

Employee Use of Technology

BP 4040

The Board of Trustees recognizes that technological resources enhance employee performance by offering effective tools to assist in providing a quality instructional program; facilitating communications with parents/guardians, students, and the community; supporting district and school operations; and improving access to and exchange of information. The Board expects all employees to learn to use the available technological resources that will assist them in the performance of their job responsibilities. As needed, employees shall receive professional development in the appropriate use of these resources.

(cf. 0440 - District Technology Plan)
(cf. 1100 - Communication with the Public)
(cf. 1113 - District and School Web Sites)
(cf. 1114 - District-Sponsored Social Media)
(cf. 4032 - Reasonable Accommodation)
(cf. 4131 - Staff Development)
(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)

Employees shall be responsible for the appropriate use of technology and shall use district technology primarily for purposes related to their employment.

(cf. 0410 - Nondiscrimination in District Programs and Activities)
(cf. 4119.11/4219.11/4319.11 - Sexual Harassment)
(cf. 4119.21/4219.21/4319.21 - Professional Standards)
(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)
(cf. 4119.25/4219.25/4319.25 - Political Activities of Employees)
(cf. 5125 - Student Records)
(cf. 5125.1 - Release of Directory Information)
(cf. 6162.6 - Use of Copyrighted Materials)
(cf. 6163.4 - Student Use of Technology)

District technology includes, but is not limited to, computers, the district's computer network including servers and wireless computer networking technology (wi-fi), the Internet, email, USB drives, wireless access points (routers), firewall and filtering systems, any application or network system on the district's network (to include email), tablet computers, smartphones

and smart devices, telephones, cellular telephones, personal digital assistants, pagers, MP3 players, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off site or through district-owned or personally owned equipment or devices.

The Superintendent or designee shall establish an Acceptable Use Agreement which outlines employee obligations and responsibilities related to the use of district technology. Upon employment and whenever significant changes are made to the district's Acceptable Use Agreement, employees shall be required to acknowledge in writing that they have read and agreed to the Acceptable Use Agreement and complete a short digital training course, submitting the accompanying assessment of the material.

Employees shall not use district technology to access, post, submit, publish, or display harmful or inappropriate matter that is threatening, obscene, disruptive, sexually explicit, or unethical or that promotes any activity prohibited by law, Board policy, or administrative regulations.

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

Employees shall not attempt to interfere with other users' ability to send or receive email, nor shall they attempt to read, delete, copy, modify, or forge other users' mail.

Employees shall not attempt to gather any information (such as student information, school information, department information, etc.) and place on electronic media (such as a flash drive) for the purposes other than those related to their primary employment.

Employees are responsible to report missing or lost district technologies, to include but not limited to district technology equipment and district information stored on such equipment (or electronic media, such as flash drives/optical disks).

Employees shall not develop any classroom or work-related web sites, blogs, forums, or similar online communications representing the district or using district equipment or resources without permission of the Superintendent or designee. Such sites shall be subject to rules and guidelines established for district online publishing activities including, but not limited to, copyright laws, privacy rights, and prohibitions against obscene, libelous, and slanderous content. Because of the unfiltered nature of blogs, any such sites shall include a disclaimer that the district is not responsible for the content of the messages. The district retains the right to delete material on any such online communications.

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. This includes any information deemed inappropriate by the Superintendent or designee. The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research or other lawful purpose. (20 USC 6777; 47 USC 254)

The Superintendent or designee shall annually notify employees in writing that they have no reasonable expectation of privacy in the use of any equipment or other technological resources provided by or maintained by the district, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, even when provided their own password. To ensure proper use, the Superintendent or designee may monitor employee usage of district technology at any time without advance notice or consent and for any reason allowed by law.

In addition, employees shall be notified that records maintained on any personal device or messages sent or received on a personal device that is being used to conduct district business may be subject to disclosure, pursuant to a subpoena or other lawful request.

Employees shall report any security problem or misuse of district technology to the Superintendent or designee.

Inappropriate use of district technology may result in a cancellation of the employee's user privileges, disciplinary action, and/or legal action in accordance with law, Board policy, and administrative regulation.

(cf. 4118 - Dismissal/Suspension/Disciplinary Action)
