

January 4, 2021

To the Governing Board Encinitas Union School District Encinitas, California

We have audited the financial statements of Encinitas Union School District (the District) as of and for the year ended June 30, 2020 and have issued our report thereon dated January 4, 2021. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit under Generally Accepted Auditing Standards and Government Auditing Standards and our Compliance Audit under the Uniform Guidance

As communicated in our engagement letter dated March 30, 2020, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America and to express an opinion on whether the District complied with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs. Our audit of the financial statements and major program compliance does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

Our responsibility, as prescribed by professional standards as it relates to the audit of District's major federal program compliance, is to express an opinion on the compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. An audit of major program compliance includes consideration of internal control over compliance with the types of compliance requirements referred to above as a basis for designing audit procedures that are

appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, as a part of our major program compliance audit, we considered internal control over compliance for these purposes and not to provide any assurance on the effectiveness of the District's internal control over compliance.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding internal controls during our audit in our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* dated January 4, 2021. We have also provided our comments regarding compliance with the types of compliance requirements referred to above and internal controls over compliance during our audit in our Independent Auditor's Report on Compliance with Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance dated January 4, 2021.

### Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

### **Compliance with All Ethics Requirements Regarding Independence**

The engagement team, others in our firm, as appropriate, and our firm, have complied with all relevant ethical requirements regarding independence.

### **Qualitative Aspects of the Entity's Significant Accounting Practices**

### Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by District is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the the year ended June 30, 2020. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

### Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are:

Governmental Accounting Standards Board (GASB) requires the District to calculate, recognize, and report the costs and obligations associated with pensions in their financial statements. These amounts were all determined based on the District's proportionate share of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) estimated net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense, which utilized projections of future contributions and future earnings, actuarial assumptions such as inflation, salary increases, mortality rates, and investment rate of return and discount rates in the determination of the final balances reported in the CalSTRS and CalPERS audited financial statements. The District's proportionate share was determined by calculating the District's share of contributions to the pension plan relative to the contributions of all participating entities in the plan.

Management's estimate of the Net OPEB liability, related deferred outflows of resources, and OPEB expense are based on a calculation of actuarially determined contributions for health insurance benefits.

#### Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting District's financial statements relate to Net Other Postemployment Benefits (OPEB) Liability (Note 9), and the Employee Retirement Systems (Note 12).

### Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

#### **Uncorrected and Corrected Misstatements**

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. The following summarizes uncorrected financial statement misstatements whose effects in the current and prior periods, as determined by management, are immaterial, both individually and in the aggregate, to the financial statements taken as a whole:

- a. General Fund:
  - (1) To adjust cash in county value to fair market value
    Fair value adjustment to cash in county treasury \$322,048

    Net increase in the fair value of investments \$322,048
- b. Special Reserve Fund for Capital Outlay Projects:
  - (1) To adjust cash in county value to fair market value

    Fair value adjustment to cash in county treasury \$101,731

    Net increase in the fair value of investments \$101,731

c. Bond Interest and Redemption Fund:

(1) To adjust cash in county value to fair market value

Fair value adjustment to cash in county treasury \$75,268

Net increase in the fair value of investments \$75,268

d. Aggregate Remaining Funds

(1) To adjust cash in county value to fair market value

Fair value adjustment to cash in county treasury \$96,317

Net increase in the fair value of investments \$96,317

The effect of these uncorrected misstatements as of and for the year ended June 30, 2020, is an understatement of net income and fund balance of \$322,048 for the General Fund, \$101,731 for the Special Reserve Fund for Capital Outlay Projects, \$75,268 for the Bond Interest and Redemption Fund, and \$96,317 for the aggregate remaining funds.

### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the financial statements or the auditor's report. No such disagreements arose during the course of the audit.

### **Representations Requested from Management**

We have requested certain written representations from management which are included in the management representation letter dated January 4, 2021.

### **Management's Consultations with Other Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

### Other Significant Matters, Findings, or Issues

In the normal course of our professional association with District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating conditions affecting the entity, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as District's auditors.

This report is intended solely for the information and use of the Governing Board and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

### **Independent Auditor's Report**

To the Governing Board Encinitas Union School District Encinitas, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Encinitas Union School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Encinitas Union School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 13, budgetary comparison information on page 70, schedule of changes in the District's total OPEB liability and related ratios on page 71, schedule of the District's proportionate share of the net OPEB liability – MPP program on page 72, schedule of the District's proportionate share of the net pension liability on page 73, and the schedule of District contributions on page 74, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Encinitas Union School District's financial statements. The combining and individual nonmajor fund financial statements, Schedule of Expenditures of Federal Awards as required by the audit requirements of *Title 2 U.S. Code of Federal Regulations (CFR)* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, and the other supplementary information listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. . In our opinion, the combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, and the other supplementary information listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated January 4, 2021 on our consideration of Encinitas Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Encinitas Union School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Encinitas Union School District's internal control over financial reporting and compliance.

Joseph Dougherty Business Services This section of Encinitas Union School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2020, with comparative information for the year ending June 30, 2019. Please read it in conjunction with the District's financial statements, which immediately follow this section.

#### **Overview of the Financial Statements**

### **The Financial Statements**

The financial statements presented herein include all of the activities of the District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The Government-Wide Financial Statements present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business-type activities separately. These statements include all assets and deferred outflows of resources of the District (including capital assets), as well as all liabilities and deferred inflows of resources (including long-term liabilities). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

The Fund Financial Statements include statements for each of the two categories of activities: governmental and proprietary.

- The Governmental Funds are prepared using the current financial resources measurement focus and modified accrual basis of accounting.
- The Proprietary Funds are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The Primary unit of the government is the Encinitas Union School District.

### Reporting the District as A Whole

#### The Statement of Net Position and the Statement of Activities

The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's operating results. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the Statement of Net Position and the Statement of Activities, the District reports all of its activities as follows:

**Governmental Activities** - Most of the District's services are reported in this category. This includes the education of kindergarten through grade six students, the operation of child development activities, and the ongoing effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

**Business-Type Activities** – The District charges fees to help it cover the costs of certain services it provides. The District's child care programs and services are included here.

### **Reporting the District's Most Significant Funds**

#### **Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

**Proprietary Funds** - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Fund Net Position. In fact, the District's enterprise funds are the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities, such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

### **Financial Highlights**

- Total net position was \$8,265,437 at June 30, 2020. This was a decrease of \$6,118,757 from the prior year.
- Overall revenues were \$75,635,804 which were exceeded by expenditures of \$81,754,561.

#### The District as A Whole

### **Net Position**

The District's net position was \$8,265,437 for the fiscal year ended June 30, 2020. Of this amount, \$(89,333,176) was unrestricted deficit. Restricted Net Position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the governing board's ability to use that net position for day-to-day operations. Our analysis below, in summary form, focuses on the Net Position (Table 1) and change in Net Position (Table 2) of the District's governmental activities.

Table 1

|   | Governmen     | tal Activities | Business-Ty    | pe Activities | <b>Total District Activities</b> |               |  |
|---|---------------|----------------|----------------|---------------|----------------------------------|---------------|--|
|   | 2020          | 2019           | 2020           | 2019          | 2020                             | 2019          |  |

The \$(89,333,176) in unrestricted net position represents the accumulated results of all past years' operations. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, increased by 5.7 percent \$(89,333,176) compared to \$(84,515,957).

### **Changes in Net Position**

The results of this year's operations for the District as a whole are reported in the Statement of Activities on page 15. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

#### **Governmental Activities**

As reported in the Statement of Activities on page 15, the cost of all of our governmental activities this year was \$79,337,072. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$55,118,649 because the cost was paid by those who benefited from the programs (\$1,571,841) or by other governments and organizations who subsidized certain programs with grants and contributions (\$9,218,235). We paid for the remaining "public benefit" portion of our governmental activities with \$8,085,259 in Federal and State funds, and with other revenues, like interest and general entitlements. The District focused its resources on those expenses that benefit the educational opportunities of the students. Instruction-related and pupil services expenses represented 75.0 percent of expenses, demonstrating the District's commitment to students. Overall expenditures increased by 0.3 percent for 2019-2020 from the 2018-2019 fiscal year.

In Table 3, we have presented the cost and net cost of each of the District's largest functions: instruction and instruction-related activities, including special instruction programs and other instructional programs, pupil services, administration, plant services, facility acquisition and construction, community services, enterprise services, debt service interest, other outgo, and depreciation. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3

|  | Total Cost    | of Services   | Net Cost o    | of Services   |
|--|---------------|---------------|---------------|---------------|
|  | 2020          | 2019          | 2020          | 2019          |

|  | -             | 9,000         | -             | 9,000         |
| Community services Enterprise services Debt service - interest           | 428,052       | 332,251       | (109,206)     | 73,406        |
|  | 60,350        | 31,584        | 60,350        | 31,584        |
|  | 3,500,976     | 3,522,097     | 3,615,976     | 3,522,097     |
| Other outgo  | 32,069        | 21,695        | 24,706        | 16,777        |
| Depreciation   | 6,813,475     | 6,736,227     | 6,813,475     | 6,736,227     |
| Total  | \$ 79,337,072 | \$ 79,123,939 | \$ 68,661,996 | \$ 67,890,537 |

The District's net expense for instruction, instruction-related, and pupil services increased by \$780,992, or 1.6 percent from 2019 to 2020, maintaining learning and support programs for students.

#### The District's Funds

As the District completed this year, our governmental funds reported a combined fund balance of \$38,465,223, which is an increase of \$2,173,512, or 6.0 percent from last year (Table 4).

Table 4

| Total                    | \$ 36,291,711 | \$ 73,996,079   | \$ 71,822,567    | \$ 38,465,223 |  |  |  |  |  |

The primary reasons for this net increase to our combined fund balances are as follows:

The General Fund increase is due to an increase of property taxes of \$2.2 million or 4.6 percent. This increase of revenues was then partially offset with expenses such as capital facilities projects (\$300k) and equipment purchase (\$444k).

### **General Fund Budgetary Highlights**

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted at the Second Interim submission on March 10, 2020. (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 70.)

### **Capital Asset and Debt Administration**

### **Capital Assets**

At June 30, 2020, the District had \$97,157,747 in a broad range of capital assets (net of depreciation), including land, buildings, furniture, and equipment. This amount represents a net decrease (including additions, deductions, and depreciation) of \$6,247,934, or 6.0 percent, from last year (Table 5).

Table 5

|   | G  | Governmental Activities                  |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|--|
|   | 2020                                     | 2019                                     | Net Change                                   |  |  |  |  |  |
| Land and construction in process<br>Buildings and improvements<br>Furniture and equipment | \$ 21,555,645<br>70,805,377<br>4,796,725 | \$ 22,936,547<br>74,299,026<br>6,170,108 | \$ (1,380,902)<br>(3,493,649)<br>(1,373,383) |  |  |  |  |  |
| Total   | \$ 97,157,747                            | \$ 103,405,681                           | \$ (6,247,934)                               |  |  |  |  |  |

The majority of the decrease in capital assets was a result of the lack of any new projects in progress.

### **Long-Term Liabilities other than OPEB and Pensions**

At the end of this year, the District had \$69,915,919 in long-term liabilities other than OPEB and pensions versus \$70,921,984 last year, a decrease of 1.4 percent. Those long-term liabilities consisted of:

### Table 6

|   | Governmental Activities  |                          |  |  |
|---|--------------------------|--------------------------|--|--|
|   | 2020                     |                          |  |  |
| General obligation bonds - net (financed with property taxes)<br>Compensated absences | \$ 69,587,313<br>328,606 | \$ 70,708,229<br>213,755 |  |  |
|   | \$ 69,915,919            | \$ 70,921,984            |  |  |

The District's general obligation bond rating achieved a rating of AA+ by S&P, which is one notch way from the highest AAA rating possible. The State limits the amount of general obligation debt that districts can issue to 1.25 percent of the assessed value of all taxable property within the District's boundaries. The District's outstanding general obligation debt of \$69,587,313 is significantly below this \$261,687,075 statutorily-imposed limit.

Other obligations include compensated absences payable. We present more detailed information regarding our long-term liabilities in Note 8 of the financial statements.

#### **OPEB and Pension Liabilities**

At year-end, the District had a total OPEB liability of \$10,992,888 versus \$9,410,056 last year, an increase of \$1,582,832, or 16.8 percent.

At the end of the year, the District had a net pension liability of \$66,179,679 versus \$61,331,535 last year, an increase of \$4,848,144 or 7.9 percent.

### Significant Accomplishments of Fiscal Year 2019-2020 Are Noted Below:

### Encinitas Union School District (EUSD) received a number of accolades during 2019-2020, including:

The TRAC and Social-Emotional Learning program completed its first full year of implementation at all nine campuses in the District. The purpose of the TRAC program is to provide universal social emotional instruction to the entire school population. Helping our students gain skills to boost their self-awareness, increase self-esteem and self-regulation, improve social skills, encourage empathy, and learn to seek internal motivation for their personal and academic successes not only supports the students throughout their lives, but helps our community as well. Due to the COVID-19 pandemic, the program shifted to provide important and timely supports to our students in a virtual environment. We are fortunate to have instituted this program in person ahead of the pandemic, so that our students, staff, and families were aware of the program's goals, created positive relationships and developed rapport prior to the shift to the virtual environment.

### Farm Lab DREAMS Campus Awards:

Farm Lab DREAMS campus was named one of six outstanding leaders and innovators in the California school food system. The honor was presented as a part of the Center for Ecoliteracy's California Food for Kids Initiative. The focus of the recognition was the creation of the 10-acre farm where students are able to learn outside of the classroom in an immersive setting, children discover the impact of food on their health and the environment by doing place-based learning, design thinking, and research.

In addition, the Farm Lab DREAMS Campus, in partnership with The Ecology Center and Healthy Day Partners, was awarded a USDA Farm to School Grant. The grant supported a robust and comprehensive project aimed to increase participation in EUSD's organic, scratch made, farm to school lunch program.

### California Civics Learning Awards:

The 2020 Civic Learning Awards, now in its seventh year, celebrate public schools' efforts to engage students in civic learning. The Civic Learning Awards are presented at three levels: Awards of Excellence, Awards of Distinction, and Awards of Merit. La Costa Heights Elementary School was one of three schools statewide to receive an Award of Excellence, the highest level. Park Dale Lane Elementary received an Award of Distinction. Note: Having previously won these awards, El Camino Creek and Flora Vista Elementary Schools can reapply in two years. It is quite the accomplishment to receive these awards and represents the incredible work being done at our elementary schools.

California Student Media Festival and Innovative Video in Education Awards – Virtual in 2019-2020:

Three Film Guild students received nominations as finalists and two won the top awards, including the Media and Information Literacy Award and the Grand Recognition from the state's California Student Media Festival. In addition, fifteen films created by Film Guild students were also nominated for the Innovative Video in Education (iVIE) Awards in San Diego.

### **Economic Factors and Next Year's Budgets and Rates**

In considering the District Budget for the 2020-2021 year, the governing board and management used the following criteria:

At the time these financial statements were prepared and audited, the District was aware of several circumstances that could affect its future financial health.

Factors related to California's Local Control Funding Formula (LCFF) that the District is monitoring include: (1) estimates of funding in the next budget year and beyond; (2) the Local Control and Accountability Plan (LCAP) that aims to link student accountability measurements to funding allocations; (3) ensuring the integrity of reporting student data through the California Longitudinal Pupil Achievement Data System (CALPADs); and, (4) meeting annual compliance and audit requirements.

With the Impacts of COVID-19, the District will incur significant expenses in Personal Protective Equipment (PPE) and various other health and safety supplies and equipment to ensure compliance standards are met or exceeded for the health and safety of the District's students and staff. Various State and Federal level resources funds will be received and tracked to be used toward such expenses.

The District participates in state employee pensions plans, PERS and STRS, and both are underfunded. The District's proportionate share of the liability is reported in the Statement of Net Position as of June 30, 2020. The amount of the liability is material to the financial position of the District. To address the underfunding issues, the pension plans continue to raise employer rates in future years and the increased costs are significant.

### **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Assistant Superintendent, Business Services, at Encinitas Union School District, 101 South Rancho Santa Fe Road, Encinitas, California, 92024, or e-mail at Jospeh.Dougherty@eusd.net.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental

Funds to the Statement of Activities

Year Ended June 30, 2020

Total Net Change in Fund Balances - Governmental Funds

\$ 2,173,512

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.

This is the amount by which depreciation expense exceeds capital outlays in the period.

Depreciation expense \$ (6,813,475)
Capital outlays 565,541

Net Expense Adjustment

(6,247,934)

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation paid was less than the amounts earned by \$114,851.

(114,851)

In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year.

(2,247,269)

In the governmental funds, OPEB costs are based on employer contributions made to OPEB plans during the year. However, in the Statement of Activities, OPEB expense is the net effect of all changes in the deferred outflows, deferred inflows and net OPEB liability during the year.

(268,279)

Payment of principal on long-term liabilities is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

General obligation bonds

4,325,000

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental

Funds to the Statement of Activities

Year Ended June 30, 2020

Governmental funds report the effects of premiums, whereas the amounts are deferred and amortized on the Statement of Activities.

Amortization of premium

\$ 79,765

Interest on long-term liabilities in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the Statement of Activities is the result of two factors. First, accrued interest on the general obligation bonds decreased by \$41,342, and second, \$3,283,849 of accumulated interest was accreted on the District's "capital appreciation" general obligation bonds.

(3,325,191)

An Internal Service Fund is used by the District's management to the other postemployment benefits contributions other than pensions. The net position of the Internal Service Fund is reported with governmental activities.

282,159

Change in net position of governmental activities

### Note 1 - Summary of Significant Accounting Policies

### **Financial Reporting Entity**

The Encinitas Union School District (the District) was organized in 1944 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades Kindergarten - Sixth as mandated by the State and/or Federal agencies. The District operates nine elementary schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Encinitas Union School District, this includes general operations, food service, and student related activities of the District.

### **Basis of Presentation - Fund Accounting**

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into two broad fund categories: governmental and proprietary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

### **Major Governmental Funds**

**General Fund** The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Two funds currently defined as special revenue funds in the California State Accounting Manual (CSAM) do not meet the GASB Statement No. 54 special revenue fund definition. Specifically, Fund 14, Deferred Maintenance Fund, and Fund 17, Special Reserve Fund for Other Than Capital Outlay Projects, are not substantially composed of restricted or committed revenue sources. While these funds are authorized by statute and will remain open for internal reporting purposes, these funds function effectively as extensions of the General Fund, and accordingly have been combined with the General Fund for presentation in these audited financial statements.

As a result, the General Fund reflects an increase fund balance, revenues and other financing sources and expenditures and other financing uses, of \$4,762,143, \$89,264, and \$2,276, respectively.

**Special Reserve Fund for Capital Outlay Projects** This fund exists primarily to provide for the accumulation of General Fund moneys for capital outlay purposes (*Education Code Section 42840*).

**Bond Interest and Redemption Fund** The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

### **Non-Major Governmental Funds**

**Special Revenue Funds** The Special Revenue Funds are used to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

• Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

**Capital Project Funds** The Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

- **Building Fund** The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.
- Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approval (*Education Code* Sections 17620-17626 and *Government Code* Section 65995 et seq.). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

**Permanent Funds** The Permanent Funds were introduced as part of the governmental financial reporting model established by GASB Statement No. 34 to account for permanent foundations that benefit a local educational agency.

• **Foundation Permanent Fund** The Foundation Permanent Fund is used to account for resources received from gifts or bequests pursuant to *Education Code* Section 41031 that are restricted to the extent that earnings, but not principal, may be used for purposes that support the District/County Office of Education's own programs and where there is a formal trust agreement with the donor.

**Proprietary Funds** Proprietary Funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District has the following proprietary funds:

- Enterprise Fund Enterprise Funds may be used to account for any activity for which a fee is charged to external users for goods and services. The only enterprise fund of the District accounts for the financial transactions related to the child care operations of the District.
- Internal Service Fund Internal Service Funds may be used to account for goods or services provided to other funds of the District on a cost-reimbursement basis. The District uses the self-insurance fund for the accounting for other postemployment benefits other than pensions.

### **Basis of Accounting - Measurement Focus**

**Government-Wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the District and for each governmental function and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the *Statement of Activities*. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds, permanent funds, the internal service fund, and the restrictions on their use.

**Fund Financial Statements** Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

- Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.
- **Proprietary Funds** Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. The District considers revenues to be available if they are collected within one year after year-end, except for property taxes, which are considered available if collected within 60 days. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**Unearned Revenue** Unearned revenues arise when resources are received by the District before it has a legal claim to them, such as when certain grants are received prior to the occurrence of qualifying expenditures. In the subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and the revenue is recognized.

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred. Principal and interest on long-term liabilities, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

### **Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

#### Investments

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in the county pool are determined by the program sponsor.

#### **Stores Inventories**

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental funds when consumed rather than when purchased.

### **Capital Assets and Depreciation**

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at acquisition value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings and improvements, 20 to 50 years; furniture, equipment, and vehicles, 5 to 15 years.

#### **Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

### **Compensated Absences**

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

## **Accrued Liabilities and Long-Term Liabilities**

All payables, accrued liabilities, and long-term liabilities are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full, from current financial resources are reported as liabilities of the governmental funds.

However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term liabilities are recognized as liabilities in the governmental fund financial statements when due.

## **Debt Issuance Costs and Premiums**

In the government-wide financial statements and in the proprietary fund type financial statements, long-term liabilities are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund Statement of Net Position. Debt premiums are amortized over the life of the bonds using the straight-line method, which approximates the effective interest method.

In governmental fund financial statements, bond premiums are recognized in the period the bonds are issued. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures in the period the bonds are issued.

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The deferred outflows of resources related to pension and OPEB relate to pensions contributions subsequent to measurement date, change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience, and changes of assumptions.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The deferred inflows of resources for pension and OPEB relate to change in proportion and differences between contributions made and District's proportionate share of contributions, differences between projected and actual earnings on pension plan investments, differences between expected and actual experience, and changes of assumptions.

#### **Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value. The net pension liability attributable to the government activities will be paid by the fund in which the employee worked.

#### **Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, and additions to/deductions from the District's Plan and the MPP's fiduciary net position have been determined on the same basis as they are reported by the District Plan and the MPP. For this purpose, the District Plan and the MPP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost. The total OPEB liability attributable to the government activities will be paid primarily by the General Fund.

#### **Fund Balances - Governmental Funds**

As of June 30, 2020, fund balances of the governmental funds are classified as follows:

**Nonspendable -** amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

**Restricted** - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

**Committed** - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board. The District currently does not have any committed funds.

**Assigned** - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

**Unassigned -** all other spendable amounts.

## **Spending Order Policy**

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

#### **Minimum Fund Balance Policy**

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than ten percent of General Fund expenditures and other financing uses.

#### **Net Position**

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net position net of investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external

restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$12,191,539 of restricted net position which is restricted by enabling legislation.

## **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for child care services and to other funds for self-insurance. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## **Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

#### **Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## **Property Tax**

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of San Diego bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

#### **Change in Accounting Principles**

In May 2020, the GASB issued Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The effective dates of certain provisions contained in the following pronouncements are postponed by one year:

- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, Fiduciary Activities
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 90, Majority Equity Interests
- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates
- Implementation Guide No. 2017-3, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (and Certain Issues Related to OPEB Plan Reporting)
- Implementation Guide No. 2018-1, Implementation Guidance Update—2018
- Implementation Guide No. 2019-1, Implementation Guidance Update—2019
- Implementation Guide No. 2019-2, Fiduciary Activities.

The effective dates of the following pronouncements are postponed by 18 months:

- Statement No. 87, Leases
- Implementation Guide No. 2019-3, Leases.

The provisions of this Statement have been implemented as of June 30, 2020.

## **New Accounting Pronouncements**

In January 2017, the GASB issued Statement No. 84, Fiduciary Activities. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In June 2017, the GASB issued Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of

the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective for the reporting periods beginning after June 15, 2021. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In June 2018, the GASB issued Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. The effects of this change on the District's financial statements have not yet been determined.

In August 2018, the GASB issued Statement 90, Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 60. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. The effects of this change on the District's financial statements have not yet been determined.

In May 2019, the GASB issued Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.

A conduit debt obligation is defined as a debt instrument having all of the following characteristics:

- There are at least three parties involved: (1) an issuer, (2) a third-party obligor, and (3) a debt holder or a debt trustee.
- The issuer and the third-party obligor are not within the same financial reporting entity.
- The debt obligation is not a parity bond of the issuer, nor is it cross-collateralized with other debt of the issuer.
- The third-party obligor or its agent, not the issuer, ultimately receives the proceeds from the debt issuance.
- The third-party obligor, not the issuer, is primarily obligated for the payment of all amounts associated with the debt obligation (debt service payments).

All conduit debt obligations involve the issuer making a limited commitment. Some issuers extend additional commitments or voluntary commitments to support debt service in the event the third party is, or will be, unable to do so.

An issuer should not recognize a conduit debt obligation as a liability. However, an issuer should recognize a liability associated with an additional commitment or a voluntary commitment to support debt service if certain recognition criteria are met. As long as a conduit debt obligation is outstanding, an issuer that has made an additional commitment should evaluate at least annually whether those criteria are met. An issuer that has made only a limited commitment should evaluate whether those criteria are met when an event occurs that causes the issuer to reevaluate its willingness or ability to support the obligor's debt service through a voluntary commitment.

This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. In those arrangements, capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by third-party obligors in the course of their activities. Payments from third-party obligors are intended to cover and coincide with debt service payments. During those arrangements, issuers retain the titles to the capital assets. Those titles may or may not pass to the obligors at the end of the arrangements.

Issuers should not report those arrangements as leases, nor should they recognize a liability for the related conduit debt obligations or a receivable for the payments related to those arrangements. In addition, the following provisions apply:

- If the title passes to the third-party obligor at the end of the arrangement, an issuer should not recognize a capital asset.
- If the title does not pass to the third-party obligor and the third party has exclusive use of the entire capital asset during the arrangement, the issuer should not recognize a capital asset until the arrangement ends.
- If the title does not pass to the third-party obligor and the third party has exclusive use of only portions of the capital asset during the arrangement, the issuer, at the inception of the arrangement, should recognize the entire capital asset and a deferred inflow of resources. The deferred inflow of resources should be reduced, and an inflow recognized, in a systematic and rational manner over the term of the arrangement.

This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective for the reporting periods beginning after December 15, 2021. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In January 2020, the GASB issued Statement No. 92, Omnibus 2020. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the following:

- The effective date of Statement No. 87, Leases, and Implementation Guide No. 2019-3, Leases, for interim financial reporting
- Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan
- The applicability of Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, as amended, No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, to reporting assets accumulated for postemployment benefits
- The applicability of certain requirements of Statement No. 84, Fiduciary Activities, to postemployment benefit arrangements
- Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition
- Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature
- Terminology used to refer to derivative instruments

As a result of the implementation of GASB Statement No. 95, the requirements of this Statement are effective as follows:

- The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.
- The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2021.
- The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2021.
- The requirements related to the measurement of liabilities (and assets, if any) associated with AROs in a government acquisition are effective for government acquisitions occurring in reporting periods beginning after June 15, 2021.

Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In March 2020, the GASB issued Statement No. 93, Replacement of Interbank Offered Rates. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR (Interbank Offered Rate). This Statement achieves that objective by:

- Providing exceptions for certain hedging derivative instruments to the hedge accounting termination
  provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable
  payment
- Clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate
- Clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable
- Removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap
- Identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap
- Clarifying the definition of reference rate, as it is used in Statement 53, as amended
- Providing an exception to the lease modifications guidance in Statement 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend.

As a result of the implementation of GASB Statement No. 95, the removal of LIBOR as an appropriate benchmark interest rate (paragraph 11b) is effective for reporting periods ending after December 31, 2021. Paragraph 13 and 14 related to lease modifications is effective for reporting periods beginning after June 15, 2021. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2020. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In March 2020, the GASB issued Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In May 2020, the GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended.

A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In June 2020, the GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately.

The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021. For purposes of determining whether a primary government is financially accountable for a potential component unit, the requirements of this Statement that

provide that for all other arrangements, the absence of a governing board be treated the same as the appointment of a voting majority of a governing board if the primary government performs the duties that a governing board typically would perform, are effective for reporting periods beginning after June 15, 2021. Earlier application of those requirements is encouraged and permitted by requirement as specified within this Statement.

The Board considered the effective dates for the requirements of this Statement in light of the COVID-19 pandemic and in concert with Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The effects of this change on the District's financial statements have not yet been determined.

## Note 2 - Deposits and Investments

## **Summary of Deposits and Investments**

Deposits and investments as of June 30, 2020, are classified in the accompanying financial statements as follows:

| Governmental activities Business-type activities                        | \$<br>42,750,294<br>20,967           |
|---|--------------------------------------|
| Total deposits and investments  | \$<br>42,771,261                     |
| Deposits and investments as of June 30, 2020, consist of the following: |                                      |
| Cash on hand and in banks Cash in revolving Investments                 | \$<br>20,000<br>10,000<br>42,741,261 |
| Total deposits and investments  | \$<br>42,771,261                     |

#### **Policies and Practices**

The District is authorized under *California Government Code* to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

**Investment in County Treasury** - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

#### **General Authorizations**

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

| Authorized<br>Investment Type           | Maximum<br>Remaining<br>Maturity | Maximum<br>Percentage<br>of Portfolio | Maximum<br>Investment<br>in One Issuer |
|---|----------------------------------|---------------------------------------|--|
| Local Agency Bonds, Notes, Warrants     | 5 years                          | None                                  | None                                   |
| Registered State Bonds, Notes, Warrants | 5 years                          | None                                  | None                                   |
| U.S. Treasury Obligations               | 5 years                          | None                                  | None                                   |
| U.S. Agency Securities                  | 5 years                          | None                                  | None                                   |
| Banker's Acceptance                     | 180 days                         | 40%                                   | 30%                                    |

| Mortgage Pass-Through Securities        | 5 years                          | 20%                                   | None                                   |
| County Pooled Investment Funds          | N/A                              | None                                  | None                                   |
| Local Agency Investment Fund (LAIF)     | N/A                              | None                                  | None                                   |
| Joint Powers Authority Pools            | N/A                              | None                                  | None                                   |

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the county pool and purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

| Investment Type                           | Reported<br>Amount | Average Days to Maturity |
|---|--------------------|--------------------------|
| San Diego County Treasury Investment Pool | \$ 42,741,261      | 556 days                 |

#### **Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the San Diego County Treasury Investment Pool has been rated by Standard and Poor's Investor Service as of June 30, 2020, as AAAf.

### **Custodial Credit Risk - Deposits**

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does have a policy for custodial credit risk for deposits. However, the *California Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. At June 30, 2020, the District's bank balance was not exposed to custodial credit risk.

#### Note 3 - Receivables

Receivables at June 30, 2020, consisted of intergovernmental grants, entitlements, interest, and other local sources. All receivables are considered collectible in full.

#### Note 5 - Interfund Transactions

## Interfund Receivables/Payables (Due To/Due From)

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund receivable and payable balances at June 30, 2020, between major and non-major governmental funds, the enterprise fund, and the internal service fund are as follows:

|   | Due To    |                      |    |                    |    |                        |                   |                   |    |                            |
|---|-----------|----------------------|----|--------------------|----|------------------------|-------------------|-------------------|----|----------------------------|
|   | Non-Major |                      |    |                    |    | Eı                     | nterprise<br>Fund |                   |    |                            |
| Due From  |           | General<br>Fund      |    | ernmental<br>Funds |    | Internal<br>rvice Fund | С                 | hild Care<br>Fund |    | Total                      |
| General Fund<br>Non-Major Governmental Funds<br>Enterprise Fund - Child Care Fund | \$        | -<br>8,793<br>15,143 | \$ | 12,461<br>-<br>-   | \$ | 768,866<br>-<br>-      | \$                | 56,747<br>-<br>-  | \$ | 838,074<br>8,793<br>15,143 |
| Total   | \$        | 23,936               | \$ | 12,461             | \$ | 768,866                | \$                | 56,747            | \$ | 862,010                    |

The balance of \$8,793 due to the General Fund from the Cafeteria Non-Major Governmental Fund resulted from payroll and indirect costs due.

The balance of \$12,461 due to the Cafeteria Non-Major Governmental Fund from the General Fund resulted from an operating contribution.

The balance of \$768,866 due to the Internal Service Fund from the General Fund resulted from a contribution for premium benefits.

The balance of \$15,143 due to the General Fund from the Enterprise Fund - Child Care Fund resulted from payroll and indirect costs due.

The balance of \$56,747 due to the Enterprise Fund - Child Care Fund from the General Fund resulted from excess indirect cost.

## **Operating Transfers**

Interfund transfers for the year ended June 30, 2020, consisted of the following:

|   | Transfer To   |                |          |                                |    |         |  |  |  |
|---|---|----------------|----------|--------------------------------|----|---------|--|--|--|
| Transfer From   | Special Reserve<br>Fund for<br>Capital Outlay<br>Projects |                |          | on-Major<br>ernmental<br>Funds |    | Total   |  |  |  |
| General Fund  | \$  | 300,000        | \$       | 12,461                         | \$ | 312,461 |  |  |  |
| The General Fund transferred to the Cafeteria No operating contribution.        | on-Major G  | overnmental    | Fund fo  | r an                           | \$ | 12,461  |  |  |  |
| The General Fund transferred to the Special Resectable Capital outlay projects. | erve Fund f   | or Capital Out | lay Proj | ects for                       |    | 300,000 |  |  |  |
| Total   |   |                |          |                                | \$ | 312,461 |  |  |  |

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

## Note 6 - Accounts Payable

Accounts payable at June 30, 2020, consisted of the following:

|  | General<br>Fund   | on-Major<br>vernmental<br>Funds            | -  | nternal<br>vice Fund      | <br>Total<br>overnmental<br>Activities                    | nterprise<br>Fund<br>hild Care<br>Fund    |

#### Election of 1995

In August 1996, the District issued current and capital appreciation, General Obligation Bonds, Series 1996, in the amount of \$29,498,820 (accreting to \$69,360,000). The capital appreciation bonds of \$28,748,820 mature through August 2021, with interest rates ranging from 3.60 to 5.85 percent. Proceeds from the sale of the bonds were used to acquire, construct, and improve grades kindergarten through six school facilities and associated support costs authorized by law. At June 30, 2020, the principal balance outstanding was \$8,495,862.

#### **Election of 2010**

In April 2011, the District issued capital appreciation, General Obligation Bonds, Series 2011 in the amount of \$12,998,720 (accreting to \$27,670,000). The bonds mature through August 2035, with interest rates ranging from 5.43 to 6.75 percent. Proceeds from the sale of the bonds were used to finance the repair, upgrading, acquisition, construction, and equipping of certain District property and facilities, and refund outstanding capital lease obligations. At June 30, 2020, the principal balance outstanding was \$22,929,453.

In February 2013, the District issued current and capital appreciation, General Obligation Bonds, Series 2013 in the amount of \$9,998,411 (accreting to \$15,150,000). The bonds mature through August 2037, with interest rates ranging from 3.00 to 4.35 percent. Proceeds from the sale of the bonds were used to finance the repair, upgrading, acquisition, construction, and equipping of certain District property and facilities. At June 30, 2020, the principal balance outstanding was \$13,356,532.

In September 2015, the District issued capital appreciation General Obligation Bonds, Series 2015 in the amount of \$13,999,453 (accreted to \$31,570,000). The bonds mature through August 2039, with interest rates ranging from 2.49 to 4.61 percent. Proceeds from the sale of the bonds were used to finance the repair, upgrading, acquisition, construction, and equipping of certain District property and facilities. At June 30, 2020, the principal balance outstanding was \$16,811,970.

In April 2017, the District issued current interest, General Obligation Bonds, Series 2017 in the amount of \$7,200,000. The bonds mature through August 2029, with interest rates ranging from 2.75 to 4.00 percent. Proceeds from the sale of the bonds were used to finance the repair, upgrading, acquisition, construction, and equipping of certain District property and facilities. At June 30, 2020, the principal balance outstanding was \$7,200,000.

The bonds mature through 2040 as follows:

| Fiscal Year  | Principal Including Accreted Interest to Date | Accreted<br>Interest | Current<br>Interest to<br>Maturiy | Total                  |
|--------------|---|----------------------|-----------------------------------|------------------------|
| 2021         | \$ 4,313,819                                  | \$ 126,181           | \$ 248,050                        | \$ 4,688,050           |
| 2022<br>2023 | 4,182,042<br>4,125,688                        | 377,958<br>574,312   | 248,050<br>476,269                | 4,808,050<br>5,176,269 |
| 2024         | 2,708,835                                     | 321,165              | 694,513                           | 3,724,513              |
| 2025         | 2,781,903                                     | 423,097              | 667,138                           | 3,872,138              |
| 2026-2030    | 15,959,853                                    | 2,945,147            | 2,766,150                         | 21,671,150             |
| 2031-2035    | 17,469,137                                    | 4,320,863            | 1,740,998                         | 23,530,998             |
| 2036-2040    | 17,252,540                                    | 12,707,460           | 431,194                           | 30,391,194             |
|              | \$ 68,793,817                                 | \$ 21,796,183        | \$ 7,272,362                      | \$ 97,862,362          |

## **Compensated Absences**

Compensated absences (unpaid employee vacation) for the District at June 30, 2020, amounted to \$328,606.

## Note 9 - Net Other Post Employment Benefit (OPEB) Liability

For the fiscal year ended June 30, 2020, the District reported net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for the following plans:

| OPEB Plan                                       | Net OPEB<br>Liability | Deferred<br>Outflows<br>of Resources | Deferred<br>Inflows<br>of Resources | OPEB<br>Expense |
|---|-----------------------|--------------------------------------|-------------------------------------|-----------------|
| District Plan<br>Medicare Premium Payment (MPP) | \$ 10,635,975         | \$ 1,542,194                         | \$ 201,131                          | \$ 282,542      |
| Program   | 356,913               |                                      |                                     | (6,542)         |
| Total   | \$ 10,992,888         | \$ 1,542,194                         | \$ 201,131                          | \$ 276,000      |

The details of each plan are as follows:

#### **District Plan**

#### **Plan Administration**

The District's governing board administers the Postemployment Benefits Plan (the Plan). The Plan is a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for eligible retirees and their spouses. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

#### Plan Membership

At June 30, 2019 the valuation date, the Plan membership consisted of the following:

| Inactive employees or beneficiaries currently receiving benefits payments | 61  |
|---|-----|
| Active employees  | 398 |
|   | 459 |

#### **Benefits Provided**

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

The contribution requirements of Plan members and the District are established and may be amended by the District, Encinitas Teachers Association (ETA), and the local California Service Employees Association (CSEA), and unrepresented groups. The benefit payment is based on projected pay-as-you-go financing requirements as determined annually through the agreements with the District, TEA, CSEA, and the unrepresented groups. For measurement period of June 30, 2020, the District paid \$700,002 in benefits.

## **Total OPEB Liability of the District**

The District's total OPEB liability of \$10,635,975 was measured as of June 30, 2020, and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of June 30, 2019.

#### **Actuarial Assumptions**

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Inflation                   | 2.25 | percent  |
|-----------------------------|------|--|
| Salary increases            | 3.00 | percent, average, including inflation          |
| Discount rate               | 2.20 | net of investment expense, including inflation |
| Healthcare cost trend rates | 6.00 | percent for 2020                               |

The discount rate was based on the Bond Buyer 20-bond General Obligation Index.

Mortality rates were based on the RP-2014 Employee and Healthy Annuitant Mortality Tables for Males or Females, as appropriate, projected using a generational projection based on 100% of scale MP-2016 for years 2014 through 2029, 50% of MP-2016 for years 2030 through 2049, and 20% of MP-2016 for 2050 and thereafter.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actual experience study for the period July 1, 2018 to June 30, 2019.

## **Changes in the Total OPEB Liability**

|   |    | Total OPEB Liability   |  |
|---|----|--|--|
| Balance at June 30, 2019 Service cost Interest Differences between expected and actual experience Changes of assumptions or other inputs Benefit payments | \$ | 9,059,685<br>578,805<br>241,518<br>953,682<br>502,287<br>(700,002) |  |
| Net change in total OPEB liability  |    | 1,576,290  |  |
| Balance at June 30, 2020  | \$ | 10,635,975   |  |

Changes of assumptions and other inputs reflect a change in the discount rate from 2.60 percent in 2019 to 2.20 percent in 2020.

Changes to benefit terms: there were no changes in the benefit terms since the previous valuation.

## Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB Liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or higher than the current discount rate:

| Discount Rate                                     | Total OPEB<br>Liability     |
|---|-----------------------------|
| 1% decrease (1.20%) Current discount rate (2.20%) | \$ 11,476,890<br>10,635,975 |
| 1% increase (3.20%)                               | 9,854,710                   |

## Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percent lower or higher than the current healthcare costs trend rates:

| Healthcare Cost Trend Rates                | Total OPEB<br>Liability |
|--|-------------------------|
| 1% decrease (5.00%)                        | \$ 9,465,232            |
| Current healthcare cost trend rate (6.00%) | 10,635,975              |
| 1% increase (7.00%)                        | 12,020,963              |

## OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$282,542. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related for changes of assumptions as follows:

|   | Deferred<br>Outflows<br>of Resources | Deferred<br>Inflows<br>of Resources |  |
|---|--------------------------------------|-------------------------------------|--|
| Differences between expected and actual experience Changes of assumptions | \$ 847,717<br>694,477                | \$ -<br>201,131                     |  |
| Total   | \$ 1,542,194                         | \$ 201,131                          |  |

Amounts reported as deferred inflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ended June 30,                                | Deferred<br>Outflows/(Inflows)<br>of Resources                    |

|  | \$ 1,341,063  |

## Medicare Premium Payment (MPP) Program

## **Plan Description**

The Medicare Premium Payment (MPP) Program is administered by the California State Teachers' Retirement System (CalSTRS). The MPP Program is a cost-sharing multiple-employer other postemployment benefit plan (OPEB) established pursuant to Chapter 1032, Statutes 2000 (SB 1435). CalSTRS administers the MPP Program through the Teachers' Health Benefits Fund (THBF).

A full description of the MPP Program regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2018, annual actuarial valuation report, Medicare Premium Payment Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: http://www.calstrs.com/member-publications.

## **Benefits Provided**

The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible members of the State Teachers' Retirement System Plan (STRP) Defined Benefit (DB) Program who were retired or began receiving a disability allowance prior to July 1, 2012 and were not eligible for premium free Medicare Part A. The payments are made directly to the Centers for Medicare and Medicaid Services (CMS) on a monthly basis.

The MPP Program is closed to new entrants as members who retire after July 1, 2012, are not eligible for coverage under the MPP Program.

The MPP Program is funded on a pay-as-you go basis from a portion of monthly District benefit payments. In accordance with California *Education Code* Section 25930, contributions that would otherwise be credited to the DB Program each month are instead credited to the MPP Program to fund monthly program and administrative costs. Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program.

## **Net OPEB Liability and OPEB Expense**

At June 30, 2020, the District reported a liability of \$356,913 for its proportionate share of the net OPEB liability for the MPP Program. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2019 and June 30, 2018, respectively, was 0.0958 percent and 0.0915 percent, resulting in a net increase in the proportionate share of 0.0043 percent.

For the year ended June 30, 2020, the District recognized OPEB expense of \$(6,542).

## **Actuarial Methods and Assumptions**

The June 30, 2019 total OPEB liability was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2018, and rolling forward the total OPEB liability to June 30, 2019, using the assumptions listed in the following table:

| Measurement Date                        | June 30, 2019        | June 30, 2018        |
|---|----------------------|----------------------|
| Valuation Date                          | June 30, 2018        | June 30, 2017        |
| Experience Study                        | July 1, 2010 through | July 1, 2010 through |
|   | June 30, 2015        | June 30, 2015        |
| Actuarial Cost Method                   | Entry age normal     | Entry age normal     |
| Investment Rate of Return               | 3.50%                | 3.87%                |
| Medicare Part A Premium Cost Trend Rate | 3.70%                | 3.70%                |
| Medicare Part B Premium Cost Trend Rate | 4.10%                | 4.10%                |

For the valuation as of June 30, 2018, CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

Assumptions were made about future participation (enrollment) into the MPP Program because CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' age increases. This estimated enrollment rate was then

applied to the population of members who may meet criteria necessary for eligibility and are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 380 or an average of 0.23 percent of the potentially eligible population (165,422).

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MPP Program as of June 30, 2019, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer.

#### **Discount Rate**

The discount rate used to measure the total OPEB liability as of June 30, 2019, is 3.50 percent. As the MPP Program is funded on a pay-as-you-go basis as previously noted, the OPEB Plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 3.50 percent, which is the Bond Buyer 20-Bond GO Index from Bondbuyer.com as of June 30, 2019, was applied to all periods of projected benefit payments to measure the total OPEB liability. The discount rate decreased 0.37 percent from 3.87 percent as of June 30, 2018.

## Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

| Discount Rate                                     |    | Net OPEB<br>Liability |  |
|---|----|-----------------------|--|
| 1% decrease (2.50%) Current discount rate (3.50%) | \$ | 389,474<br>356,913    |  |
| 1% increase (4.50%)                               |    | 326,975               |  |

# Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Medicare Costs Trend Rates

The following presents the District's proportionate share of the net OPEB liability calculated using the Medicare costs trend rates, as well as what the net pension liability would be if it were calculated using Medicare costs trend rates that are one percent lower or higher than the current rates:

| Medicare Costs Trend Rate   |    | Net OPEB<br>Liability         |  |
|---|----|-------------------------------|--|
| 1% decrease (2.70% Part A and 3.10% Part B) Current Medicare costs trend rate (3.70% Part A and 4.10% Part B) 1% increase (4.70% Part A and 5.10% Part B) | \$ | 334,535<br>356,913<br>401.614 |  |

## Note 10 - Fund Balances

Fund balances are composed of the following elements:

|                             | General<br>Fund | Special Reserve<br>Fund for<br>Capital Outlay<br>Projects | Bond Interest<br>and Redemption<br>Fund | Non-Major<br>Governmental<br>Funds | Total         |
|-----------------------------|-----------------|---|---|------------------------------------|---------------|
| Nonspendable                |                 |   |   |                                    |               |
| Revolving cash              | \$ 10,000       | \$ -  | \$ -                                    | \$ -                               | \$ 10,000     |
| Stores inventories          | 181,998         |   |   | 37,324                             | 219,322       |
| Total nonspendable          | 191,998         |   |   | 37,324                             | 229,322       |
| Restricted                  |                 |   |   |                                    |               |

## Note 11 - Risk Management

## **Property and Liability**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2020, the District contracted with San Diego County Schools Risk Management Joint Powers Authority for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

## **Workers' Compensation**

For fiscal year 2020, the District participated in the San Diego County Schools Risk Management Joint Powers Authority, an insurance purchasing pool. The intent of the JPA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the JPA. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the JPA. Each participant pays its workers' compensation premium based on its individual rate. A participant will then either receive money from or be required to contribute to the "equity-pooling fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the JPA. Participation in PIPS is limited to districts that can meet the JPA's selection criteria.

## **Employee Medical Benefits**

The District has contracted with the California Schools Employee Benefit Association to provide employee health benefits. Rates are set through an annual calculation process. The District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all participating districts. Claims are paid for all participants regardless of claims flow. The Board of Directors has a right to return monies to a district subsequent to the settlement of all expenses and claims if a district withdraws from the pool.

## Note 12 - Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2020, the District reported its proportionate share of net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

| Pension Plan       | Pe | Net<br>nsion Liability   | erred Outflows<br>of Resources | <br>erred Inflows<br>f Resources | Pen | sion Expense           |
|--------------------|----|--------------------------|--------------------------------|----------------------------------|-----|------------------------|
| CalSTRS<br>CalPERS | \$ | 48,931,698<br>17,247,981 | \$<br>14,853,088<br>4,792,444  | \$<br>5,706,422<br>159,978       | \$  | 5,206,458<br>3,249,126 |
| Total              | \$ | 66,179,679               | \$<br>19,645,532               | \$<br>5,866,400                  | \$  | 8,455,584              |

The details of each plan are as follows:

## California State Teachers' Retirement System (CalSTRS)

## **Plan Description**

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2018, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: http://www.calstrs.com/member-publications.

#### **Benefits Provided**

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to two percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program; thus, disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2020, are summarized as follows:

|   | STRP Defined Benefit Program |                    |  |
|---|------------------------------|--------------------|--|
|   | On or before                 | On or after        |  |
| Hire date   | December 31, 2012            | January 1, 2013    |  |
| Benefit formula   | 2% at 60                     | 2% at 62           |  |
| Benefit vesting schedule                                  | 5 Years of Service           | 5 Years of Service |  |
| Benefit payments  | Monthly for Life             | Monthly for Life   |  |
| Retirement age  | 60                           | 62                 |  |
| Monthly benefits as a percentage of eligible compensation | 2.0% - 2.4%                  | 2.0% - 2.4%        |  |
| Required employee contribution rate                       | 10.25%                       | 10.205%            |  |
| Required employer contribution rate                       | 17.10%                       | 17.10%             |  |
| Required State contribution rate                          | 10.328%                      | 10.328%            |  |

## **Contributions**

Required member, District, and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2020, are presented above and the District's total contributions were \$5,148,427.

## Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total Net Pension Liability, Including State Share

| District's proportionate share of net pension liability State's proportionate share of the net pension liability associated with the District | \$ 48,931,698<br>26,695,508 |
|---|-----------------------------|
| Total   | \$ 75,627,206               |

The net pension liability was measured as of June 30, 2019. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2019 and June 30, 2018, respectively, was 0.0542 percent and 0.0510 percent, resulting in a net increase in the proportionate share of 0.0032 percent.

For the year ended June 30, 2020, the District recognized pension expense of \$5,206,458. In addition, the District recognized pension expense and revenue of \$3,975,537 for support provided by the State. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred<br>Outflows<br>of Resources |                      | of | Deferred<br>Inlows<br>of Resources |  |
|---|--------------------------------------|----------------------|----|------------------------------------|--|
| Pension contributions subsequent to measurement date Change in proportion and differences between contributions | \$                                   | 5,148,427            | \$ | -                                  |  |
| made and District's proportionate share of contributions  Differences between projected and actual earnings     |                                      | 3,392,344            |    | 2,442,720                          |  |
| on pension plan investments  Differences between expected and actual experience in                              |                                      | -                    |    | 1,884,864                          |  |
| the measurement of the total pension liability Changes of assumptions   |                                      | 123,527<br>6,188,790 |    | 1,378,838<br>-                     |  |
| Total   | \$                                   | 14,853,088           | \$ | 5,706,422                          |  |

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

| Year Ended June 30, | Deferred<br>Outflows/(Inflows)<br><u>of Resources</u> |
|---------------------|---|
| 2021                | \$ (190,121)  |
| 2022                | (1,496,359)   |
| 2023                | (310,667)   |
| 2024                | 112,283   |
|                     | \$ (1,884,864)  |

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

| Year Ended June 30, | Deferred<br>Outflows/(Inflows)<br>of Resources |
|---------------------|--|
| 2021                | \$ 742,526                                     |
| 2022                | 742,525  |
| 2023                | 1,768,538                                      |
| 2024                | 2,060,222                                      |
| 2025                | 351,080  |
| Thereafter          | 218,212  |
| merearter           | \$ 5,883,103                                   |

#### **Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2018 and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following methods and assumptions, applied to all prior periods included in the measurement:

| Valuation date            | June 30, 2018                      |
|---------------------------|------------------------------------|
| Measurement date          | June 30, 2019                      |
| Experience study          | July 1, 2010 through June 30, 2015 |
| Actuarial cost method     | Entry age normal                   |
| Discount rate             | 7.10%                              |
| Investment rate of return | 7.10%                              |
| Consumer price inflation  | 2.75%                              |
| Wage growth               | 3.50%                              |

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2019, are summarized in the following table:

| Asset Class                | Assumed Asset Allocation | Long-Term<br>Expected Real<br>Rate of Return |
|----------------------------|--------------------------|--|
| Global equity              | 47%                      | 4.8%   |
| Fixed income               | 12%                      | 1.3%   |
| Real estate                | 13%                      | 3.6%   |
| Private equity             | 13%                      | 6.3%   |
| Risk Mitigating Strategies | 9%                       | 1.8%   |
| Inflation sensitive        | 4%                       | 3.3%   |
| Cash/liquidity             | 2%                       | -0.4%  |

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

| Discount Rate                 | Net Pension<br>Liability |
|-------------------------------|--------------------------|
| 1% decrease (6.10%)           | \$ 72,863,349            |
| Current discount rate (7.10%) | 48,931,698               |
| 1% increase (8.10%)           | 29,087,802               |

School Employer Pool (CalPERS)

## California Public Employees Retirement System (CalPERS)

## **Plan Description**

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2018 annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: https://www.calpers.ca.gov/page/forms-publications.

#### **Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2020, are summarized as follows:

|   | On or before       | On or after        |
|---|--------------------|--------------------|
| Hire date   | December 31, 2012  | January 1, 2013    |
| Benefit formula   | 2% at 55           | 2% at 62           |
| Benefit vesting schedule                                  | 5 Years of Service | 5 Years of Service |
| Benefit payments  | Monthly for Life   | Monthly for Life   |
| Retirement age  | 55                 | 62                 |
| Monthly benefits as a percentage of eligible compensation | 1.1% - 2.5%        | 1.0% - 2.5%        |
| Required employee contribution rate                       | 7.000%             | 7.000%             |
| Required employer contribution rate                       | 19.721%            | 19.721%            |

#### Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2020, are presented above and the total District contributions were \$1,810,882.

# Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2020, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$17,247,981. The net pension liability was measured as of June 30, 2019. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2019 and June 30, 2018, respectively, was 0.0592 percent and 0.0542 percent, resulting in a net increase in the proportionate share of 0.0050 percent.

For the year ended June 30, 2020, the District recognized pension expense of \$3,249,126. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred<br>Outflows<br>of Resources |           | Ī  | Deferred<br>Inflows<br>of Resources |  |
|--|--------------------------------------|-----------|----|-------------------------------------|--|
| Pension contributions subsequent to measurement date   | \$                                   | 1,810,882 | \$ | -                                   |  |
| Change in proportion and differences between contributions made and District's proportionate share of contributions Differences between projected and actual earnings on |                                      | 907,609   |    | -                                   |  |
| pension plan investments   |                                      | -         |    | 159,978                             |  |
| Differences between expected and actual experience in  |                                      |           |    |                                     |  |
| the measurement of the total pension liability   |                                      | 1,252,896 |    | -                                   |  |
| Changes of assumptions   |                                      | 821,057   |    |                                     |  |
| Total  | \$                                   | 4,792,444 | \$ | 159,978                             |  |

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

| Year Ended June 30,          | Deferred<br>Outflows/(Inflows)<br>of Resources |
|------------------------------|--|
| 2021<br>2022<br>2023<br>2024 | \$ 157,916<br>(315,433)<br>(47,800)<br>45,339  |
|                              | \$ (159,978)                                   |

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 4.1 years and will be recognized in pension expense as follows:

| Year Ended June 30,          | Deferred<br>Outflows/(Inflow<br>of Resources | /s)<br>_ |
|------------------------------|--|----------|
| 2021<br>2022<br>2023<br>2024 | \$ 1,634,435<br>841,956<br>459,244<br>45,927 |          |
|                              | \$ 2,981,562                                 | _        |

### **Actuarial Methods and Assumptions**

Total pension liability for the SEP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2018 and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following methods and assumptions, applied to all prior periods included in the measurement:

| Valuation date            | June 30, 2018                      |
|---------------------------|------------------------------------|
| Measurement date          | June 30, 2019                      |
| Experience study          | July 1, 1997 through June 30, 2015 |
| Actuarial cost method     | Entry age normal                   |
| Discount rate             | 7.15%                              |
| Investment rate of return | 7.15%                              |
| Consumer price inflation  | 2.50%                              |
| Wage growth               | Varies by entry age and service    |

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90 percent of scale MP-2016.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class      | Assumed Asset Allocation | Long-Term<br>Expected Real<br>Rate of Return |
|------------------|--------------------------|--|
|                  |                          |  |
| Global equity    | 50%                      | 5.98%  |
| Fixed income     | 28%                      | 2.62%  |
| Inflation assets | 0%                       | 1.81%  |
| Private equity   | 8%                       | 7.23%  |
| Real assets      | 13%                      | 4.93%  |
| Liquidity        | 1%                       | -0.92%                                       |

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

| Discount Rate                                     | Net Pension<br>Liability    |
|---|-----------------------------|
| 1% decrease (6.15%) Current discount rate (7.15%) | \$ 24,861,830<br>17,247,981 |
| 1% increase (8.15%)                               | 10,931,767                  |

### **On Behalf Payments**

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$3,739,582 (10.328 percent of annual payroll). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been included in the calculation of available reserves.

Senate Bill 90 (Chapter 33, Statutes of 2019), which was signed by the Governor on June 27, 2019, appropriated an additional 2019–2020 contribution on-behalf of school employers of \$1.1 billion for CalSTRS. A proportionate share of these contributions have been recorded in these financial statements. On behalf payments related to these additional contributions have been excluded from the calculation of available reserves and have not been included in the budgeted amounts reported in the General Fund – Budgetary Comparison Schedule.

### Note 13 - Commitments and Contingencies

### **Grants**

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2020.

### Litigation

District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2020.

### **Construction Commitments**

As of June 30, 2020, the District had the following commitments with respect to the unfinished capital projects:

| Capital Project   | Remaining<br>Construction<br>Commitment                                 | Expected<br>Date of<br>Completion   |
|---|---|---|
| Carpet and Flooring OPE Kitchens all sites Asphalt Seal and repair LCH/PDL/DO Playgrounds FV,LCH,ME, OPE ECC Painting of School | \$ 352,048<br>1,500,000<br>74,389<br>402,769<br>160,000<br>\$ 2,489,206 | June 30, 2021<br>June 30, 2021<br>June 30, 2021<br>June 30, 2021<br>June 30, 2022 |

## Note 14 - Participation in Public Entity Risk Pools, Joint Powers Authorities and Other Related Party Transactions

The District is a member of the San Diego County Schools Risk Management Joint Powers Authority public entity risk pool. The District pays an annual premium to the entity for its workers' compensation and property and liability coverage. The relationship between the District and the pool is such that it is not a component unit of the District for financial reporting purposes.

This entity has budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entity and the District are included in these statements. Audited financial statements are generally available from the respective entities.

During the year ended June 30, 2020, the District made payments totaling \$768,866 for annual premiums.

### Note 15 - Subsequent Events

On October 15, 2020, the District issued \$2,440,000 of 2020 General Obligation Refunding Bonds, Series A. The bonds consist of federally taxable crossover bonds bearing interest rates ranging from 0.402 percent to 1.161 percent with a final maturity date of August 1, 2023. The bonds are being issued to refund certain maturities of the District's outstanding General Obligation Bonds Election of 2010, Series 2013, and to pay costs of issuance.

In addition, the District also issued \$20,465,000 of 2020 General Obligation Refunding Bonds, Series B. The bonds consist of federally taxable crossover bonds bearing interest rates ranging from 1.011 percent to 2.484 percent with a final maturity date of August 1, 2039. The bonds are being issued to refund certain maturities of the District's outstanding General Obligation Bonds Election of 2010, Series 2015, and to pay costs of issuance.

Subsequent to year-end, the District has been negatively impacted by the effects of the world-wide coronavirus pandemic. The District is closely monitoring its operations, liquidity, and capital resources and is actively working to minimize the current and future impact of this unprecedented situation. As of the issuance date of these financial statements, the full impact to the District's financial position is not known beyond increased cash flow monitoring due to state apportionment deferrals.

### Note 1 - Purpose of Schedules

### **Budgetary Comparison Schedule**

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America as prescribed by the Governmental Accounting Standards Board and provisions of the California Education Code. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

### Schedule of Changes in the District's Total OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the total OPEB liability, including beginning and ending balances, the plan's fiduciary net position, and the total OPEB liability. In the future, as data becomes available, ten years of information will be presented.

- Change in benefit terms There were no changes in the benefits terms since the previous valuation.
- Changes of Assumptions The plan discount rate assumption was changed from 2.60 percent to 2.20 percent since the previous valuation.

### Schedule of the District's Proportionate Share of the Net OPEB Liability - MPP Program

This schedule presents information on the District's proportionate share of the net OPEB Liability – MPP Program and the plans' fiduciary net position. In the future, as data becomes available, ten years of information will be presented.

- Changes in Benefit Terms There were no changes in the benefit terms since the previous valuation.
- Changes of Assumptions The plan rate of investment return assumption was changed from 3.87 percent to 3.50 percent since the previous valuation.

### Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

- Changes in Benefit Terms There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.
- Changes of Assumptions There were no changes in economic assumptions for either the CalSTRS or CalPERS plans from the previous valuations.

### **Schedule of District Contributions**

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

### Organization

The Encinitas Union School District was formed in 1944 and encompasses 24.6 square miles. It is located in the north coastal portion of San Diego County and serves the City of Encinitas and the La Costa area of Carlsbad. The District operates nine elementary schools. There were no boundary changes during the year.

| Pensions and OPEB                    | N/A                     | \$ 147,203,486         | \$ 141,663,575          | \$ 139,668,185         |
|                                      |                         |                        |                         |                        |
| K-12 Average Daily Attendance at P-2 | 5,073                   | 5,073                  | 5,049                   | 5,104                  |

The General Fund balance has increased by \$2,368,841 over the past two years. The fiscal year 2020-2021 budget projects a decrease of \$1,654,232 (9.2 percent). For a district this size, the State recommends available reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surplus in two of the past three years but anticipates incurring an operating deficit during the 2020-2021 fiscal year. Total long-term liabilities have increased by \$7,535,301 over the past two years.

Average daily attendance has decreased by 31 over the past two years. No change in ADA is anticipated during fiscal year 2020-2021.

<sup>&</sup>lt;sup>1</sup> Budget 2021 is included for analytical purposes only and has not been subjected to audit.

<sup>&</sup>lt;sup>2</sup> Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund and the Special Reserve Fund for Other Than Capital Outlay Projects.

<sup>&</sup>lt;sup>3</sup> General Fund amounts do not include activity related to the consolidation of the Deferred Maintenance Fund, and the Special Reserve Fund for Other than Capital Outlay Projects as required by GASB Statement No. 54.

### Note 1 - Purpose of Schedules

### Schedule of Expenditures of Federal Awards (SEFA)

### Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the Encinitas Union School District (the District) under programs of the federal government for the year ended June 30, 2020. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Encinitas Union School District, it is not intended to and does not present the financial position of Encinitas Union School District.

### **Summary of Significant Accounting Policies**

Expenditures reported in the schedule are reported on the (identify the basis of accounting) basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

### **Indirect Cost Rate**

The District has not elected to use the ten percent de minimis cost rate

#### **Food Donation**

Nonmonetary assistance is reported in this schedule at the fair market value of the commodities received and disbursed. At June 30, 2020, the District had food commodities totaling \$18,103 in inventory.

### **Local Education Agency Organization Structure**

This schedule provides information about the District's boundaries and schools operated members of the governing board, and members of the administration.

### Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

### **Schedule of Instructional Time**

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District has met its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by Education Code Section 46201.

Due to school closures caused by COVID-19, the District filed the COVID-19 School Closure Certification certifying that schools were closed for 59 days due to the pandemic. As a result, the District received credit for these 59 days in meeting the annual instructional days requirement. In addition, planned minutes covered by the COVID-19 School Certification were included in the Actual Minutes column but were not actually offered due to the COVID-19 school closure.

### Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

### **Schedule of Financial Trends and Analysis**

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

## Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

Independent Auditor's Reports June 30, 2020

## **Encinitas Union School District**

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors Encinitas Union School District Encinitas, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Encinitas Union School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Encinitas Union School District's basic financial statements and have issued our report thereon dated January 4, 2021.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Encinitas Union School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Encinitas Union School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Encinitas Union School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Encinitas Union School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors Encinitas Union School District Encinitas, California

### **Report on Compliance for Each Major Federal Program**

We have audited Encinitas Union School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Encinitas Union School District's major federal programs for the year ended June 30, 2020. Encinitas Union School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Encinitas Union School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Encinitas Union School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Encinitas Union School District's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, Encinitas Union School District's complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Report on Internal Control over Compliance**

Management of Encinitas Union School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Encinitas Union School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Encinitas Union School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Independent Auditor's Report on State Compliance**

To the Board of Directors Encinitas Union School District Encinitas, California

#### **Report on State Compliance**

We have audited Encinitas Union School District's (the District) compliance with the types of compliance requirements described in the 2019-2020 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, applicable to the state laws and regulations listed in the table below for the year ended June 30, 2020.

### Management's Responsibility

Management is responsible for compliance with the state laws and regulations as identified in the table below.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the District's compliance with state laws and regulations based on our audit of the types of compliance requirements referred to below. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of the 2019-2020 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements listed below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

### **Compliance Requirements Tested**

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with laws and regulations applicable to the following items:

|  | Procedures<br>Performed |
|--|-------------------------|
| LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOLS                  |                         |
| Attendance   | Yes                     |
| Teacher Certification and Misassignments                             | Yes                     |
| Kindergarten Continuance   | No, see below           |
| Independent Study  | No, see below           |

| K-3 Grade Span Adjustment  | Yes                     |
| Transportation Maintenance of Effort                                 | Yes                     |
| Apprenticeship: Related and Supplemental Instruction                 | No, see below           |
| Comprehensive School Safety Plan                                     | Yes                     |
| District of Choice   | Yes                     |
| SCHOOL DISTRICTS, COUNTY OFFICES OF EDUCATION, AND CHARTER           |                         |
| SCHOOLS  |                         |
| California Clean Energy Jobs Act                                     | No, see below           |
| After/Before School Education and Safety Program:                    |                         |
| General Requirements   | Yes                     |
| After School   | Yes                     |
| Before School  | Yes                     |
| Proper Expenditure of Education Protection Account Funds             | Yes                     |
| Unduplicated Local Control Funding Formula Pupil Counts              | Yes                     |
| Local Control Accountability Plan                                    | Yes                     |
| Independent Study - Course Based                                     | No, see below           |
| CHARTER SCHOOLS  |                         |
| Attendance   | No, see below           |
| Mode of Instruction  | No, see below           |
| Nonclassroom-Based Instruction/Independent Study for Charter Schools | No, see below           |
| Determination of Funding for Nonclassroom-Based Instruction          | No, see below           |
| Annual Instruction Minutes Classroom-Based                           | No, see below           |
| Charter School Facility Grant Program                                | No, see below           |

We did not perform procedures for Kindergarten Continuance because there were no Kindergarteners retained in 2019-2020 that were in Kindergarten in 2018-2019.

The District does not offer an Independent Study Program; therefore, we did not perform procedures related to the Independent Study Program.

We did not perform Continuation Education procedures because the program is not offered by the District.

The District did not offer an Early Retirement Incentive Program during the current year; therefore, we did not perform procedures related to the Early Retirement Incentive Program.

The District does not have any Juvenile Court Schools; therefore, we did not perform procedures related to Juvenile Court Schools.

The District does not have any Middle or Early College High Schools; therefore, we did not perform procedures related to Middle or Early College High Schools.

We did not perform Apprenticeship: Related and Supplemental Instruction procedures because the program is not offered by the District.

We did not perform California Clean Energy Jobs Act procedures because the related procedures were performed in a previous year.

The District does not offer an Independent Study - Course Based program; therefore, we did not perform any procedures related to the Independent Study - Course Based Program.

The District does not operate any Charter Schools; therefore, we did not perform procedures for Charter School Programs.

### Basis for Qualified Opinion on the Unduplicated Local Control Funding Formula Pupil Counts

As described in the accompanying Schedule of State Compliance Findings and Questioned Costs, Encinitas Union School District did not comply with requirements regarding the Unduplicated Local Control Funding Formula Pupil Counts; refer to State Awards Findings and Questioned Costs; finding 2020-001. Compliance with such requirements is necessary, in our opinion, for Encinitas Union School District to comply with the requirements referred to above.

### Qualified Opinion on the Unduplicated Local Control Funding Formula Pupil Counts

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, Encinitas Union School District complied, in all material respects, with the compliance requirements referred to above for the year ended June 30, 2020.

Encinitas Union School District's response to the noncompliance finding(s) identified in our audit is(are) described in the accompanying Schedule of State Compliance Findings and Questioned Costs. Encinitas Union School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Unmodified Opinion on Each of the Other Programs**

In our opinion, Encinitas Union School District complied with the laws and regulations of the state programs referred to above for the year ended June 30, 2020, except as described in the accompanying Schedule of State Compliance Findings and Questioned Costs.

The purpose of this report on state compliance is solely to describe the results of our testing based on the requirements of the 2019-2020 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. Accordingly, this report is not suitable for any other purpose.

# Encinitas Union School District Federal Awards Findings and Questioned Costs

Federal Awards Findings and Questioned Costs Year Ended June 30, 2020

None reported.

The following finding represents an instance of noncompliance and/or questioned costs relating to compliance with state laws and regulations. The finding has been coded as follows:

Five Digit Code AB 3627 Finding Type

40000 State Compliance

2020-001 40000

### Criteria or Specific Requirements

California *Education Code* Section 42238.02(b)(4) states school districts should revise their submitted data on English learners, foster youth, and free or reduced-price meal eligible pupil counts to ensure the accuracy of data reflected in the California Longitudinal Pupil Achievement Data System (CALPADS).

### Condition

The Unduplicated Local Control Funding Formula (LCFF) Pupil Counts submitted to the California Department of Education was inaccurate. It appears that the District inaccurately reported 3 students as having designation of free or reduced on the "1.18 – FRPM/English Learning/Foster Youth – Student List" report.

### **Questioned Costs**

Using the audit penalty calculator published by the California Department of Education, the calculated questioned cost was determined to be approximately \$832.

### Context

The condition was identified as a result of selecting a sample of students from the "1.18 – FRPM/English Learner/Foster Youth – Student List" CALPADS report in accordance to the 2019-2020 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, Section 19489(a)(1). The initial sample was selected from two school sites, which resulted in exceptions noted for one of the sites. For three students selected, one student had their status changed from reduced to paid based on income verifications but were not changed in the CALPADS report. The auditor requested that the District identify all remaining students who had their status changed from free or reduced to paid but are still reported as free or reduced in the 1.18 report. The District's review of all remaining students resulted in a total of two students, including the original student identified, that were incorrectly designated as having free or reduced status on the "1.18 – FRPM/English Learner/Foster Youth – Student List" report.

### Effect

As a result of our testing, it appears that the District did not update the "1.18 – FRPM/English Learner/Foster Youth – Student List" CALPADS report to align the reporting with the most current free and reduced eligibility information from the District's Nutrition Services Department. The following schedule identifies the District-wide exceptions:

|                     | Total<br>Enrollment | Unduplicated<br>FRPM/EL/Foster<br>Youth Total | Unduplicated<br>Pupil Count<br>Adjustment<br>(FRPM) | Adjusted Total<br>Unduplicated<br>Pupil Count |
|---------------------|---------------------|---|---|---|
| Total District-Wide | 5,342               | 920   | (2)   | 918   |

#### Cause

The primary cause appears to originate from District not importing accurate student statuses from the Child Nutrition system into the CALPADS data.

Repeat Finding

No

#### Recommendation

The District should emphasize the importance of completing Form 1.18 accurately, which would include ensuring that all changes are accurately and timely updated based on new eligibility documentation received. In addition, the District should identify and evaluate key CALPADS calendar dates to ensure that appropriate and necessary measures are taking place to ensure that CALPADS information is being updated.

### Corrective Action Plan

The District has put plans in place to ensure that all Free and Reduced application responses and/or changes have been received before we Certify our CALPADS data. The Ed. Services Department will reach out to the Child Nutrition Department prior to certifying CALPADS to ensure that we have received responses back from all of our families with applications.

## Encinitas Union School District Summary Schedule of Prior Audit Findings Year Ended June 30, 2020

There were no audit findings reported in the prior year's Schedule of Findings and Questioned Costs.
