

Dear Faculty and Staff,

We are thrilled by the number of nominations we received for our 2020 Health Heroes Award. We appreciate you taking the time to recognize your co-workers for their efforts to live healthy lives and be an influence for good to those around them. It was difficult to only choose 20 from all those who were nominated. All are deserving!

We love to celebrate employees within Davis School District who demonstrate their commitment to live well through healthy lifestyle choices and actions. These individuals, **HEALTH HEROES**, have positively changed their lives for the better or have been able to positively influence and inspire others around them.

Congratulations to our 2020 Health Heroes! We will be recognizing them at their school or in their department in the coming weeks.

Annette Ainscough- Farmington Jr.
