

Welcome to Region 15 Public Schools

**A Collaborative Community
Committed to Excellence**

Our Mission

"The mission of Region 15, a collaborative community committed to excellence, is to educate every student to be productive, ethical, and engaged in a global society through proven and innovative learning experiences supported by its strong community whose decision-making is based on the best interest of all students."

Theories of Action : What Drives Our Work

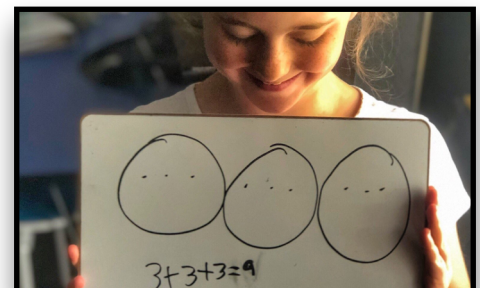

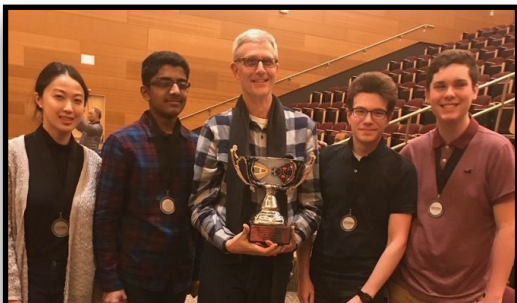

If we foster schools that are **welcoming** and **inclusive** to all students then students will feel valued and they will be better able to access their learning.

If we improve our ability to align assessments to curriculum, improve our data culture, and increase our analysis of student learning, then we will be more equipped to provide meaningful **student engagement & increased achievement**.

If we embrace **communication, transparency, and collaborative relationships within ourselves and the community** then we will improve trust and participation in supporting our students.

If we increase and promote access to career pathways, curriculum, and shared instructional experiences then our district will **prepare students for the world** they will enter after their time with us.

Curriculum

Each of our schools offers an exceptional range of classes and courses designed to challenge and inspire students across the spectrum of academic ability. Region 15 Schools have created an environment focused on enabling children of all ages to reach their full potential as caring members of a global community through relevant, engaging, high quality curriculum and teaching. Embedded in all classes are the skills of flexibility, creativity, collaboration, independence, and self-advocacy, as well as supports for social and emotional development.

Human Resources

Our team is committed to attracting, retaining, developing and recognizing high quality staff to best achieve our mission and objectives. Opportunities for professional development and advancement abound.

Facilities

The Finance and Facility Department assures Region 15 facilities, grounds, and athletic fields are safe, with up to date security, technology and equipment.

Community

The Region 15 Board of Education is the bridge between the community and our schools. The 10-member board comprises six Southbury and four Middlebury representatives elected to four year staggered terms.

Our Graduates

There were approximately 315 students in the 2020 graduating class from Pomperaug High School. We are proud of our students and their accomplishments, and recognize not only their hard work, but the value our community places on the education to prepare our students for life after Pomperaug High School. Last year over \$200,000 was given out to graduates in local scholarships through the generosity of individuals organizations in Southbury and Middlebury.

Region 15 Schools

Pomperaug High School

Grades 9-12

Enrollment: 1143 Students
