2020-2021: The Year of the COVID 19 Pandemic

March 2021

There are many parts of this annual report that look differently from years past and historical trends. The reason is the sudden decline of student enrollment as a result of the COVID 19 pandemic. On October 1, 2020 the district verified that more than 300 K-12 students that the district was planning to have enrolled in MAPS chose instead other venues to attend school.

Along with state funding and local property taxes, student enrollment is a key driver of the school district's revenue budget. With the loss of 300 K-12 students, along with early childhood and extended time revenue, the district will be required to make significant adjustments to its overall expense and operations now and in the future.

In 2020-21, there were significant increases to students choosing to homeschool. In addition, more students than normal opted for non-public schools, and still more chose to open enroll in other public schools, including on-line academies. There were roughly 50 kindergarten students who chose to delay starting school. Finally, the district experienced many more students than usual moving out of the district to other Minnesota communities and/or other states. The general pattern of this unexpected student migration: The younger the student, the more likely it was for them not to attend MAPS. In contrast, high school enrollments were very close to the expected forecast.

The following provides detail on parts of this report that merit further explanation and analysis.

1. Page 3, Five Year Forecast: The Cohort Survival Method used for enrollment forecasting depends on the historical patterns of previous actual enrollment. As such, this decline in enrollment experienced this past fall now has a dampening effect on future enrollment forecasts. As students return to MAPS, the district anticipates the drop shown on this page may stabilize and begin to show an upward trend.
2. Page 6, Capacity of Schools: Most of the capacity percentages on this page are uncharacteristically low as a result of fewer students than usual attending MAPS this year.
3. Page 7, Class Size: There is a note on the bottom of this page that explains why the 2019-20 data is being displayed. The 2020-21 class size data is artificially low because of the drop in enrollment, and the manner in which classroom sections are distributed throughout the school to promote social distancing and the use of specialist teachers to work as regular classroom teachers.
4. Page 10, Free and Reduced Percent: This 34 percent is very close to normal for MAPS. However, the total number of students who are eligible for this meal benefit has sharply dropped. As a result, the district's compensatory revenue for the 2021-22 school year will be negatively impacted. Currently, the lost revenue for next school year is another factor contributing to the district's financial challenges.
5. Page 13, Open Enrollment: As seen on this page, MAPS is experiencing a net loss of 278 students to other districts. This pattern is not new to MAPS in recent years. However, in this year the net loss has become more pronounced.
6. Page 16, Homeschool: Every year, MAPS experiences many students choosing homeschool. However, as shown on this page, there are 140 more students homeschooling this year as compared to last.

MANKATO AREA PUBLIC SCHOOLS

ENROLLMENT PROJECTIONS ASSUMPTION STATEMENTS

1. *The “Cohort Survival Ratio”* method used in projecting enrollments for Mankato Area Public Schools by analyzing enrollment trends will continue to be a very accurate methodology.*
2. *Moderate fluctuations in the local economy will result in minimum impact upon student enrollment projections.*
3. *Nonpublic enrollments will remain stable and will have no material impact upon student projections.*
4. *The communities comprising Mankato Area Public Schools will have moderate growth over the next five to ten years.*

* *Mathematical technique which uses past enrollment trends to project future trends. Mankato Area Public Schools uses the projection model recommended by the Minnesota Department of Education.*

MANKATO AREA PUBLIC SCHOOLS

PRE-SCHOOL CENSUS DATA COLLECTION

Mankato Area Public Schools receives information on pre-schoolers to be entered into the student database in the following ways:

1. **NEW BIRTHS** – Information recorded at the Blue Earth County Courthouse regarding babies born at Immanuel-St. Joseph’s-Mayo Health System is obtained in a monthly birth report.
2. **CENTRAL REGISTRATION** – Families new to the area come to the Central Registration Office to register students for Mankato Public Schools; they are asked to complete a registration form and include all children living in their household including pre-schoolers.
3. **SCHOOLS** – Families in our District are asked to verify their household information each year during entrance conferences. This includes providing an updated list of all children living in their household, including pre-schoolers.
4. **CITY-SCHOOL NEWS** – A taxpayer newsletter is mailed out each year. Included with the newsletter is a census flyer asking parents for pre-school information. Parents complete and return the form to the District.
5. **EARLY CHILDHOOD SCREENING** – Early Childhood Screening is required of all students prior to entering kindergarten. Families are asked to complete a registration form that includes all children living in their household including pre-schoolers.

----------------------------------	------	------	------	------	------	-------	------	------	------	--------

* Indicates beginning transition to Middle school concept - 2016-17 School Year

** The district is displaying 2019-20 class size data here. Due to COVID 19, and the significant loss of student enrollment, coupled with the use of specialists teachers for regular classroom instruction to maintain social distancing, and the use of MAPS On-line Academy, the class sizes in 2020-21 display aberrantly low, and do not reflect an accurate depiction of class size data in normal circumstances.

Mankato Area Public Schools Open Enrollment

Our schools are governed by state laws and regulations. One law that impacts our enrollment trends is "Open Enrollment." As shown in the table below, in 20-21 Mankato has a net loss of students enrolling under the provisions of this law.

	Attending Mankato	Attending Other Districts	Net Gain/(loss)		Attending Mankato	Attending Other Districts	Net Gain/(loss)
