

# Wash your Hands

# How to wash your hands

# Why should we wash our hands?

Germs

Dirt

Don't want to get sick

Sticky

# When should we wash our hands?

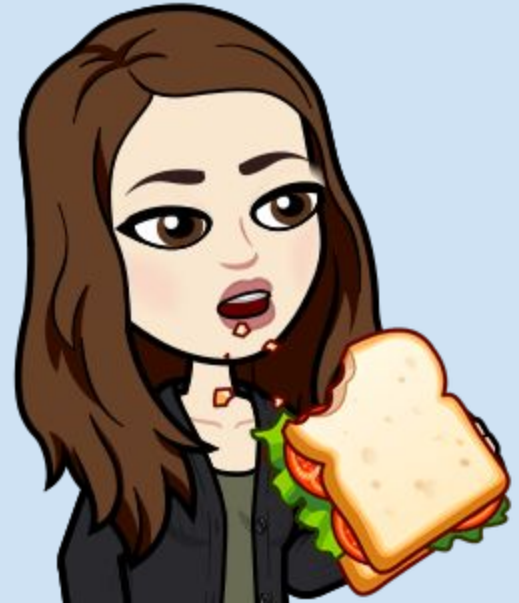

Before and after eating

After using the bathroom

When you get home

After touching an animal

If your hands are dirty

# Experiment time

Do you think washing your hands with just water gets rid of the germs on your hands?

Or

Do you think you need soap to get rid of germs?
