

# DAILY VISUAL SYMPTOM SCREENING UPON ENTRY

**Students will be screened daily for symptoms of illness on entry to bus/school/outside learning space.** This can be done visually as well as asking students and staff about any new symptoms or close contact with someone with COVID-19.

## Visual Screening

- Unusual coloration (flushed or pale)
- Unusual behavior (lethargy, fatigue)
- Chills
- New or significant coughing\*
- Shortness of breath\*

\*Respiratory symptoms NOT typical for the student or explained by known health conditions.

## Reported Symptoms of Illness

- Nausea/vomiting/diarrhea
- Headache
- Muscle pain
- Fever, chills
- Sore throat
- Loss of taste or smell
- New nasal congestion, runny nose
- Feeling unwell

If any person is **visually screened** to have possible signs of illness OR **reports symptoms of illness**, the person should be referred to designated isolation room staff for further screening. Further screening will determine if symptoms require isolation and/or exclusion from school.

**The following emergency signs require immediate medical attention. Call 911 for:**

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion or inability to awaken
- Bluish lips or face (lighter skin); grayish lips or face (darker skin)
- Other severe symptoms

Student screening should not consider appearance (i.e. clothing, hair), personality (shy), ability or cleanliness. Screenings will be conducted safely, respectfully, and in accordance with privacy laws and regulations.
