

STEM Programming and Software Development

Robert Medrano
Master in Mathematics,
MTA-Java

Course Description

- Computer Science is a course designed to teach students how to problem solve by creating programs that demonstrate a step by step process.
- The course uses concepts from web design, gaming and software development.
- Students should have completed or taken Alegbra I to begin the sequence.

POS Course Sequence

Business and Industry Endorsement

- 9th PreAP Computer Science
- 10th AP Computer Science Principles
- 11th AP Computer Science A
- 12th Computer Science II

•

Industry Certification/Licensure

- Microsoft Technology Associate

Student Club/Organization

- [Girls Who Code](#)
- ID: TX27328
