## **Can employees be enrolled in free Apple Health (Medicaid) coverage?**

Yes, you can enroll in both. But SEBB-benefits eligible employees cannot waive SEBB enrollment. You may be eligible to receive reimbursement of your SEBB medical premium. [Find more information about the Premium Payment Program.](#)

## **Can employee's children stay on Apple Health for Kids with premiums (CHIP) coverage?**

No. Their eligibility for Apple Health for Kids with premiums (CHIP) coverage will end at their next review, even if you waive their enrollment in SEBB coverage. Children of employees with access to a publicly funded health plan such as the SEBB Program are not eligible for Apple Health for Kids with premiums (CHIP) coverage.
