

# Disabilities

## *Get on the Waiting Lists!!!!!!!!!!!!!!!*

*We urge everyone with children with developmental disabilities to contact these agencies to get on their waiting lists. Even if you feel you are not in financial need, your child may be in a different situation in 7-10 years when their name will come up.*

## CLASS (Community Living Assistance and Support Services)

- Primary disability is something other than intellectual disability, such as autism or other developmental disabilities.
- All you do is call and ask to be put on the list – have student's social security number when calling
- Call 1-877-438-5658

## HCS (Home and Community-Bases Services Program) is administered through The Harris Center for Mental Health and IDD

- The primary disability is ID – have a full scale IQ of 75 or below
- No documentation is needed until your name comes up and then it's based on the child's income, not the parents
- The child qualifies for Medicaid by disability and then qualifies for the waiver plan as part of that
- The program looks first to private insurance for coverage, then to Medicaid and last to the wavier
- Call 713-970-7000, leave your name and number and they will call you back
- Waiting list is typically long..... **possibly more than 10 years**

## MDCP (Medically Dependent Children's program)

- Be under age 21
- Meet the medical necessity criteria for nursing facility care
- Meet disability criteria for Social Security or Medicaid benefits
- Call 1-877-438-5658 to have the child's or young adult's name placed on the MDCP interest list
