STOPit SafeScreen

COVID-19 Health Reporting System Safe Entry Protocols for Westside Union Students

PURPOSE

A HIPPAA-compliant digital COVID-19 health reporting system that screens, identifies, and stops possible exposed or symptomatic individuals BEFORE they enter school, workplace, or organization.

HOW DOES IT WORK?

STOPit SafeScreen is a web-based system designed for ANY internet connected device or smartphone ensuring full-access and the highest security. Set-up includes a "one-time" setup and daily completion of a health screener sent through email and text.

SET-UP

- An invitation email will be sent to you by the site principal from STOPit SafeScreen Registration Set-Up
- Click on the set-up link in the email to set-up your child's account
- For siblings, the same email can be used for each student account
- Parents can use their child's name as the user name and a different password for each child
- Log-in each morning to complete the screener for each child

DAILY USAGE

- Users receive a system-generated alert (via email and/or text) to take the health screener
- The individual clicks through the link, signs-in, and takes the screener
- The screener is a set of questions based on CDE, NIH, and local guidelines

- The user is instantly informed if they can or cannot enter the building, receives a date-stamped, color coded "Entry Pass"
- Site administrators have access to a report showing entry status
- If red, contact the school through either by chat feature in the screener, phone or email to document student absence.

WHO RECEIVES THE RESULTS?

- Administrators and the COVID Compliance Team receive screener results within the real-time data dashboard with instant-alerts, via text and email
- Screener results will not result in a direct phone call from the school or district. If you have questions, contact the school site.
