November 23, 2020

Dear Families and Staff:

We were recently informed that a member of the Stonington High School community, a member of the Stonington Middle School community, and a member of the West Vine Street School community have tested positive for COVID-19. **All individuals were already following a quarantine protocol and have not been attending school in-person**, therefore there is no contact tracing for the schools to complete.

Please visit the [Ledge Light Health District](#) website and our district site, for more information related to COVID-19. We will continue to provide regular updates on the number of cases in our school community and will provide immediate notification anytime the school is required to conduct contact tracing.

As we approach the Thanksgiving holiday, we'd like to remind you of the importance of continuing to communicate with the district, regarding probable cases and/or test results related to COVID-19. ***Please report test results and/or concerns related to COVID-19 that may impact the school district, to a member of the school administration over the holiday break.*** During the week of distance learning, starting on November 30th, you can reach the school nurse via email. You may also email the nurse to request that they contact you by phone regarding any information regarding COVID-19.

This information is essential in ensuring a safe reopening on December 7th.

Sincerely,

Dr. Van Riley
Superintendent
