

Charter, Online, Home, and Private School Student Participation in Davis School District Programs

A student desiring to participate in a class, co-curricular activity, extracurricular activity, or a curricular club at his/her boundary school must qualify, register, and pay applicable fees each school year. Classes/activities held during the summer break which begin prior to July 1 will be considered as part of the prior spring's school year. Classes/activities beginning after July 1 will be considered to occur during the school year beginning the following fall.

Name of Charter or Online school _____

PARTICIPATION IN DAVIS SCHOOL DISTRICT PROGRAMS

A charter or online school of enrollment shall pay a one-time annual school participation fee of \$75 per student to the District boundary school as well as any waived student fees (if the student qualifies for fee waivers) prior to the student's participation. Determination of fee waiver eligibility is the responsibility of the charter or online school.

The student will not be allowed to register, try out, or participate in any District program until the fees have been paid.

A charter or online school shall cooperate fully regarding student's participation in try-outs, practices, pep rallies, team fund raising efforts, scheduled games, and required travel as well as providing complete and prompt reports of student academic and citizenship progress or grades upon request.

The charter or online school must issue a check for the fees due and attach it to this signed form.

Charter, Online, Home, and Private School Student Participation in Davis School District Programs Instructions

Utah state law and Davis School District policy allow a student enrolled in a private, charter, or online school or who is home schooled to participate in a class, co-curricular activity, extracurricular activity, or a curricular club at the student's boundary school if:

- the student's school of enrollment does not offer the program;
- the student's school of enrollment approves participation;
- the student meets District and school standards of eligibility;
- the student's parent agrees to provide student transportation to and from the school; and
- all applicable fees are paid.

For purposes of administering this policy, the following definitions apply:

"Charter school" means a public school authorized and operating under The Utah Charter Schools Act and educational services may be delivered in a traditional brick and mortar school building or online at a student's home.

"Online school" means a public school that offers full-time education primarily over the internet. The school follows state core standards, mandates testing of the student, and provides instructional assistance by highly qualified, licensed teachers. The school may be operated by a charter school or a school district.

"Home school" means the formal instruction of children in their homes where the student is not counted in membership of an online, charter, or other public school. The curriculum instruction, and evaluation of student progress, are provided or administered by the parent, or other group of individuals; and instruction is not supervised or directed by a school, district, or charter school.

"Private school" means an educational institution that is not a school district, charter, or online school; is owned or operated by a private person, firm, association, organization, or corporation; and is not subject to governance of the Utah State Board of Education.

"Boundary school" means the District school within whose attendance boundaries a student's parent resides, and/or, the District school from which the student withdrew for the purpose of attending a charter online, private, or home school.

Extracurricular activity means an athletic program or activity sponsored by a District school and offered, competitively or otherwise, to a student outside of the regular school day or program.

"Co-curricular activity" means a school district or school activity, course, or experience that includes a required regular school day component and an after school component. In an effort to accommodate charter/online/home/private school student participation in District programs, the District does not require a class to have an after school component for a student to participate in a class. However, all other pre-requisites apply.

"Curricular club" means a club that is school sponsored and that may receive leadership, direction, and support from the school or school district beyond providing a meeting place during noninstructional time. If a curricular club, at a student's boundary school, has an associated class during the regular school day, the student must be enrolled and attending the class to participate in the club.

"Noncurricular club" means a student initiated group that may be authorized and allowed school facilities use during noninstructional time in secondary schools by a school and governing board in accordance with the provisions of state law. A noncurricular club's meetings, ideas, and activities are not sponsored or endorsed in any way by a school governing board, the school, or by school or school district employees.

Charter, Online, Private, and home school students may only participate a noncurricular club if the student is enrolled and attending one or more class(es) at his/her boundary school.

Prior to enrolling, participating, or trying out for an activity, the following fees shall be paid:

"School participation fee." A student enrolled in a charter or online school must submit a request for payment to his/her school of enrollment and the charter or online school must pay the mandatory \$75.00 school participate fee to the District where the student is applying to participate. This fee is required one time per school year per student. This fee does not apply to private and home school students.

"Student activity fee." Students shall pay the student activity fee approved by the Board and charged to all students (generally at the time of registration) to supplement the costs associated with school activities. This is in addition to any "student activity specific fees" or "student registration fee" and is required one time per school year per student.

"Student activity specific fee." Students shall pay the student activity specific fees which are charged to all students participating in a designed program and are determined by the boundary school in compliance with the Board's adopted School Fee Schedule.

"Student registration fee." All students registering for a class or classes held during the school day are required to pay basic student registration fees. Apart from the student activity fee, students registered ½ time or less should pay ½ the base student registration fees.

"Fee waivers." A student who is financially unable to pay the required student fees may apply for a fee waiver. Fee waiver applications for charter and online students must be reviewed by the student's charter or online school. Any fees waived for a charter or online student must be paid by the charter or online school prior to allowing the student to participate. Fees for qualifying private and home school students shall be waived by the District boundary school as outlined in District policy.
