

## High School Change of Semester Information

---

February 3, 2021

Dear PSD High School Families,

We appreciate your patience as we finalize class schedules for the new semester starting on Monday, February 8.

Our high school leadership teams and school counselors are working very hard to make the hybrid in-person and remote models work for everyone. During this waiting time, we respectfully request that you do not contact your counselor with schedule concerns. Everyone at our high schools are working diligently to prepare these schedules to be accessible to you and your child as soon as possible.

Regardless of a student being in the hybrid or remote model, they may see changes to their schedule. Setting up the hybrid model has been challenging and complex as we strive to meet the needs of all of our students. We regret that some options for classes will be limited as we support both in-person and remote learning.

If a student has chosen to continue with remote learning, it is possible that they will have teachers from any high school in the Peninsula School District. We understand this can be unsettling for some, but we'd like to assure you and your child that we have outstanding educators across the Peninsula School District.

Please look for communication from your student's school on Friday, February 5 by 5:00 for information on schedules, and when they will be posted.

There will be a formal "schedule change" request process that will be communicated by your child's school next week.

Thank you for your cooperation and understanding.

Sincerely,

PSD Leadership
