

Endeavour Elementary School
Community Council Agenda

Date: January 12, 2021

Attendance:	Vanessa Mori	Cindy Nottingham	Michelle Berg
	Lisa Simmons	Stacie Dorius	Erika Gerlach
	A'Neil Locke	Tarrah Randall	

1. Welcome/Approval of last month's minutes (1 minute)

Motioned by: Erika

Seconded by: Staci

2. Vanessa (2-45 minutes)

a. SIP Update with Data Review & Proposed Goals

In TEAMS under trainings, Vanessa posted a timeline update to enter the school data. Cindy, Vanessa, and Lisa will be trained in the new software for data collection. Surveys were handed out to teachers to identify needs related to STEM so we know what their needs are. We are implementing all the Seed Curriculum this year with everyone participating.

This week is our Acadience testing is going on and we are so appreciative of our trained TA's to meet the needs of our students. They have been vital to our success.

40% of the classrooms have received their updated sound system. It has been so nice to be able to hear the teacher and students with masks on. Thank you!!!!

We should push forward with our science goal, ELA goal and STEM. Cindy has been working for months on our stem platinum designation renewal. A grade level rep from every grade level is helping Cindy gather this data. Usually, this time of year we would be submitting our information and then they would come visit to see that the data is valid. This year it will look a little different. February 11/12 we will have everything ready to go. It is a huge undertaking and it is so fun to see all the awesome things going on at Endeavour.

We have started the process of getting vaccines in our district. It is super slick and smooth so our staff can receive the vaccine. Our Davis School District Nursing staff has been helping with this process.

b. Review of Emergency Off-Site Locations

All the schools that are close to the pipeline had a meeting and Vanessa realized that our meeting place is to the east of the pipeline. We cannot get to our site if we must cross the pipeline. We need to find an alternate site and update all our documentation and communicate out to our families. The current safety plan will be on TEAMS. We need to update this before our next meeting. We will need to educate our students and be vigilant to get more eyes on that area during emergency situations. Lisa and Staci will work on this plan with Vanessa.

c. Competency Based Learning Discussion (Monica Flint, Curriculum Department) Monday, Feb. 8th at 4:00 p.m.

Every community council will be meeting for 20 minutes. She will discuss how we assess students and how we grade on competency-based system.

3. Other (10 minutes)

- a. (Erika) Teaching the students to their current level- extension and remediation! Let's keep this in mind with our budget. We funded Korynn Turner for double the time to extend the SEM opportunity to more! Let's keep our kids engaged! Vanessa went to Farmington Elementary to view summit learning. It starts at a 4th grade level. It is so like what we are doing, and we would love to see this in action. 4-6

will be visiting to see it in action. It allows students to dive deep. It is a complete commitment and a longer process. It is very rigorous.

b. Budget Questions (A'neil)

Concern about PPE. Teachers are provided with whatever is needed, however, wipes are more difficult and more costly. They have a spray.

Inauguration...how is this being handled? Vanessa put a link from UEN for the parents and Cindy sent out links that are age appropriate.

c. Change meeting time? (Lisa)

Any change needed? We will still hold Tuesday meetings at 4:00. Do we need to adjust our meeting with Monica for Tuesday? If not, we can record it for Erika. Vanessa and Lisa will look into this 😊

d. Gary Payne is working on our globe bid. There is a place in Salt Lake that is looking promising.

4. Adjourn
