

# COVID-19 Decision Tree for People in Schools, Youth, and Child Care Programs

Follow the appropriate path if a child, student, or staff person is experiencing the following symptoms consistent with COVID-19:

- **More common:** fever of 100.4 degrees Fahrenheit or higher; new cough or a cough that gets worse; difficulty/hard time breathing; new loss of taste or smell.
- **Less common:** sore throat; nausea; vomiting; diarrhea; chills; muscle pain; extreme fatigue/feeling very tired; new severe/very bad headache; new nasal congestion/stuffy or runny nose.

Must stay at home and away from others who live in the house (isolate) for at least 10 days from the time symptoms started and until symptoms have improved and they have no fever for 24 hours without using fever-reducing medications. If they have no symptoms but test positive, they must stay home for 10 days, counting from the day they were tested.
