Learn How to Set Both Broad And Narrow Goals

Lisa Van Gemert, The Gifted Guru

Having a big goal increases motivation. When you know that the task you're doing is moving you toward that goal, it helps you keep working even when the going gets tough.

At the same time, gifted people often change those big goals quite often, and you can end up feeling like you never achieve anything because your target keeps moving.

The solution? Make sure that you set some narrower goals in addition to your big goals.

Narrow goals give you the opportunity to feel a sense of accomplishment and progress, even if your broad goals are a moving target.

A broad goal would be to become a doctor.

Preschool and kindergarten students must reside in Salt Lake City School District boundaries for Opt-In/Application assessments. The only exception is a parent/guardian who is a district employee.

Thank you to the parents and educators who support the Extended Learning Program. We appreciate those who have attended the parent/educator events in the past. There will be another event coming this spring. Look for more information through the ELP website and this newsletter.

Perseverance is not a long race; it is many short races one after the other.
