Qualitative Question Results

Ideas I most want to remember...

- Classroomscreen!
- I definitely want to try and use some of the technology websites in my class. Out of all the stuff that was introduced I really liked "classroomscreen" and "quizizz." I really want to explore these resources more and find ways to incorporate it into my classroom.
- I really like Quizizz and I would like to find some music templates to work with. I would also like to remember to use common sense education! I like how easy it is to use and look through their lesson plans. I also like Flipgrid for video conversations and SeeSaw for music assignments!
- I want to explore Seesaw to see how I can use it in my 8th grade math class.
- I want to try using the Quizzizz website with my students.
- I will remember all the websites. I wrote them down and really appreciate all the ways she mentioned how to implement technology even into the primary groups.
- Implementing the 4 C's into digital lessons SeeSaw, book snaps, common sense media
- Integrating digital citizenship lessons using Common Sense Media Creating scaffolds for writing through Power Point slides on Teams
- is all the technology that I can use to engage students in learning. The websites that I would like to implement with my students are seesaw, kahoot, teams.
- Microsoft Teams is something I see myself using. It was great getting to familiarize myself with the system during our session.
- The different ways that I can use the various websites as well as how to access all the technology in order to have the students show their understanding in new ways.

I appreciate...

- How happy and carefree the PD was at the end of a long week!
- I appreciate all of the different ideas that Sara provided us with.
- I appreciate all the different websites that we were introduced to do. I am always looking for new websites so it was great being shown various websites to help incorporate technology.
- I appreciate Sara showing us all these different resources for technology. She did a great job explaining how to incorporate technology easily into our class. She made following along easy and gave us sufficient time to explore it ourselves.
- I appreciate that we were given time to explore each individual site that was presented to us. Lots to use.
- I appreciated all of the websites she showed us. She exposed us to lots of options to integrate technology!
- learning about the websites that can facilitate my classroom management. I really liked classroomscreen.com and would like to implement it in my classroom.
- Sara's enthusiasm for technology use and implementation in the classroom.
- the various websites and apps as well as the descriptions and the uses.
- The visual of the Powerpoint was very helpful. I also appreciate the offer of help in the classroom setting.
- The wealth of knowledge that Sara always provides when she speaks!

What additional professional learning would you like in order to build your capacity pertaining to this session's topic?

- I feel like a possible part 2, to this NTN would be helpful so that we can explore more resources and go more in depth.
- I would enjoy having more technology NTN's maybe focused on specific websites and apps.
- I would like to know content-specific technology and examples of how we can use technology to differentiate lessons for the students.
- I would like to learn more about SeeSaw and Quizizz. I will be applying for badges!
- I would love to be apart of a part 2 of this session that Sara would run
- I would really appreciate a second session. I believe it would be helpful after implementing the the ideas presented in the NTN, into my classroom.
- More in-depth Teams implementation.

Additional comments...

- Great presentation!
- Having an opportunity to explore these websites or apps ourselves was helpful. I was able to see first hand what my students would possibly enjoy.
- Thank you for your time! Always looking for more ways to implement technology.
- Thank you.
