

Community Council

Agenda Jan. 20, 2021 4:30 p.m.

Room 30

1. Welcome: Attending were Julie Lundell, Stacey Rowher, Maree Pope, Eric Peterson, Jen Merrill, Lori James, Amanda Mitchell, and Tara Turner
2. Review of Minutes: Approved by Maree Pope, and seconded by Jen Merrill
3. School Improvement Plan—Lori James discussed the significant reduction in discipline referrals this year as compared to last year and the SEL strategies that have contributed to that—Julie Lundell shared Dibels data and the growth that has come between beginning and middle of the year testing. We will further drill down to the message of the data, including the number of students who have transitioned to Davis Connect, as we have barely completed the middle of year testing.—Mrs. Lundell discussed teacher surveys and their desire to continue to use Trustlands funds to support TAs to help intervene and personalize student instruction for growth. We also received feedback to continue utilizing Trustland funds to update technology, as we have some on a lease that is ending this year. Davis Ed Foundation is assisting with this funding, as well as our fundraiser held earlier in the year.
4. School Business—1) Digital Citizenship & Safety review by school STS, Tara Turner 2) Summit Learning application

for 5th/6th grades by Julie Lundell: Teachers have visited other schools to observe in place, and each have agreed to apply for Summit Learning platform. Application was completed and submitted, with approval from Davis School District. Looking forward to teacher trainings and parent information nights coming up to prepare for this opportunity to begin next year.

5. Community Business: Mrs. Merrill reported on her community council training that she attended. She discussed getting feedback from parents to help guide decisions as you identify yourself as a school community council member. She spoke to giving parents a strong voice in the schools and making decisions pertinent to our own school, along with being an active participant as a community council member. Mrs. Lundell reviewed our bike/scooter parking areas as discussed in the last meeting & our actions to this point to establish a set scooter parking zone. With the slating for a remodel on the next bond, there will likely come additional changes in parking, dropping off zones, etc. that will further affect these. We discussed class sizes with the effects of CoVid and what that may look like next year, as we anticipate return of Davis Connect students, along with the basic formula for anticipating the number of teachers we would have.
6. Next meeting: We will look to addressing the SIP (school improvement plan) more deeply during our next couple of meetings. Members are encouraged to contribute ideas towards goals for the upcoming year. We will continue to meet in person for the next meeting.
