Dear Superintendent Holmen,

We communicated with you previously that your Lake Washington reopening plan had been approved based on your March 1 submission that included affirmation of opening dates for all grades. We understand that you are still finishing your work to secure details of a local agreement. At this time, we will withhold release of the ESSER II funds until at least April apportionment assuming you achieve the endpoints to your reopening plan. Please reach out with any questions or updates on the status of your reopening efforts.

Sincerely,

Chris Reykdal  
Superintendent of  
Public Instruction
