Why My Topic is Important

- My topic is important to me because it shows to me how people wanted to be treated the same and they can show it in the right way.
- While completing this project, I learned that there are more people that need to be recognized for their parts in history.
 - My life might be different today if this never happened because I would have no met the wonderful people who changed my life.
- I think students my age should be learning about this in school because they might not think of what will happen if they did not get to feel the experience they have today because not everyone got to feel that a long time ago.
