

**Please read aloud to students:**

Students,

You are about to take a survey to help us understand your feelings about school.

The results of this survey will help us better understand how the Olentangy Local School District can best support your social emotional needs and will help guide the development of programs and curriculum so that we can continue to help students. This is your chance to help OLSD understand how you feel and give your opinions about your school. You will not be graded on this and your answers will have no effect on your grades in any way.

You will complete two survey sections. The “Student Competency Measures” section will ask you to give feedback on your behavior and feelings in general. The “Student Supports & Environment” section will ask for your feedback about your classes, teachers, and your feelings about your school. You will also be asked to answer a few open-ended questions. No one will see your individual responses to any of the survey questions or the open-ended questions.

**Make sure to click the blue “Submit” button at the end of each survey section or your responses will not be saved.**
