535 - CLASSROOM SUPPLIES AND MATERIALS FEE

No student will be charged a fee for books or supplies necessary to complete the basic educational requirements for graduation.

In classes (such as shop, ag, home economics, art, etc.) where projects are completed using materials (wood, metal, cloth, ceramics, paints, etc.) purchased by the school district, the project completed remains the property of the school district unless the student wishes to purchase the item for the actual cost of materials.

In any class where a student elects to build or make an item above and beyond minimum course requirements, the student will pay for all materials used and retain ownership of such project.
