Students work on their own startup ideas as they learn to build a business from the ground up. They'll gain new skills, develop greater confidence, and make new friends along the way. As an added bonus, students are provided mentorship through our sponsors at Standard Chartered, and they hear from women entrepreneurs throughout the program.

- Competitive Analysis
- Financials

- Presentation skills, and more!

No prior experience is required, but we do require a completed application form to be considered. You can find the application & more info here:
