

Davie County Schools Operating on Remote Learning Day Friday, Jan. 8

Good afternoon DCS Family,

Due to the threat of inclement weather, Davie County Schools will operate on a remote learning day for all students on Friday, January 8. We have been monitoring the forecast and understand that getting this information as far in advance as possible is ideal for planning. We will continue to try to make these calls the day/night before whenever possible.

Our plan remains to have "snow days" when we have true snowy days. We feel strongly about the importance of children enjoying that time playing in the snow. However, this week we must balance the importance of end of semester testing and protect students' exam schedules at the high school level.

Certified staff should work remotely on a regular schedule or report to work at your discretion. Please contact your supervisor to make arrangements.

Classified staff may report to work or work with your supervisor regarding leave or make up time.

We hope everyone remains safe and please use caution if travel is necessary. Thank you and have a great afternoon!
