WELNET

On the Skyward Login page:

- If you already know your Skyward login and password, skip the reset password steps and enter your information here.
- If you are new to Skyward or don't remember your login information, click the link for "Forgot your Login/Password". Your Login ID will be sent to your school email account.(Outlook)
 - It could take 20 minutes to 24 hours to appear, and look carefully, you might have more than one "Inbox" in your Outlook.
 - Click on the blue link in the email
 - Copy and Paste your Login ID from your email into the window box, sometimes there are space characters that you might miss especially if your name is short.
 - Enter a new Skyward Password (I suggest using your current school laptop password)
The password requirements: 10-15 characters; at least one capital letter; one lower case letter; one number; and one symbol. Cannot be used before; cannot be student's name.
- Please take a picture or write down this Skyward Login ID and write down your new password, because Skyward is separate and different from all of your other logins.

If you have tried all of these steps and are still having troubles send me an email.

Take care and keep smiling,

Mr. Olson
