Virtual Middle School Activities:

MODEL UN

This after school program is a simulation of the United Nations. The parliamentary debate structured from Model UN will give the students the opportunity to present and debate topics they are passionate about and learn to advocate for a better world.

Students will learn to draft and present position papers, draft resolutions and negotiate to rally support for their legislation. This program is an excellent way for students to learn how to delegate, collaborate, resolve conflict and advocate for a better world.

The class is offered by Ms. Amanda Sawyer, Founder and Director of “Dedimus Potestatem”.

MODEL CONGRESS

In this class, the students learn about the electoral process, lobby for issues they are passionate about, draft and deliver bills, amend legislation, debate about international policy and learn how to effectively represent a constituent body of their choosing.

The materials used are from The Constitutional Rights Foundation, ICivics (founded by Justice Sandra Day O’Connor) and the National Model U.S. Congress. These resources have been proven to improve students’ civic knowledge, presentation and core literacy skills. New research has also shown that the use of the aforementioned materials has also led to increased participation in the democratic process. Our objective in this course is to educate the next generation, nurture and inculcate a passion for civics and history and encourage young people to advocate for themselves.

DEBATE & PUBLIC SPEAKING

The objective of this program is to prepare students for the myriad situations both in and out of academia that require formal and informal presentations.

Students will learn how to craft and present arguments, opinions and ideas.

They will learn the fundamentals of rhetoric and will practice informing, persuading and motivating an audience in a variety of ways. The grading rubric was adapted with the permission of Neil Mercer, the Director of research at The University of Cambridge.

The instructor of this class is Ms. Amanda Sawyer. She has taught students at the Lemay Preparatory, Ecole International, the Hudson School, Packer Collegiate, Dalton, St. Bernards and Horace Mann. Her program is focused on social skills, public speaking and presentation. It was developed in conjunction with The University of Cambridge.

Their findings showed that after several months of activities and exercise in communication, delegation and presentation the children's literacy, arithmetic and reasoning scores improved significantly.

The class is offered by Ms. Amanda Sawyer, Founder and Director of “Dedimus Potestatem”.

Virtual Middle School Activities:

Jr. CEOs

How cool would it be for students to be the boss of Apple or Tesla for a day? In this leadership class, it is possible! Students act as CEOs for leading companies and work in groups to make strategic recommendations to address real business issues.

Students enhance their problem-solving skills, develop business savvy and cultivate a strategic mind-set as future leaders. Case studies include Apple, Amazon, Coke and more! This class is offered by SPARK Academy.

STOCK MARKET Club

Its mission is to promote financial literacy and empower students with the tools and mindset to make educated financial decisions and develop into responsible global citizens.

ENTREPRENEURS CLUB

In this club, students select a “business idea” learn what it takes to launch a business.

They build self-confidence while gaining a valuable exposure to the business fields of strategy, marketing and finance.

They develop a business plan and make a “pitch” presentation on the last day. They even create a real website (no coding required) and design their own business cards. Financial literacy is an essential 21st century skill that will give students an edge in life”. This class is offered by “SPARK Academy”.

I Am a Writer

I write.
I write the truth.
I write what reveals truth.
I write my perception of the truth.
I write what inspires the truth in others.
I write the truth that causes us to cringe.

WRITOPIA

Writopia Lab runs one of the most fun and productive writing workshops for children and teens in New York City. Each year, Writopia teens win more writing award than any other group of students. While the focus of the writing workshops is on story and creative expression, the students explore structure and grammar and ultimately organize their thoughts into coherent, fluid complete narratives. Workshops are run by published authors or produced playwrights.

The method is student-centered; at Writopia, teens write at their best ability. Sessions are peppered with instructive games and helpful exercises.

Each writer leaves the workshop with a completed piece in hand.

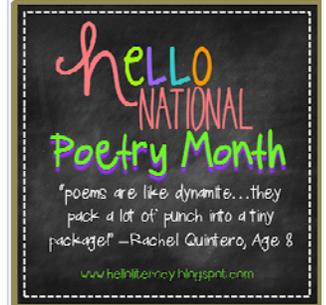

Virtual Middle School Activities

FINDING YOUR VOICE: WRITING POETRY

This course will attempt to demystify poetry as an inaccessible art form of antiquity and reveal it for what it is; an invaluable tool for communicating thoughts, understanding feelings, and articulating experiences.

It will explore the difference between written and spoken word poetry, the difference between literal and colloquial meanings, the mechanics of effective metaphor, and will ask important questions of ourselves and the authors review to better understand intent.

By the end of this course each student will have a stronger command of the English language as well as a useful tool for processing their experiences in a productive and healthy way.

FINANCE CLUB

In this class students learn how to manage their money - an essential life skills! They set their financial goals, develop a budget from scratch, shop for a credit card, calculate the monthly cost of your dream car, apply for a mortgage, learn about FICO scores, file taxes & more. Students internalize the dangers of piling up debt and how assets and liabilities affect a person's net worth.

Through simulations and hands-on activities, students explore financial decisions they will have to make in the future. A solid step towards future financial independence!

This class is offered by "SPARK Academy".

ECONOMICS

In this practical class students internalize how economic principles apply to their lives.

Whether it is saving money in a vacation from a change in exchange rates to having to pay a higher price for the iPhone everyone wants.

The students in this class will learn concepts that will help them make better economic decisions.

Topics include: Supply and Demand - Opportunity Cost - Inflation - Interest Rates - Unemployment & Underemployment - Budget Deficit & Public Debt - Taxes - International Trade & Exchange Rates - Economic Development

This class is offered by "SPARK Academy".

BIOETHICS

This program is recommended for students in middle and high school. All sessions will be held virtually.

The class is offered by Ms. Amanda Sawyer, Founder and Director of "Dedimus Potestatem".

Virtual Middle School Special Activities:

MUSIC PRODUCTION

In this class the students explore the world of digital music and sound editing, side by side a professional musician. They will create projects including making their own ring tone, and songs with and without lyrics. They will work both on their own projects as well as a live group song.

The students will have the opportunity to play instruments live and learn to record and add them to their music. They will also have the opportunity to create original lyrics to sing and add to the projects. This is a great class for both novices and those experience in music and singing.

This class is provided by CinemaKidz a New York City's premiere STEAM and Media program.

CLAY DESIGN CLUB

Clay Modeling & Character Design Workshops explores the art of Clay Modeling.

This artistic class helps student's improve their creativity, fine motor skills and artistic capabilities. Monsters, Fairies, animals, backdrops and all sorts of creatures will hand built to create an amazing Clay World.

Different techniques will be implemented such as pointillism, spreads, textured clay among others. "Sculpting let children and adults express their feelings and creativity in a magical manner, even more if this is carried out with such a playful material such as clay".

This class is offered by "Clay World Studio"

FILM MAKING

Young people all over the world have begun using social media platforms to amplify minority voices, educate people about social justice issues and share science, poetry, art, movement, culture and more.

In this class students will learn to capture brief videos that share important and inspiring messages with the world, analyze movements from other young activists that have impacted their communities and use these platforms to advocate for a better world.

MOTHER TONGUE PROGRAM VIRTUAL

The Mother Tongue Program provides instruction mainly for students who already possess good oral and comprehension skills in the languages offered at UNIS and need to work on their reading and writing skills.

The reading and writing activities assimilate grammar and vocabulary. The program emphasizes on multi-sensory learning through verbal, visual and tactile association.

It offers progressive series of lessons organized around themes incorporating creative, customized teaching materials and music. Technology is integrated through the use of different apps and websites are used as a medium of teaching and learning. The program may be beneficial as preparation for the 3rd language program. The students may be required to complete home study activities in order to strengthen their skills and offer additional practice opportunities outside of the classroom.

All classes are subject to enrollment and teachers' availability. The level, the program of studies and activities are at the discretion of the respective language teachers. The students may be required to complete home study activities in order to strengthen their skills and encourage additional practice opportunities outside of the classroom.

The Mother Tongue Program also offers to beginner level students the opportunity to learn the language and culture in a fun and engaging way. Basic vocabulary and oral communication skills will be introduced in parallel to reading and writing the language and a practical use of the language.

Technology is integrated through the use of different apps and websites are used as a medium of teaching and learning.
