

Steps needed to ensure your incoming Freshman is completely registered and has a schedule for 2021-22 School year

Step 1 - Complete residency verification (ASAP)

It is important to note that your student(s) will not receive classes until residency is complete. Please complete ["Residency Verification and Registration Process"](#) ASAP.

Step 2 - Submit your course selection form via Informed K12 (Feb. 12)

Each family will receive a course selection form via Informed K12. **All forms are due no later than February 12th.** However, you are encouraged to wait until February 3rd to turn them in, so you have a chance to attend the Parent Information Night. We also will be holding a Coffee with Counselors event on Feb. 12th if you have questions you would like answered prior to submitting your course request forms.

Step 3 - Submit course verification form via Informed K12 (Apr. 9)

In early April, all families will receive a reverse course verification form indicating one final check of your student's course requests. At this time, students are given an opportunity to change any of their requested classes before they become final. These forms will be due by April 9. Because we build our schedule based on student requests, it is imperative that students make thoughtful informed decisions.

Step 4 - Pick up a tentative schedule during Firebird Fiesta (Aug. 10)

**We cannot guarantee schedule changes once we have built the schedule, so it is imperative that you complete steps 1 - 4 by the deadlines and make informed decisions about course selections prior to submitting your forms.*

If you have any questions regarding Residency Verification or if you need help obtaining the Course Selection form, please contact Lorena Moreno.
