

Endeavour Elementary School
Community Council Agenda

Date: October 13, 2020

Attendance:	Vanessa Mori	Cindy Nottingham	Michelle Berg
	Lisa Simmons	Stacie Dorius	Erika Gerlach
	A'Neil Locke		

1. Welcome/Approval of last month's minutes (1 minute)

Motioned by: A'Neil

Seconded by: Lisa

2. Vanessa (2-55 minutes)

a. SCC training videos discussion

There is just one single new one this year, but there are others you are welcome to watch from last year.

b. Future SCC trainings

There will be a training tonight from 6-8, October 28 from 6-8, and they will also be recorded so you can go back and watch at your own convenience.

Erica had a suggestion for the future that they watch the recorded videos before they come in. Lisa mentioned that if they are running they should watch the videos. This will help people understand what they are signing up for.

c. Acadience Testing Beginning of the Year (BOY) Results

Lori Oliver shared a presentation on our data. There was a significant dive in 1st grade proficiency. Lori mentioned that she is working with first grade to fill the gaps. This is most likely a result of our learning from home that began in March. We saw this across the district. We are required to report our K-3 data to the state, but we still focus on this in each grade level.

Stacie wondered how we can bring up our 1st grader scores? With our need to follow our covid rules, we are giving first and second grade an extra aid. Teachers are inviting students to come in on Fridays for small group and one-on-one instruction. Cindy is working on the Local Case team and they are identifying interventions. If they don't make growth, they are referred for other testing to see if they can benefit from SpEd support.

Erika wanted to know how the kindergarten can get help with their books. Volunteers are there everyday and the program is happening...the volunteers are just staying longer so there is less switching.

This is not published or shared, it was just shared with our community council. Every parent is notified on how their student is doing. Vanessa will put a synopsis of our results in the Mori Memo.

d. Other: Feedback on how the 4 day is going. Michelle shared her love of seeing her students and missing her parents. Cindy shared that overall, the stress has drastically decreased. The teachers are still working so hard on keeping up with the big 5. It forced the teachers to deliver instruction via canvas and now they are prepared. Vanessa shared the same feelings. Friday Logan Toone came into 5th grade

to see how they were organizing their homepage within canvas. This will be shared with the whole district. Monday Reid and Logan to see Michelle's 3d design

Covid-19: Our first case has expired; however, we have a new case and quarantine out today. We have new policies that will allow students to return sooner. At the jog-a-thon there was a complaint. The jogathon was slightly longer, but the kids had their masks on most of the time. The jogathon timeline did not allow for only 15 minutes interaction. If they were with a student 15 minutes or less, we don't quarantine. 2-5 minutes pair shares, 10 minutes or less for groups, 15 minutes or less for lunches and recess.

Lunch time- the kids are not having enough time to eat. Kids can move to a different table if they don't have enough time to finish. Talk to your kids so they are aware.

They get lunch recess and one more 15-minute recess. Student council will add to announcements and put into the Mori Memo.

Busses- they spray down all the seats after dropping off junior high and it sits for a couple of minutes

We are pushing wearing masks to help slow the spread. Our data dashboard looks good, there is just some concern about the secondary numbers. New masks will be handed out on Monday.

So much gratitude from our families for our administration and our teachers.

Next meeting November 10th at 4:00 on zoom.

3. Adjourn
