ABOUT

KCPS is embarking upon an engagement process that will capture how we approach the future of schools in our school district and community. This process of engaging our school district and community will be an opportunity to gather voices and participate in conversations that are important to the future of our schools. What an opportunity to help shape and refine our plans for the future - an opportunity in which we invite all of our schools and community stakeholders to participate. Blueprint 2030 will define **how KCPS should serve students in the future** and **the system-level changes we need to take** to get there.

ADVISORY TEAM FEEDBACK & CALL TO ACTION

We need your help...

- Help us get the word out about upcoming engagement opportunities
- Identify opportunities to collect feedback from local stakeholders (especially those who don't typically come to meetings hosted by KCPS)
- Share your ideas here:
<http://bit.ly/BP2030Advisory>

"these [advisory] groups often include just the ones who have the time/resources/connections to attend meetings"

"More intentional outside voices... let's hear what others are saying."

"Include parents with small children who would be our customers in 2030"
