

Del Valle ISD Email Setup on Android

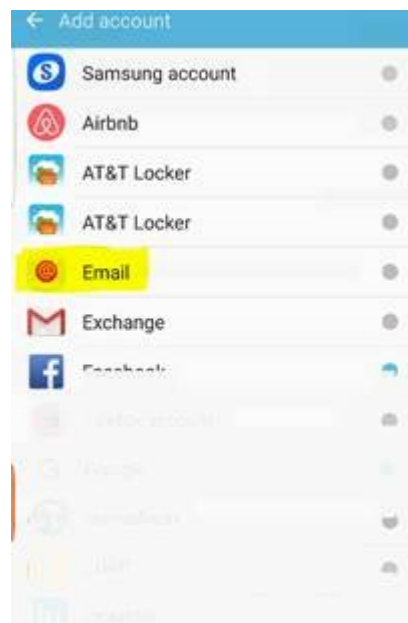

1. Open your email client (and move to step 4) or navigate to Settings -> Personal -> and select "Accounts".

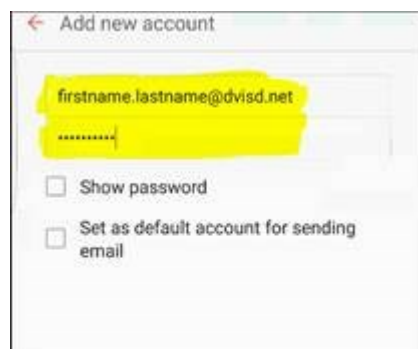

2. Select "Add Account"

3. Select "Email"

4. Enter your e-mail address (firstname.lastname@dvisd.net) and your domain password.

5. Select "Microsoft Exchange ActiveSync"

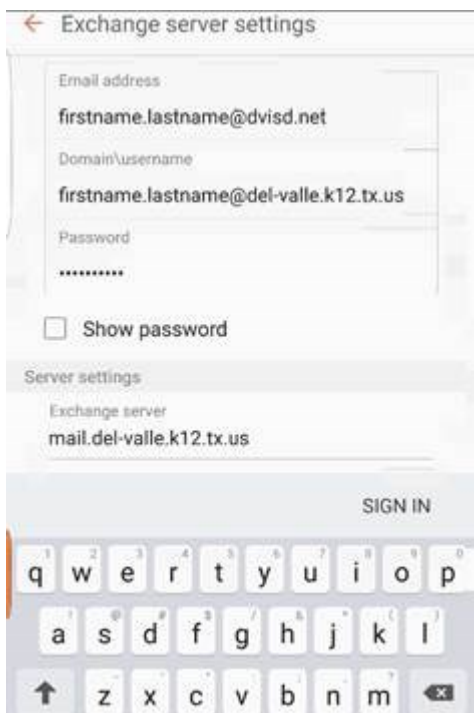

6. You may need to manually enter the exchange mail settings. Enter the following information:

Email: firstname.lastname@dvisd.net

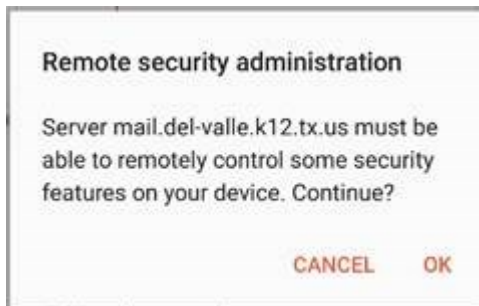

Username: firstname.lastname@del-valle.k12.tx.us (note the del-valle.k12.tx.us)

Password: your DVISD domain password

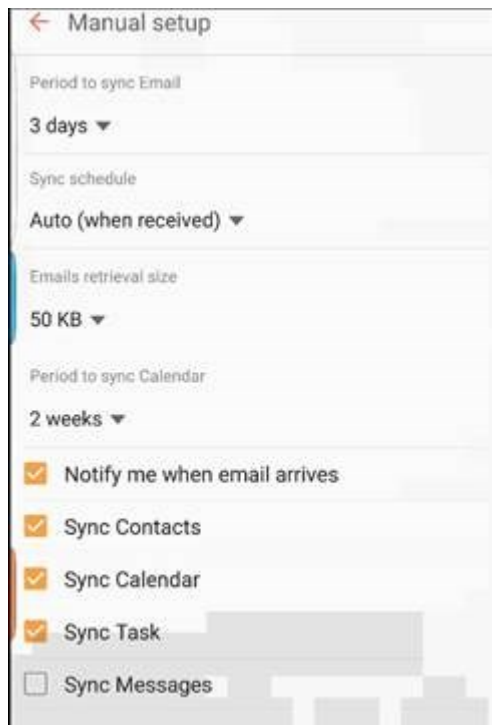

Exchange Server: mail.del-valle.k12.tx.us

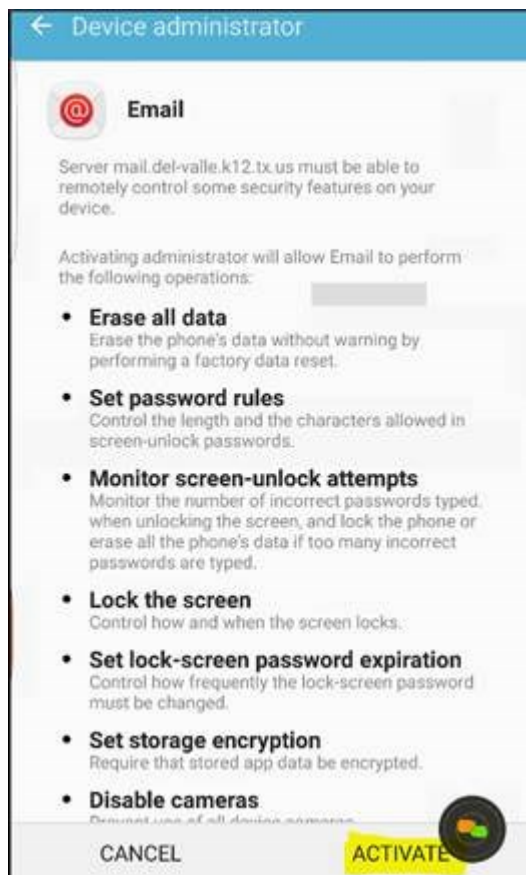

7. Select "OK" to allow mail server to remotely control security features (required to move forward).

8. Select the period of mail to sync (default 3 days), the sync schedule, and what you would like to sync (contacts, calendar, mail, tasks).

9. Once completed with the above tasks – you will need to select “Activate” when you receive the message below to finalize the setup.

10. You now have email setup on your device! You can give the account a name or leave it as the default (firstname.lastname@dvisd.net) and select “OK”.
