### INDEX OF CONGREGATIONAL HISTORY MATERIALS

---

#### **Related Collections:**

The Presbyterian Historical Society of the Southwest Records contain historical material on many congregations in Texas and neighboring states. See the inventory for a complete listing.

The Texas-Mexican Presbytery Records document Mexican-Presbyterian churches in Texas from 1908 until the presbytery's dissolution in 1955.

The Synod of Texas (PCUS) Collection includes a set of presbytery albums compiled in 1951 with photographs and statistical information for every church in the Synod. These churches are indexed below. Information on congregations and presbyteries can also be found elsewhere in this collection.

The Presbytery of Central Texas Records contain historical data about many individual churches within the presbytery. Churches with longer historical sketches are indexed below, but briefer histories of other churches are also included.

Presbytery and Synod minutes often include information about individual congregations.

#### **Restrictions:**

Church registers, pastoral records, and congregational minutes are restricted for 50 years from the date of creation. Most other materials are open for research unless restricted at donation.

Materials are available by appointment only. Contact the archivist for details.
