

Dear Parents,

Please be aware that Alum Rock Union School District is considering reopening schools within the next month. In order to plan for the safest and most orderly reopening, we must gather specific information about your opinion on this matter. You will receive a parent survey by March 10. Please make sure you respond to this survey as per the deadline, March 17. Distance Learning will continue to be offered in our district until the end of the school year, but if you want to consider face to face instruction for your student, please let us know via the survey. Please note that the district will be able to provide face to face instruction within "practical capacity to maintain health and safety, per the COVID-19 safety plan and state guidelines." The survey will provide you with more information about the school reopening parameters.
