Due to the uncertainties surrounding Covid-19 programs such as hot lunch, trips, after-care, and after school enrichment classes have been put on hold for the 2021-22 school year.

As an independent school, Crane Country Day School is autonomous with both our finances and governance. Since we receive no state or local monies, we stand on our own and primarily depend on tuition dollars. However, tuition does not cover the whole cost of a Crane education. We consciously limit tuition increases so that we can attract and retain a diverse and vibrant student community as well as remain comparable to other schools' tuition levels. For more than 90 years, Crane Country Day School has relied on the generosity of our extended community – parents, staffuly, trustees, grandparents, alumni and past parents – for both financial and volunteer support.

We purposefully have just three fundraising efforts we ask for your participation in each year: the Crane Country Fair, the Annual Fund, and the Spring Benefit. We share this information in an effort to both inform families about and inspire a giving culture in our community. For more information, please contact Crane's Development Office.
