

# COMMUNITY Profile

## Featuring

FUNCTIONAL CONNECTIONS, LLC

[www.functionalconnections.org](http://www.functionalconnections.org)

- Functional Connections, LLC is a community of individuals, families, and professionals who believe that everyone deserves individualized services that promote access to meaningful relationships and the opportunity to achieve their highest potential.
- It's never too late to learn! While we offer consultation and assessment services for all ages, our primary programming focuses on helping teens and adults gain a higher level of independence and quality of life. The majority of services are provided through waivers or school district funding.
- Learning should be FUN! We work with individuals to develop goals and programming that explore their interests while developing functional skills in the process. It's common for us to make puppets, build a birdhouse, or learn to play poker while teaching executive functioning, organizational, behavioral and communication skills.
- CONNECTIONS are key! We work with everyone to build connections in families, communities, and between supports so that individuals can have the social life and support network that they need to achieve their dreams.
- Committed to Excellence! Our commitment to FUNCTIONAL CONNECTIONS goes far beyond the individuals we serve or the employees we hire. We sponsor local haircut events in the community that provides a service for individuals and an opportunity to train local stylists while also offering the experience to behavior professionals from different organizations to develop a new skill set. We are involved in advocacy for quality services at the state level and provide trainings locally & nationally.

Local resources,  
opportunities,  
and support for  
the Autism community.
