March 2021

Dear Graduates,

Keio Academy of New York was established thirty years ago to prepare students for entry to Keio University and other leading universities in the world, with the intention that they would become leading global citizens.

We believe our bilingual and bicultural program has been effective and is in evidence among our graduates.

Currently the School, in looking to the future, is focusing on a program of reform to improve the quality of pastoral care of our students and our curriculum, which we have called Curriculum 2020. Among the Keio network of schools we believe we are playing a leading role.

To help us take the School forward, we would like to collaborate with our Alumni Association. Last year, we celebrated our 30th anniversary. The number of our graduates will be more than 2,800. In September last year, the School launched a new website that includes an Alumni portal. We expect this to come online in Spring 2021. We hope graduates will take advantage of this portal to create a lively network of communication across locations, professions, hobbies and common interests. Such interaction will bond graduates and strengthen their connection with the School. Instructions enabling you to register your email address in order to have access to the portal will be sent by the School to your registered email address.

The Board of Trustees and the School's management are keen to strengthen a personal bond with each graduate. We truly appreciate the contribution the Alumni Association has made in the past, and we hope to enjoy working together for our mutual success and prosperity in the future.

Sincerely,

Prof Jiro Kokuryo
Chairman

Dr Ralph Townsend
President
