COVID 19 Corrected Update

January 21, 2021

Dear Holmdel Community,

Earlier today, we received a new notification from the New Jersey Department of Health and the CDC updating their COVID 19 recommendations as of January 19, 2021. Based upon this information, we sent you a message notifying you of a change in the quarantine guidelines.

A few hours ago, we received a new update from the New Jersey Department of Education revising these new guidelines, which changes some of the information that we shared with you earlier. The "[Revised January 19, 2021 Guidelines](#)" corrects the State's error regarding the quarantine procedures. The chart on page 3 under High Risk clearly shows that individuals that are in direct contact (close contacts) with a person exhibiting COVID 19 symptoms **must still quarantine**.

Please contact our office if you have any further questions.

Dr. LeRoy Seitz
Interim Superintendent of Schools
