WHY YOUR CHILD NEEDS SHOTS:

The California School Immunization Law requires that children be up to date on their immunizations (shots) to attend school. Diseases like measles spread quickly, so children need to be protected before they enter. California schools are required to check immunization records for all new student admissions at Kindergarten or Transitional Kindergarten **through** 12th grade and all students advancing to 7th grade before entry.

THE LAW:

Health and Safety Code, Division 105, Part 2, Chapter 1, Sections 120325-120380; California Code of Regulations, Title 17, Division 1, Chapter 4, Subchapter 8, Sections 6000-6075

WHAT YOU WILL NEED FOR ADMISSION:

To attend school, your child's Immunization Record must show the date for each required shot above. If you do not have an Immunization Record, or your child has not received all required shots, call your doctor now for an appointment.

If a licensed physician determines a vaccine should not be given to your child because of medical reasons, submit a written statement from the physician for a **medical exemption** for the missing shot(s), including the duration of the medical exemption.

A personal beliefs exemption is no longer an option for entry into school; however, a valid personal beliefs exemption filed with a school before January 1, 2016 is valid until entry into the next grade span (7th through 12th grade). Valid personal beliefs exemptions may be transferred between schools in California. For complete details, visit ShotsforSchool.org.

You must also submit an immunization record for all required shots not exempted.

Questions? Visit ShotsForSchool.org or contact your local health department (bit.do/immunization).

No Shots? No Records? No School.

CA Health and Safety Code Section 120325-75

Children may not attend school unless immunizations are up-to-date and an immunization record is presented.*

*If your child is unimmunized due to medical reasons, please provide physician documentation.

Under a new law known as SB 277, beginning January 1, 2016 exemptions based on personal beliefs will no longer be an option for the vaccines that are currently required for entry into child care or school in California. Most families will not be affected by the new law, because their children have received all required vaccinations. Others will not be affected until they matriculate up to kindergarten or middle school, because **personal beliefs exemptions on file for a child already attending child care or school will remain valid until the child reaches the next immunization checkpoint at kindergarten (including transitional kindergarten) or 7th grade.**

More specifically, children currently attending in EUSD under a personal belief exemption will be able to continue in EUSD under these exemptions. However, incoming kindergarteners for the 2017-2018 school year, and students in other grades who are newly enrolling in EUSD from a school outside of California, will no longer be able to attend under a personal belief exemption and will be required to obtain all required vaccines in order to attend school.
