INDEPENDENT AUDITOR'S REPORT

Cambridge, Vermont

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cambridge Town School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Cambridge Town School District, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information on pages 33-34, the schedule of proportionate changes of net pension liability on page 35 and the schedule of the proportionate changes of the net OPEB liability on page 36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated, on our consideration of the Cambridge Town School District's internal control over financial reporting November 28, 2018 and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cambridge Town School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2019

Our discussion and analysis of the Cambridge School District financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the District's financial statements.

Brief Discussion of the Basic Financial Statements:

Using This Annual Report

This annual Report consists of a series of financial statements. The Statement of Net Position, Statement of Changes in Net Position (Statement of Activities), and the Balance Sheet—Governmental Funds provide information about the activities of the District as a whole, and present a longer-term view of the District's finances. Fund financial statements such as the Statement of Revenues, Expenditures and Changes in Fund Balance follow under the Notes section of the Report. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The Statement of Net Position - Fiduciary Funds provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the government.

The District Administration is responsible for establishing an accounting and internal control structure designed to ensure that the physical, data, informational, intellectual and human resource assets of the District are protected from loss, theft and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Additionally, management strives to ensure that these assets are put to good and effective use. The internal control structure is designed to provide reasonable, but not absolute, assurances that these objectives are attained. The concept of reasonable assurance recognizes that: (1) the cost of any control should not exceed the benefit likely to be derived; (2) the valuation of cost and benefits requires judgments by management.

Reporting the District as a Whole

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position reports the District's net position and changes in them. You can think of the District's net position - the difference between assets and liabilities - as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the District's student enrollment and the condition of the District's infrastructure, to assess the overall health of the District.

In the Statement of Net Position and the Statement of Activities, the District's activities are classified solely as governmental activities:

- Governmental activities - The District's basic services are reported here, including: instruction-regular education and special education; supporting education services; operation and maintenance; transportation; administration; and debt service. These activities are further broken down between General Fund and Special Revenue.

Cambridge Town School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2019

- General Fund Activities – These are the basic core activities of the District – student education. These activities are also supported primarily by property taxes.
- Special Revenue Activities: These are special purpose activities that are supported by grant funds. These activities may support the core mission of the District, but the activities are being provided because other funds are available to pay for them. In most cases, special revenue activities would not be provided if grants were not available.

Analysis of Overall Financial Information:

The Chart below provides a snapshot of the financial picture of the district for FY19:

FY 19 Revenues

The chart above shows overall revenues of \$5,548,708, a decrease of \$145,999 from FY 18 due to a decrease in State revenue, which is directly related to transportation reimbursement revenue fully being received at the supervisory union and a reduction in state tax payments in FY 19.

FY19 Expenditures

The Schools' expenditures of \$5,598,785 remained consistent with the prior year. FY 19 expenditures were \$47,063 lower than the prior year, which is less than a 1% difference.

Change in General Fund Balance:

Under Governmental Accounting Standards Board #54, the District is reporting fund balances classified under definitions: Restricted, Committed, Assigned, Non-spendable or Unassigned

Fund 06/30/18	Balance	Excess (Deficiency) of Expenditures	Revenues over	Fund 6/30/19	Balance
	\$707,763				\$624,152
		(\$83,611)			

The total accumulated fund balance reflected above consists of the following:

- \$12,746 Non-spendable (Prepaid as of 06/30/19)
- \$50,000 Committed for Sweet Property
- \$150,000 Committed for FY 20 Expenses
- \$53,380 Committed for Future Capital Reserve Expenses
- \$193,199 Committed for Capital Projects
- \$164,827 Unassigned

Capital Assets:

As required under Governmental Accounting Standards Board #34, the District is reporting its capital assets as part of the financial statements. The District has researched and documented the historical costs of the various assets owned by the District and applied appropriate charges against the cost to record depreciation. Note 5 of the Report further details the status of the District's net capital assets.

Description	Balance - 7/1/18	Increase/Decrease	Balance - 6/30/19
Land	\$466		\$466
Construction in Progress	\$0		\$0
Depreciable Assets	\$11,154,028	\$32,148	\$11,186,176
Accumulated Depreciation	(\$4,389,127)	(\$199,007)	(\$4,588,134)
Net Assets	\$6,765,367	(\$166,859)	\$6,598,508

Long-Term Debt & Obligations:

The District has three categories of long-term debt, defined as Bond Payables, Lease Purchase Payables and Termination Benefits Payable. More detail can be found in Note 5.

1. At year end, there remained \$2,135,000 in outstanding bond for the construction of the Cambridge Elementary School. Bond principal and interest are being paid from the General Fund.

Bond Type	Original Amount	06/30/18 Balance	FY '19 Principal Payment	6/30/19 Balance	Final Date	Pay.
Construction	\$6,110,000	\$2,440,000	\$305,000	\$2,135,000	12/01/2025	

Cambridge Town School District
 MANAGEMENT'S DISCUSSION AND ANALYSIS

2. At June 30, 2019 the District had \$164,412 in outstanding notes payable which were for the purchase of school buses. Principal and interest are being paid from the General Fund.

Lease Purchase	Original Amount	6/30/18 Balance	FY '19 Payments	6/30/19 Balance	Final Pay. Date
1 School Bus	\$89,000	\$53,400	\$17,800	\$35,600	6/1/21
1 School Bus	\$90,000	\$72,000	\$18,000	\$54,000	Feb 2022
1 School Bus	\$93,515	\$93,515	\$18,703	\$74,812	June 2023

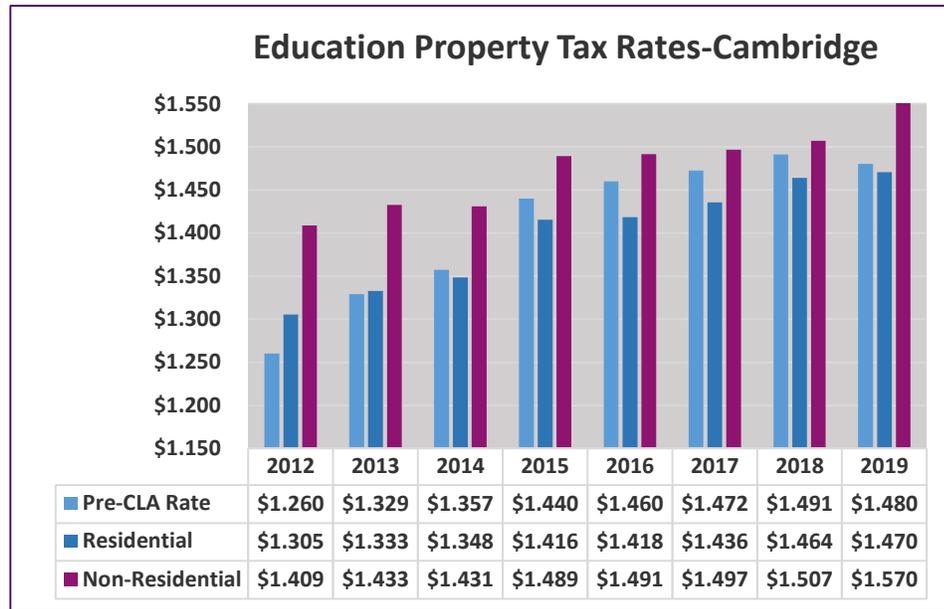

3. At June 30, 2019 the district had \$68,043 in termination benefits payable. This is per the contract with the Support Staff and Teachers regarding retirement benefits. Note 7.
4. Fiscal year 2019 contributions for Support Staff Retirement plan were \$7,410.

Current Issues:

- Collective Bargaining Agreements: All Collective Bargaining Agreements expired on 06/30/2019. New 1 year agreements have been ratified and are set to expire June of 2020.
- Enrollment: Beginning in 2009, Cambridge experienced an upturn in enrollment. Unlike many of Vermont's schools, the Cambridge Town School District had not experienced a decline in student enrollment, until FY 2018. New housing starts, including low income Section-8 housing, resulted in increases in birth rates and will corresponded to an increased number of students. In 2018 and 2019, Cambridge experienced a drop in enrollment. However, fall of 2019 shows an increase. We will be watching these numbers carefully.
- Taxes: Property taxes in Vermont are set by calculation of total budgeted cost per equalized pupil in each district, divided by the State announced yield, and adjusted by the local common level of appraisal (CLA). A CLA of over 100% has the effect of lowering the tax rate and a CLA under 100% has the effect of increasing the tax rate. As local property values increase, the CLA goes down which has the effect of increasing the tax rate.

The impact of the Common Level of Appraisal (Vermont's adjustment factor to bring a town's appraised values to fair market values) has affected Cambridge tax rates, but less so than in other Lamoille towns as Cambridge real estate market, and values, tend to remain stable. In 2017, a reappraisal of property adjusted the C.L.A. slightly for subsequent fiscal years, as reflected in the following:

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

All operations of the School District are controlled by a five-member Board of Trustees, elected in Town-wide elections, and responsible for all of the School District's activities. The financial statements include all of the School District's operations controlled by the Board of Trustees. Based on criteria for determining the reporting entity (separate legal entity and fiscal or financial dependency on other governments), the School District is considered to be an independent reporting entity and has no component units.

District-Wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the School District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expense of a given program is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post-employment healthcare benefits, are recorded only when payment is due.

Cambridge Town School District
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property taxes (state education and local share) and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the School District receives cash.

The School District reports the following major governmental funds:

- * The special revenue fund accounts for various state and federal grants
- * The general fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.
- * The capital projects fund accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the School District.

Private-sector standards of accounting, and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes (state education and local share).

Budgetary Data

Budgets are presented on the modified accrual basis of accounting for all governmental funds. Budgets are not adopted on a School District level for the financial funds or the student activities agency fund. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance reserve. The following procedures are used in establishing the budgetary data reflected in the financial statements.

- * During January of each year, the School District Superintendent submits to the Board a proposed operating budget for the next fiscal year commencing July 1st. This budget includes proposed expenditures and the means of financing them. Included also is a final budget for the current year ending June 30th.
- * Copies of the proposed budget are made available for public inspection and review by the patrons of the School District. During March of each year a public hearing is held prior to Town Meeting day to discuss the budget.
- * The budget is voted on by taxpayers at Town Meeting in the month of March.

Cambridge Town School District
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- * Once adopted, the budget can be amended by subsequent Board action. The Board upon recommendation of the Superintendent can approve reductions in appropriations, but increases in appropriations by fund require a public hearing prior to amending the budget. In accordance with Vermont State law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.
- * Expenditures may not legally exceed budgeted appropriations at the fund level.

Encumbrance accounting is employed in the governmental funds. Encumbrances (e.g., purchase orders and contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

Negative variances in total revenues and the positive variances in total expenditures are largely a result of federal and state program revenues and related expenditures that do not have a direct impact on the undesignated fund balance. Budgets generally assume the expenditure of all available resources. Therefore, when the budget is prepared, it is assumed these funds will not have a carryover of revenue to a subsequent year. Program revenue received but not spent is restricted and deferred to the subsequent fiscal year. As a result, overall fund revenues variances will be negative and overall fund expenditures variances will be positive.

Cash and Cash Equivalents

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., current portion of inter-fund loans) or "advances from/to other funds" (i.e., the non-current portion of inter-fund loans). Cambridge Town School District generally maintains one cash account in the General Fund to pay expenditures and receive payments for efficiency. All interfund balances resulted from the time lag between the dates that (1) reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) repayments between funds are made.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Capital Assets

Capital assets are property owned by the School District and include computers, computer equipment, and peripherals: equipment such as vehicles, machinery, copiers, and office equipment; buildings and land: and infrastructure such as roads, bridges, tunnels, rights of way, and culverts.

Cambridge Town School District
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

General capital assets should be capitalized and recorded when all of the following criteria are met:

- (1) The asset is tangible and complete.
- (2) The asset is used in the operation of the School District's activities.
- (3) The asset has a value equal to or greater than \$5,000 and a useful life of more than one year, at the date of acquisition

All general capital assets must be recorded at either historical cost or estimated historical cost. Assets acquired through donation will be recorded at their estimated fair market value on the date of donation. In addition to purchase price or construction cost, costs of capitalization may include incidental costs, such as bond interest and issuance cost, insurance during transit, freight, duties, title search, title registration, installation, and breaking-in costs.

The straight line depreciation method will be used with lives as recommended by the Association of School Business Officials (ASBO).

Long-term Obligations

In the district-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets.

Property Taxes

Property taxes are due and payable on or before November 15 and become delinquent on November 16. The Town prepares the bills and collects all taxes and then remits them to the School District.

Government Wide Net Position

Government-wide Net Position is divided into the following components:

Net investment in capital assets – consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

Restricted net position – consist of net assets that are restricted by the District's creditors, by enabling legislation, by grantors (both federal and state), and / or by contributors.

Unrestricted – all other net position reported in this category

Governmental Fund Balance

Effective July 1, 2010, the District adopted the provisions of GASB 54, "Fund Balance Reporting and Governmental Fund Type Definitions".

In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts that can be spent only for specific purposes because of laws, regulations, or externally imposed conditions by grantors or creditors.

Cambridge Town School District
 NOTES TO BASIC FINANCIAL STATEMENTS
 June 30, 2019

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Committed – Amounts that can be used only for specific purposes determined by a formal action by the School Board.

Assigned – Amounts that are designated by management for a particular purpose.

Unassigned – All amounts not included in other classifications.

Nonspendable – Amounts that cannot be spent because they are not spendable in form or are legally or contractually required to be maintained intact

When both restricted and unrestricted resources are available for use, it is the School District’s policy to use restricted resources first, then unrestricted resources as they are needed. For unrestricted amounts of fund balance, it is the Cambridge Town School District’s policy to use the fund balance in the following order, (1) Committed, (2) Assigned, (3) Unassigned.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 CASH

The cash deposits in the School District accounts as of June 30, 2019 consisted of the following:

	<u>Book Balance</u>	<u>Bank Balance</u>

NOTE 8 DEFINED CONTRIBUTION PLAN

The Cambridge Town School District participates in the Lamoille North Supervisory Retirement Plan, which is a defined contribution plan. Employees not participating in the Vermont State Teachers' Retirement System Plan, who are at least 21 years of age and have completed one year of service (defined as 1,000 hours of service in a plan year) are eligible to participate in the plan. Employer contributions to the plan are discretionary and allocated among participants as a uniform percent of pay.

Lamoille North Supervisory Union began a retirement plan on July 1, 2008. Under this new plan, employees hired prior to July 1, 2008 will receive an employer match of up to 4% of eligible wages. Employees hired after July 1 will receive an employer match of up to 3% of eligible employee wages. Covered wages under the plan were \$232,870. Contributions by the District were \$7,410 during fiscal year 2019.

NOTE 9 TEACHERS RETIREMENT

Information Required Under GASB Statement No. 68

Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions requires employers participating in a cost-sharing, multiple-employer defined benefit pension plan to recognize their proportional share of total pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense. The schedules below have been prepared to the Cambridge Town School District's proportional share of the overall amounts of the Vermont State Teachers' Retirement System (VSTRS) plan. Cambridge Town School District's portion has been allocated based on Cambridge Town School District's proportional share of employer contributions to the total contributions to VSTRS during the fiscal year.

Reporting Date, Measurement Date, and Valuation Date

Net pension liabilities, deferred pension outflows of resources, deferred pension inflows of resources, and pension expense are all presented as of the Cambridge Town School District's reporting date (June 30, 2019) and for the Cambridge Town School District's reporting period (the year ended June 30, 2019). These amounts are measured as of the measurement date and for the measurement period (the period between the prior and current measurement dates). GASB Statement No. 68 requires that the current measurement date be no earlier than the end of the employer's prior fiscal year. For the reporting date of June 30, 2019, the State has chosen to use the end of the prior fiscal year (June 30, 2018) as the measurement date, and the year ended June 30, 2018 as the measurement period.

The total pension liability is determined by an actuarial valuation performed as of the measurement date, or by the use of update procedures to roll forward to the measurement date amounts from an actuarial valuation as of a date no more than 30 months and 1 day earlier than the employer's most recent fiscal year-end. The State has elected to apply update procedures to roll forward amounts from an actuarial valuation performed as of June 30, 2017, to the measurement date of June 30, 2018.

Plan Description

The Vermont State Teachers' Retirement System is a cost-sharing, multiple-employer defined benefit pension plan with a special funding situation. It covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2018, the retirement system consisted of 225 participating employers.

 NOTES TO BASIC FINANCIAL STATEMENTS
 June 30, 2019

NOTE 9 TEACHERS RETIREMENT (continued)

The plan was created in 1947, and is governed by Title 16, V.S.A. Chapter 555.

Management of the plan is vested in the VSTRS Board of Trustees, which consists of the Secretary of Education (ex-officio); the State Treasurer (ex-officio); the Commissioner of Financial Regulation (ex-officio); two trustees and one alternate who are members of the system (each elected by the system under rules adopted by the Board) and one trustee and one alternate who are retired members of the system receiving retirement benefits (who are elected by the Association of Retired Teachers of Vermont).

The Pension Plan is divided into the following membership groups:

- Group A - for public school teachers employed within the State of Vermont prior to July 1, 1981 and who elected to remain in Group A
- Group C - for public school teachers employed within the State of Vermont on or after July 1, 1990, or hired before July 1, 1990 and were a member of Group B at that time

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service, and are summarized below:

VSTRS	GROUP A	GROUP C - GROUP #1*	Group C - Group #2++
Normal service retirement eligibility (no reduction)	Age 60 or 30 years of service	Age 62 or with 30 years of service	Age 65 or when the sum of age and service equals 90

Members of all groups may qualify for vested deferred allowance, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC and service.

Significant Actuarial Assumptions and Methods

The total pension liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, using the following assumptions:

Investment rate of return: 7.50%

Salary Increases: Ranging from 3.75% to 9.09%. Representative values of the assumed annual rates of future salary increases are as follows:

Age	Annual Rate of Salary Increase
20	9.09%
25	7.78%
30	6.47%
35	5.60%
40	4.92%

Cost-of-Living Adjustments: Assumed to occur on January 1 following one year of retirement at the rate of 2.55% per annum for Group A members and 1.3% for 2019 Group C members.

Inactive Members: Valuation liability equals 250% of accumulated contributions. Previously, this liability was assumed to equal 332.5% of accumulated contributions.

Actuarial Cost Method: Entry age Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

Actuarial Value of Asset: The amount of the assets for valuation purposes equals the preliminary asset value plus 20% of the difference between the market and preliminary asset values. The preliminary asset value is equal to the previous year's asset value (for valuation purposes) adjusted for contributions less benefit payments and expenses and expected investment income. If necessary, a further adjustment is made to ensure that the valuation assets are within 20% of the market value.

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return
US Equity	18.00%	6.10%
Non-US Equity	16.00%	7.45%
Global Equity	9.00%	6.74%
Fixed Income	26.00%	2.25%
Real Estate	8.00%	5.11%
Private Markets	15.00%	7.60%
Hedge Funds	8.00%	3.86%

Discount rate

The discount rate used to measure the total pension liability was 7.50%. In accordance with paragraph 29 of GASB 68, professional judgement was applied to determine that the System's projected fiduciary net position exceeds projected benefit payments for current active and inactive members for all years. The analysis was based on the expectation that employers will contribute to contribute at the rates set by the Board, which exceed the actuarially determined contribution, which is compromised on an employer normal cost payment and a payment to reduce the unfunded liability to zero by June 30, 2038. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net pension liability, calculated using the discount rate of 7.5%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower (6.5%) or one percent higher (8.5%) than the current rate:

1% Decrease (6.5%)	Discount Rate (7.5%)	1% Increase (8.5%)
\$ 4,505,846	\$ 3,731,386	\$ 2,956,131

During the year ended June 30, 2019 the state of Vermont contributed \$261,733 on behalf of Cambridge Town School District.

Plan Description

The Vermont State Teachers' Retirement System provides postemployment benefits to eligible VSTRS employees who retire from the System through a cost-sharing, multiple-employer postemployment benefit (OPEB) plan (the Plan).

The plan covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2018, the plan consisted of 225 participating employers.

Vermont Statute Title 16 Chapter 55 assigns the authority to VSTRS to establish and amend the benefits provisions of the Plan and to establish maximum obligations of the Plan members to contribute to the Plan. Management of the Plan is vested in the Vermont State Teachers' Retirement System Board of Trustees, which consists of the Secretary of Education (ex-officio); the State Treasurer (ex-officio); the Commissioner of Financial Regulation (ex-officio); two trustees and one alternate who are members of the system (each elected by the system under rules adopted by the Board) and one trustee and one alternate who are retired members of the system receiving retirement benefits (who are elected by the Association of Retired Teachers of Vermont).

All assets of the Plan are held in a single trust and are available to pay OPEB benefits to all members.

Summary of Plan

Eligibility:

VSTRS retirees and their spouses are eligible for health coverage if the retiree is eligible for pension benefits. Pension eligibility requirements are below:

Group A – Public school teachers employed within the State of Vermont prior to July 1, 1981 and elected to remain in Group A

- Retirement: Attainment of 30 years of creditable service, or age 55

Group C – Public school teachers employed within the State of Vermont on or after July 1, 1990. Teachers hired before July 1, 1990 and were Group B members in service on July 1, 1990 are now Group C members. Grandfathered participants are Group C members who were within five years of normal retirement eligibility as defined prior to July 1, 2010.

 NOTES TO BASIC FINANCIAL STATEMENTS
 June 30, 2019

NOTE 10 OTHER POST EMPLOYMENT BENEFITS (OPEB) (continued)

- Retirement Group C Grandfathered: Attainment of age 62, or 30 years creditable service, or age 55 with 5 years of creditable service.
- Retirement Group C Non-grandfathered: Attainment of age 65, or age plus creditable service equal to 90, or age 55 with 5 years of creditable service.

Vesting and Disability: 5 years of creditable service. Participants who terminate with 5 years of service under the age of 55 may elect coverage upon receiving pension benefits.

Benefit Types: Medical and prescription drug. Retirees pay the full cost for dental benefits.

Duration of Coverage: Lifetime.

Spousal Benefits: Same benefits as for retirees.

Spousal Coverage: Lifetime.

Retiree Contributions:

Retired before June 30, 2010:

Retirees with at least 10 years of service pay premium costs in excess of an 80% VSTRS subsidy. Retirees with less than 10 years of service do not receive any premium subsidy. Spouses do not receive any premium subsidy, regardless of the retiree's service.

Retired after June 30, 2010:

Retirees pay premium costs in excess of the following VSTRS subsidy, based on service:

<u>Retiree Subsidy Level</u>	<u>Subsidy</u>
Years of Service at June 30, 2010	
10 years or more	80%
Less than 10 years	
Less than 15 years at retirement	0%
15-19.99 years at retirement	60%
20-24.99 years at retirement	70%
25 or more years at retirement	80%

Spouses of retirees can receive an 80% subsidy, if they meet the following requirements:

Spouse Coverage with 80% Subsidy

<u>Years of Service at June 30, 2010</u>	<u>Required Years of Service at Retirement</u>
Less than 10 years	25 years of service at retirement
Between 10 and 14.99 years	25 years of service at retirement
Between 15 and 24.99 years	10 additional years from June 30, 2010
Between 25 and 29.99 years	35 years of service at retirement
30 or more years	5 additional years from June 30, 2010

Spouses of retirees who do not meet the above requirements for an 80% subsidy can receive unsubsidized coverage.

NOTE 10 OTHER POST EMPLOYMENT BENEFITS (OPEB) (continued)

Premium Reduction Option:

Participants retiring on or after January 1, 2007 with a VSTRS premium subsidy have a one-time option to reduce the VSTRS subsidy percentage during the retiree's life so that a surviving spouse may continue to receive the same VSTRS subsidy for the spouse's lifetime. If the retiree elects the joint and survivor pension option but not the Premium Reduction Option, spouses are covered for the spouse's lifetime but pay 100% of the plan premium after the retiree's death.

Actuarial assumptions

The Total OPEB Liability used the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate: 3.87% based on the short-term bond rate

Salary Increase Rate: Varies by age. Representative values of the assumed annual interest rates of future salary increases as follows:

Age	Annual Rate of Salary Increase

The tables with the generational projection to the ages of member as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date. The mortality tables were then adjusted further years using a generational projection with Scale SSA-2017 to reflect future mortality improvement.

Actuarial Cost Method: Entry-Age Normal, Level Percentage of Pay

Asset Valuation Method: Market Value

Measurement Date: June 30, 2018

Actuarial Valuation Date: June 30, 2017

Per Capita Cost Development:

Medical and Prescription Drug

Per capita claims costs were based on claims for the period July 1, 2015 through June 30, 2018. Claims were separated by non-Medicare and Medicare retirees, and by medical and prescription drug. Claims were separated by plan year, then adjusted as follows:

- Total claims were divided by the number of adult members to yield a per capita claim,
- The per capita claim was trended to the midpoint of the valuation year at assumed trend rates, and
- The per capita claim was adjusted for the effect of any plan changes.

Per capita claims for each plan year were then combined by taking a weighted average. The weights used in this average account for a number of factors including each plan year's volatility of claims experience and distance to the valuation year. Actuarial factors were then applied to the weighted average cost to estimate individual retiree and spouse costs by age and by gender.

Administrative Expenses

Per capita claims costs were based on claims for the period July 1, 2015 through June 30, 2018. Claims were separated by plan year, then adjusted as described above to yield a combined weighted average per capita claims cost.

Per Capita Health Costs:

Medical and prescription drug claims for the year beginning July 1, 2018 are shown in the table below for retirees and for spouses at selected ages. These costs are net of deductibles and other benefit plan cost sharing provisions.

Administrative Expenses:

An annual administrative expense of \$558 per participant with health and welfare coverage increasing at 3.0% per year was added to projected incurred claim costs in developing the benefit obligations.

Health Care Cost Trend Rates:

Health care trend measures the anticipated overall rate at which health plan costs are expected to increase in future years. The rates shown below are "net" and are applied to the net per capita costs shown above. The trend shown for a particular plan year is the rate that is applied to that year's cost to yield the next year's projected cost.

Year Ending June 30,	Rate (%)
	Health Costs
2019	7.150
2020	6.925

The trend rate assumptions were developed using Segal's internal guidelines, which are established each year using data sources such as the 2019 Segal Health Trend Survey, internal client results, trends from other published surveys prepared by the S&P Dow Jones Indices, consulting firms and brokers, and CPI statistics published by the Bureau of Labor Statistics.

Retiree Contribution Increase Rate:

Retiree contributions were assumed to increase with health trend. Retiree contribution rates were based on 2018 premiums. Plan premiums were weighted by actual retiree and dependent enrolment, separately for non-Medicare and Medicare.

Health Care Reform Assumption:

The Plan is assumed to be in compliance with the Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act (HCERA) of 2010 as of the valuation date. The valuation includes the projected effect of the Act's provision which imposes an excise tax on high cost employer-sponsored health coverage beginning in 2022. The excise tax limit is assumed to increase by 2.5% each year after 2018.

During the year ended June 30, 2019 the state of Vermont contributed \$158,833 on behalf of Cambridge Town School District.

NOTE 11 ASSESSMENTS

Supervisory Union Assessment

The District also pays for its proportionate share of expense relating to the Lamoille North Supervisory Union. The District paid \$629,219 of such expenses during the year ended June 30, 2019.

NOTE 12 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and injuries to employees. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

In addition, Cambridge Town School District is a member of the Vermont School Boards' Association Insurance Trust, Inc. (VSBIT) Medical Benefits Program and Unemployment Compensation Program. VSBIT is a nonprofit corporation formed in 1978 to provide insurance and risk management programs for Vermont school districts and is owned by the participating districts.

To provide unemployment coverage, VSBIT has established a separate trust of funds from member contributions to pay administrative costs, unemployment claims and provide excess reinsurance protection. Contributions are based on payroll expense and the previous two-year unemployment compensation experience. In the event that total contributions assessed to and made by all members results in an actual or projected financial deficit and VSBIT is unable to meet its' required obligations, the program will be terminated with each member assessed their proportioned share of the deficit.

NOTE 13 CONTINGENCY

The School District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the School District's Independent Auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable fund. Based on prior experience, the School District Administration believes such disallowance, if any, would be immaterial.

NOTE 14 NON-CASH TRANSACTIONS

The Cambridge Town School District received Federal Commodities for use in food service in the amount of \$10,689 for the cost of shipping. The value of the commodities received is not included in the food service budget and is not part of food service revenue or expenditures.

NOTE 15 OPERATING LEASE

The School District leases equipment under an operating lease which expires in July 2019. Minimum future rental payments under non-cancelable operating lease having remaining terms in excess of one year as of June 30, 2019 for the next years as follow:

Year Ending June 30,	
2020	\$ 25,925
2021	25,925
2022	25,925
2023	4,321

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the School Board
Cambridge, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cambridge Town School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Cambridge Town School District's basic financial statements, and have issued our report thereon dated December 10, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Cambridge Town School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cambridge Town School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Cambridge Town School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cambridge Town School Districts financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
