## THE POLICY

The Salt Lake City School District Board of Education allows schools to solicit and accept a limited number of advertisements that are designed to promote educational and extracurricular activities. Advertising on or in selected school property, school publications, and electronic mediums must comply with all applicable local, state, and federal laws, board policies, and district administrative procedures. It is the board's intent to create a limited public forum where advertising and promotional activities will be excluded that may be disruptive to the district's educational purpose, instructional programs, or operations. No advertising shall be interpreted as or constitute an endorsement by the board, district, or school, of any product, service, activity, program, or organization. The district will adopt procedures to prevent advertisements from detracting from the school environment or academic climate.

The purpose of this policy is to ensure that revenue generating advertising and promotional activities are carefully administered to benefit students and to further the board's educational mission.

The district has set forth its specific processes for implementing this board policy through the accompanying [administrative procedures](#).

No district employee or student shall be subjected to discrimination in employment or any district program or activity on the basis of age, color, disability, gender, gender identity, genetic information, national origin, pregnancy, race, religion, sex, sexual orientation, or veteran status. The district is committed to providing equal access and equal opportunity in its programs, services and employment including its policies, complaint processes, program accessibility, district facility use, accommodations and other Equal Employment Opportunity matters. The district also provides equal access to district facilities for all youth groups listed in Title 36 of the United States Code, including scouting groups.
