# ADDING THE SAAS SAFE ACCESS HEALTH SCREEN LINK AS AN APP ON YOUR SMART PHONE
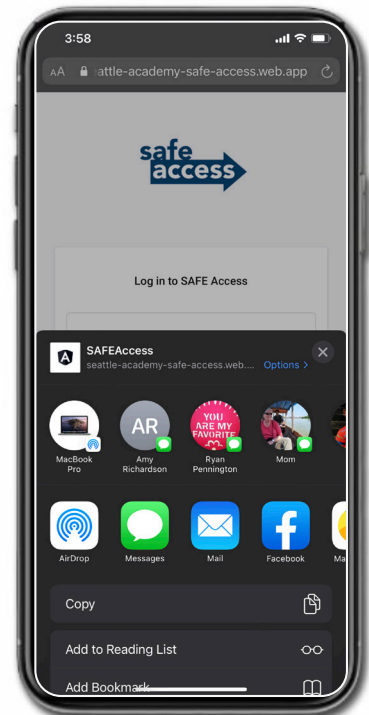

1. Using the browser on your phone, go to this link:
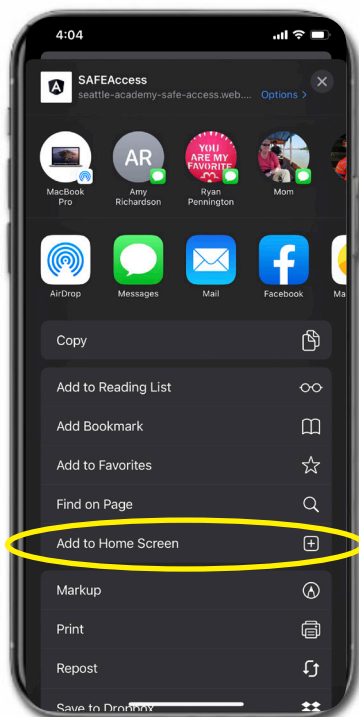

**https://seattle-academy-safe-access.web.app/login**

2. When the page appears on your browser, click the "share to" button - circled here in yellow.

3. You'll see common share options at first, but you can scroll down (or swipe up) to see additional options listed.

4. Find the option called "Add to Home Screen" and click.

5. The new "button" (that will go directly to the link) will now appear as an "app" on your screen as shown here.
