I am so excited to get back on the course! Bay Oaks Country Club is a popular 18-hole, Houston golf course with Bermuda grass fairways and water hazards on 14 of the holes. Designed by Arthur Hills, the course has narrow fairways on the front nine and a links-style design on the back nine. Elevated greens are sloped heavily and are sometimes hard to read, but this simply adds to the competitive challenge that is hard to find on golf courses in Houston. Make sure to bring lots of balls, though (just in case those water hazards come into play).
