CONTRACT #2059 11.14.2019 QUESTIONS AND ANSWERS CONT'D

42. Regarding the Library – can you provide the current monthly lease amount so we can come up with a buyout figure?

ANSWER: the Toshiba 3005AC and Kyocera 5526 Copier Systems \$130.99 monthly.

43. On the Vernon Town Offices Copier Device Locations and Configurations sheet, the Police Department, Administrative Office finisher column states 2 tray w/stand – I attended the walk through, but do not know if there is a finisher (stapler) on this machine – can you clarify?

ANSWER: This machine can fax and staple.

44. Added Registrar Machine – Can you please clarify if this machine has a fax and/or finisher? And by “large output bins” do you mean high capacity paper feeder in addition to the 4 drawers?

ANSWER: This machine can fax and staple. Large output - bins that can hold a large amount of paper.

45. Added Library Machines – Toshiba 3005 – please clarify how many paper trays and if this machine has fax and/or finisher capabilities.

ANSWER: YES: Scans and Color, multiple trays 8X11 and 11X14, no finisher.

46. Added Library Machine – Savin 9025b – please clarify how many paper trays and if this machine has fax and/or finisher capabilities.

ANSWER: This is the coin operated machine. It does do color with two trays 8X11 and 11X14. It does not scan or fax. No finisher.

47. BOE Machines – please confirm that there are no 3-hole punch in any of these machines – there are some listed on the Town machines and I don’t want to leave anything out.

ANSWER: According to the BOE they have some that do punch holes, however, no official count.

48. How many total printers are there for the Town and BOE? Can you please provide breakdown of mono, color, mono multifunction and color multifunction?

ANSWER: The walk through was designed so each vendor could see, count and inspect the machines in our offices. We have some printers on the present contract and some that are not, it was pointed out at the walk through that any printer with a sticker on the front is on the contract and those without are not. No breakdown of each.
