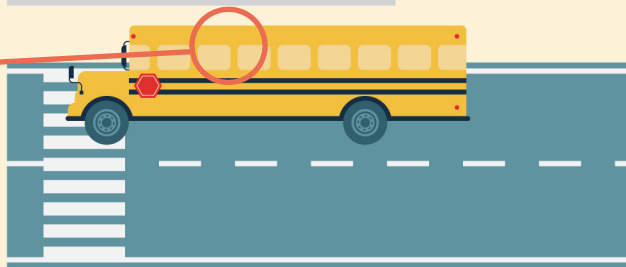

when congregating in large areas like cafeterias. There are no large assemblies and few school visitors.

## MEALS

are served to students in the cafeteria and other common spaces using proper social distancing. Some grab-and-go breakfasts are served in classrooms. Meals are sent home with students for home learning days and provided to students enrolled in the DLA.

## BUS

loading and unloading are coordinated to maintain distance. Students are assigned seats.
