

BOARD GOALS

And Benchmark Measurements of Success

2020-21

The B-ESD's mission is to educate each student for lifelong success.

Student Achievement

The Board maintains its strong commitment that Burlington-Edison students exceed Washington State average performance on assessment measures and that the system is able to deliver quality instruction for every student.

- Students will meet progress measures as outlined on the District's Road Map
- Increase on-time and extended graduation rates and the number of students who are eligible to enroll in post-secondary education as outlined on the Road Map
- Increase access to digital resources
- Implement K-8 literacy and social emotional curriculum and provide professional development for educators

District Continuous Improvement

The Board is committed to reviewing the implementation of the district's Road Map and the aligned school improvement plans that are based on a continuous improvement process.

- Administration will create a five year strategic plan
- The Board will have a progress update two times a year that will include individual building improvement plans

Parent and Community Connection

The Board will continue its strong efforts to engage parents and the community in supporting high levels of student achievement.

- Build on key strategies to increase and continue removing systemic barriers for diverse populations
- Increase opportunities for parents and community members to provide feedback about district programs
- Communicate how significant funding changes, required by the state, affect the District

Facilities and Property

The Board will continue evaluating student enrollment and its impact on facilities and property needs for the future.

- Develop a six-year Capital Plan

Fiscal Planning

The Board is committed to being good stewards of taxpayer dollars and will implement responsible long-range fiscal planning that addresses the mission and vision of the district.

- Maintain the Board's goal of 4% general fund reserves
- Monitor capital levy implementation
