# **Purpose and Description**

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Los Alamitos High School believes first instruction by highly qualified and highly trained teachers provides all students the greatest opportunities for learning. Quality, first instruction, is emphasized. This plan will align with the LCAP and other programs. It identifies programs/services for staff and students in an effort to maximize student outcomes.

The Los Alamitos Unified School District (Los Al USD) serves three distinct communities: The City of Los Alamitos, the City of Seal Beach and the unincorporated community of Rossmoor. The students of Los Al USD are diverse, high-achieving and contribute greatly to the District's culture of excellence. Los Al USD prepares students for post-secondary opportunities through unparalleled professional development for teachers, by maintaining and prioritizing low class sizes TK-12, by providing enrichment and intervention programs for all students, and emphasizing school connectedness through the 4 A's: Academics, Athletics, Activities and The Arts. The community at-large supports Los Al USD by way of strong PTA, Booster, "Friends Of", and other

fundraising groups. A fourth of Los Al USD's population has attended District schools and over 90% of Los Al residents claim they live in Los Al as a result of the high-quality schools. Los Al USD continues to be at the forefront of achievement evidenced by its graduation rate, A-G completion rate, being on the College Board's Advanced Placement (AP) Honor Roll for seven consecutive years, and its overall performance on CAASPP.

Los Alamitos Unified School District prides itself on a best first instruction approach. This includes:

- Rigorous 5-year professional development plan for all teachers within their first five years.
- Ongoing training and coaching in District Signature Practices for all teachers.
- Instructional networking model used for demonstration lessons and coaching provided by Teachers on Special Assignment.
- Robust K-12 intervention programs and extended learning opportunities.
- Focus on technology and transformational learning with Project Lead the Way, MakerSpaces, and Career Technical Education Pathways.
- Implementation of a 3-year plan for Next Generation Science Standards.
- Increased focus on inquiry-based instruction across all content areas.
- One of four districts in the United States named to the College Board's Advanced Placement Honor Roll seven years in a row.
- K-12 Summer School programs providing small group, targeted instruction for students who benefit from remediation or continued skill application.

## **Classroom Observations**

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Administrators visit classrooms on a regular basis. These visits can be informal walk-throughs and/or formal observations. Teachers and administrators meet to discuss the strengths of the lesson observed as well as possible growth areas.

## **Analysis of Current Instructional Program**

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

NOTE: THE TIMELINE AND IMPLEMENTATION OF THESE BENCHMARKS HAVE BEEN ADJUSTED DUE TO THE CHANGE IN THE INSTRUCTIONAL DELIVERY MODEL FROM TRADITIONAL TO DISTANCE TO HYBRID BACK TO DISTANCE.

Benchmark assessments have been developed and will be utilized during the current school year in the following content areas:

Algebra I\* Geometry Algebra II English I English II English III\* Biology Chemistry Physics Physical Science of the Earth World History U.S. History

Content teams and individual teachers use teacher-developed formative assessments to monitor instruction.

\*Benchmark exams exist in these disciplines.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Classroom teachers and subject-alike departments use internal assessments (i.e. formative and summative assessments) to monitor student progress.

## **Staffing and Professional Development**

Status of meeting requirements for highly qualified staff (ESEA)

Los Alamitos High School is currently utilizes 100% highly qualified staff.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Los Alamitos High School participated in the process of several textbook adoptions and pilot processes for curricular adoptions during the 2019-20 school year. The adoptions have come with trainings for use of text and online resources. Los Alamitos High School and Los Alamitos Unified School District provide on-going professional development for all teachers, beginning with a 5-year induction program, and continuing with offerings of professional development made available to all teachers.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Staff development focuses on individual subject area standards; however, there is also intentional focus on instructional practice that transcends content-specific focus. Staff development areas such as Thinking Maps, Depth and Complexity Icons, and Socratic Seminars are examples of instructional strategies that are subject-inclusive and commonly used throughout the site and district.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

In addition to participation in BTSA for Year 1 and Year 2 teachers, there is support through the Years 1-5 cohorts, as well as within departments.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Teachers, especially in English, Science and Mathematics, work to align curriculum and instruction to both their content standards but also their performance tasks associated with the CAASPP and CAST. The English 3 team and various teams in both science and math review and revise this work on an on-going basis. Our English department has begun the process of reviewing core texts within all levels to reaffirm their relevancy. This process has included revising the instructional approach for teaching these works in order to become more inclusive and representative of all populations.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All adopted materials are vetted through a rigorous process of alignment with the State Board of Education, FAIR Education Act, and alignment to course standards taking into account the evolving landscape of content standards (i.e. NGSS, revised AP course descriptions and areas of instruction).

## **Opportunity and Equal Educational Access**

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

At this time, Los Alamitos High School provides support during the instructional day for students in our Skills Lab. This space is a period that provides struggling students with social, emotional and academic support to maintain achievement in their other academic classes. Additionally, for students who need an additional attempt at passing a course, we offer APEX remediation courses within our four, core content areas: English, math, sciences, social sciences.

Evidence-based educational practices to raise student achievement

#### Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Regularly updated grades in Aeries, school-home contact, conferencing with counselors and parent education evenings are all part of the multi-tiered approach to including parents in understanding their students' successes and struggles at Los Alamitos High School. The most important process is the regular contact between school and home environments to ensure that all stakeholders are aware of current status, student needs, and next steps. An electronic weekly newsletter is distributed each Sunday evening to all Los Alamitos High School families. This newsletter included information on all aspects of campus life - Academics, Activities, Athletics, and the Arts.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Los Alamitos High School regularly convenes its School Site Council throughout each school year. Membership is inclusive of parent/community members, teachers, classified staff, and students.

#### Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

The services provided by LCFF funds at this time are:

a) Skills Lab intervention teachers

- b) In-Person after school tutoring in the Skills Lab (Monday Friday)
- c) Math tutoring before and after school
- d) Griffin Lab after school tutoring in the core academic areas
- e) Griffin Virtual Lab online support in math and science

Fiscal support (EPC)

## Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

#### Involvement Process for the SPSA and Annual Review and Update

LAHS involves multiple stakeholders in the planning and annual review of the SPSA. This information is shared at our Leadership Council meetings as needed. Parents, students, certificated staff, and classified staff participate in the process through involvement in the School Site Council. Prior to approval, all School Site Council members receive a final draft which includes recommendations from all stakeholders. The plan is initially approved at the site level through our School Site Council before moving on to the district level for approval by the governing board.

## **Resource Inequities**

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

During the recent 2019 WASC process, staff at Los Alamitos High School as well as the WASC visiting committee determined areas of investigation for the next WASC cycle. These recommendations were made as a reflection of site data and staff experiences. The following were made in collaboration with the Los Alamitos High School staffs and the WASC committee:

1. Investigate and implement researched-based instructional practices with specific emphasis on strategies that support struggling learners. The process will include professional development for all staff and focus on real-time, in the classroom strategies to support and intervene with students who struggle.

2. Research differentiated CSU/UC approved course offerings that better meet student skill level at similar schools for science, English and mathematics. This work has already begun as the middle school and high school math teams are working to articulate longitudinal course offerings based on student success data, CSU/UC A-G and NCAA compliance, as well as meeting the needs of identified bands of student learners.

3. Research and evaluate what other schools are using for credit recovery. The WASC visiting committee noted our diverse options for credit recovery at that time; however, in the site self-study, the Los Alamitos High School faculty noted that the process by which students remediate credits, the courses offered in different instructional spaces, as well as the way(s) in which students struggling are informed about the processes needed further clarification and possible reorganization. This is on-going work which has begun with the site office of Student Support as well as in collaboration with the district office Educational Services.

4. In the on-going efforts to develop equity for all student populations, the site Inclusion Committee was acknowledged for its current work, and empowered to continue. In conjunction with the Student Services office, the site will evaluate discipline data for equity across all population bands, as well as increase community awareness of discipline procedures for wider-spread awareness. Additionally, the WASC visiting committee empowered the site to continue to work with off-site equity providers for more staff development and student learning opportunities which was instituted in the 2019-20 school year with a guest speaker series and a community town hall meeting with students and individuals living with disabilities. However, with the COVID-19 guidelines, along with the distance and learning instructional models, this work has been put on hold thus far in the 2020-21 school year.

Grade 11	766	760	800								
Grade 12	829	758	748								
Total Enrollment	3,235	3,137	3,160								

- Our overall enrollment has fluctuated a bit over the past three years -- 3,235 (17-18); 3,137 (18-19); 3,160 (19-20). We have noted the Class of 2020 was a bit of a "bubble" class in terms of the highest enrollment throughout their four years when compared to the other three grade levels. The freshman class of 19-20 was our largest number of enrolled students.
- 2. Our student sub-groups show a continuing trend of the percentage of White population decreasing (50.32% to 46.58%) the past three years as the Hispanic (24.88% to 26.27%) and Asian (11.19% to 12.85%) have steadily increased. Our percentage of students who identify as African Americans has remained relatively unchanged -- 3.46% (17-18); 3.44% (18-19); 3.61% (19-20).
- Our percentage of students who identify as African Americans has remained relatively unchanged -- 3.46% (17-18); 3.44% (18-19); 3.61% (19-20). Our percentage of students who identify as Filipino has remained relatively unchanged -- 3.65% (17-18); 3.60% (18-19); 3.48% (19-20).

Reclassified Fluent English Proficient (RFEP)	1	0	0	4.8%	7.9%	0.0%			

- 1. While we have a relatively low number English Learners, our numbers have increased slightly from 17-18 (28 students) to 19-20 (35 students).
- 2. Our Reclassified English Proficient (RFEP) percentage increased from 17-18 to 18-19 by 3.1%. The reduction in the number of students being Reclassified English Proficient (RFEP) over the past two years may be attributed to the following: 1) There was a change in the State language assessment from the California English Language Development Test (CELDT) to the English Language Proficiency Assessment for California (ELPAC), During this change, we were unable to reclassify students; 2) Due to the COVID-19 pandemic and the change from in-person instruction to distance learning, we were unable to reclassify students in spring 2020.
- **3.** We have seen a decrease in the number and percentage of Fluent English Proficient (FEP) students over the past three years.

- 1. The CAASPP assessment was cancelled in spring 2020. However, over the course of the three prior years, the school has consistently tested 98% of its student population with slightly varying performance results. Over 80% of the students tested met or exceeded standards in ELA, up approximately 5% from the previous year.
- 2. Writing continued to be LAHS' strongest "Above Standard" category as 57.45%, which was approximately an 8% increase from the previous year. 33.60% of the students scored "At or Near Standard" in Writing. Combined, this is 91.05% of all students.
- **3.** Listening was LAHS' lowest "Above Standard" category as 41.54% of the students met this mark. Students who scored "At or Near Standard" in Listening was another 52.77%. Combined, this is 94.28% of all students, an increase of approximately 2% from the previous year.

#### Conclusions based on this data:

The CAASPP assessment was cancelled in spring 2020. However, in analyzing the prior three years, the following information was gleaned. The overall mean scale score in 2016-17 was 2645.4. The overall mean scale score in 2017-18 was 2641.8. The overall mean scale score in 2018-19 was 2648.4. LAHS has seen very little change to the overall all mean score year over year, though the change was positive.

**2.** The two strongest areas as demonstrated by the student data are Problem Solving & Modeling/Data Analysis and Communicating Reasoning.

Problem Solving & Modeling/Data Analysis: In 2018-19 85.87% of the students were above standard or at or near standard which was an 8% increase from 2017-18.

Communicating Reasoning: In 2018-19 87.21% of the students were above or at or near standard which was a 4% increase from 2017-18 and near equal to 2016-17.

**3.** LAHS' area for greatest improvement lies in the domain of Concepts and Procedures. In 2018-19 74.83% of students were above, at or near standard, identical to the 2017-18 year and slightly higher that being 2016-17 by 3.5%.

- 1. Most of our English Learners have somewhat/moderate or well developed levels of English proficiency as assessed on the ELPAC. The number of students who enroll at LAHS in the beginning level is minimal. English Learners tend to demonstrate an increase in their ELPAC levels year after year with many students achieving proficiency.
- 2. Our overall number of English Learners (EL) is low when comparing to neighboring schools.

## **Student Population**

This section provides information about the school's student population.

2018-19 Student Population					
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth		
3137	16.8	1.1	0.1		
This is the total number of students enrolled.	This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.	This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.	This is the percent of students whose well-being is the responsibility of a court.

#### Conclusions based on this data:

1. Our data demonstrates the increasing diversity of LAHS student body in terms of Race/Ethnicity.

2. LAHS continues to have a low percentage of English Learners (EL).

3. Our percentage of socioeconomically disadvantaged students continues to increase year over year.

## **Overall Performance**

- 1. We are in the top performance areas (blue and green) in all areas measured with the exception of Suspension Rate and College/Career. Suspension Rate is Orange and College/Career is Yellow.
- 2. Suspension rate increased as a result of suspensions related to vaping or possession of vape-related products.
- **3.** As per the State indicator, the College/Career indicator shifted from blue to yellow from 2018 to 2019. Also, the ELA indicator shifted from green to blue from 2018-19 due to student progress and performance.

- 1. LAHS has one sub group in the green performance indicator and three sub groups in the blue indicator.
- 2. LAHS has populations of students that are so small, an indicator was not able to be provided.
- **3.** Asian, Filipino, Hispanic, and White sub groups all showed an increase in performance over the prior year. These were all above the state standard. The sub groups of African American and Two or More Races saw a decline in performance from the prior year. However, the African American sub group performed 25.3 points above the state standards. While Two or More Races saw a decline, the performance band was still in the green range. This group performed 70.4 points above the state standard.

- 1. LAHS students performed above state standards with the exception of the sub-group of African Americans. However, African-American students demonstrated a 13 point increase in their state standards scores.
- 2. The sub-group of two or more races declined 32.9 points but is still performing close to 6 points above standard and is in the green category.
- 3. LAHS has eight subgroups that, due to their low population size, do not provide a performance indicator.

## Academic Performance English Learner Progress

This section provides a view of the percentage of current EL students making progress towards English language proficiency or maintaining the highest level.

This section provides a view of the percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

6.4	19.3	16.1	58.0	

#### Conclusions based on this data:

1. LAHS historically has had a low population of students classified as EL. However, 74.2% of these students are making progress towards English Language proficiency.

#### Conclusions based on this data:

1. LAHS scored in the blue category for all students with respect to Graduation Rate. LAHS continues to graduate approximately 98% of its students on a yearly basis. The student group that was in the Orange category in 2018 but have improved to the Green category for 2019 were students with disabilities. Students in the Socioeconomically Disadvantaged sub group improved by 2%. The Hispanic sub group increased. The Asian sub group declined. The State of California considers students on a Certificate of Completion track as agreed upon by their IEP team as non-grads. This indicator will be dependent on the number of students who have been determined to be on non-diploma track per their IEP team.

#### Conclusions based on this data:

- 1. The increase of suspension, when inspected, was due to the offense of vaping. For 2019-2020, the school has formulated and employed a multi-pronged effort for prevention, intervention, and restorative practices to reduce the suspensions in this area.
- 2. Multiple sub-groups were in the orange category and the sub-group of Students With Disabilities was in the red category. However, due to low population numbers in each of these sub-groups, the raw number of suspensions is relatively low and any increase will create an appearance of a spike in the percentage. Regardless, LAHS has adopted a number of restorative practices to address violations in the areas of human relations, drug/alcohol use, vaping, and interpersonal conflict.

## Goal Subject

English / Language Arts

## LEA/LCAP Goal

**Exemplary Student Outcomes** 

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 8

Local Priorities: Board Priority 1

## Goal 1

Los Alamitos Unified has committed to have all (100%) students meet or exceed state standards. Three benchmark assessments have been developed which align closely to the curriculum map for eleventh English. LAHS teachers created these assessments in Illuminate. These benchmarks will be administered in late October, early February, and late March prior to the state testing. Teachers will identify students who fall below the "Met Standard" threshold, and provide additional instructional support and/or interventions to remedy the situation prior to the administration of the state exam.

## **Identified Need**

Increase student performance on CAASPP ELA and to surpass the county and state averages.

### **Annual Measurable Outcomes**

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Benchmark #1 (Late October) <b>Unable to</b> Administer in October 2020 due to pandemic. Benchmark #2 (Early February) Benchmark #3 (March)	Annually, we administer a benchmark in October of the academic school year. However, due to the change in learning platform, this was not completed in October 2020. However, teachers are using pre and post assessment results on unit exams to guide further instruction.	Our expected outcome is to see growth or maintenance of skill level among all students taking the benchmark assessments. It is the goal for all students to meet the "Met Standard" or "Exceeded Standard" level of achievement. However, it is equally important that we identify growth in all students who may not achieve this level of competency.

Complete a copy of the Strategy/Activity table for each of the school's strategies/activities. Duplicate the table, including Proposed Expenditures, as needed.

### Strategy/Activity 1

Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All juniors in English.

#### Strategy/Activity

LAHS English faculty typically analyze benchmark data from the prior spring and early fall each school year. However, these assessments were not administered in 2020. English teams have common assessments which address the state standards. These assessments will be used by teachers to guide instruction in preparation for spring State exams.

Junior-level English teachers will administer these benchmarks in late October, early February, and March. The October 2020 benchmark was not administered. However, the late winter and early spring dates are still in place at this time.

Junior-level English teachers will utilize late-start Wednesdays to analyze the data from the given benchmarks and make instructional changes as needed to address deficiencies.

#### Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)	Source(s)

#### Strategy/Activity 2

#### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

Common Core English / Language Arts questions will be utilized in English assessments throughout all grade levels. This is not the only assessment used. However, all students will be exposed to the type of questions presented on the state assessment.

#### Strategy/Activity

English faculty will imbed Common Core English / Language Arts formatted test questions into their instructional practices and assessments throughout the year. Content teams will develop and use common assessments to better assess grade level mastery of skills and standards. Common assessments will use Illuminate/Inspect to provide information for individual teachers and students on the attainment of content standards.

### Strategy/Activity 3

#### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All students in grades 9, 10, and 11.

#### Strategy/Activity

The English faculty will continue to develop Common Core unit lessons at each grade level - 9th, 10th, and 11th. The content teams will review the instructional units developed in 2018-19 and evaluate their effectiveness. Revisions, as needed, will be made to these units. This may be dependent upon the instructional/learning environment as we move throughout the school year.

#### Proposed Expenditures for this Strategy/Activity

### SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

# ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The Skills Lab has been purposefully targeting freshmen and seniors as the priority populations. Seniors are targeted to be sure they are able to earn their diploma with their graduating class. Freshmen are targeted to be proactive in ensuring they earn the necessary credits in grade 9 to stay on track towards graduation. Data indicated these steps were effective for the majority of students enrolled in this program.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences to report. However, we are continually looking at ways to make the Skills Lab experience as beneficial as possible for student success.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will continue to monitor the "D" and "F" lists at grade report intervals. Along with this, we will continue to monitor the graduation rate of the senior class.

## Strategy/Activity 1

### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All Algebra 1 students will participate in benchmark assessments via individual teachers. It was more difficult to gain assessment data given that we were on distance learning at the beginning of the school year. Through the Hybrid model, only half of the class is present at a time. Also, the amount of face-to-face class time has been greatly reduced with the current instructional model. As the other benchmarks are developed for Geometry and Algebra 2, these students will take these assessments.

### Strategy/Activity

The goal was for the Algebra 1 team to administer the three benchmarks throughout the school year. We are hopeful to be able to incorporate two of these in the spring semester. These benchmarks were developed by teacher cohorts using Illuminate. The assessments align to the curriculum map for Algebra I. Subsequent assessments will be developed for Geometry and Algebra 2.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The Algebra 1 team has assessed the effectiveness of the reduced class size of Algebra 1 (15:1) and has noted through CAASPP, district benchmark and course assessment that the increase in measurable results has not yielded sufficient student progress. At this time, the math team in conjunction with the high school and district administration investigated offering a foundations of

algebra course to provide extra instruction in math to improve student success in Algebra 1 in Grade 10.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

The Introduction to Algebra course is in its first year of implementation. It will take this year as a benchmark along with the student success in Algebra 1 as a sophomore that will be the telling data on the effectiveness of this program.

# **Annual Review**

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

# ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Our outcomes/goal of these activities are listed. However, much of this work has been put on hold at this time. These are on-going trainings of district best practices. The provision of these trainings to all teachers in the Los Alamitos Unified School District helps to ensure that all students are exposed to great practices inside every classroom.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

None to report.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

No changes at this time.

# Goals, Strategies, & Proposed Expenditures

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 8

Local Priorities: Board Priority 1

## Goal 5

Continue to increase the percentage of seniors meeting the UC a-g college eligibility course requirements. Continue to increase access for all students to Advanced Placement courses as appropriate. Continue to increase the percentage of students completing an Advanced Placement course during their four-year high school experience and passing the corresponding AP exam.

### **Identified Need**

Increase A-G completion rate by 2% to enhance college and career readiness.

### **Annual Measurable Outcomes**

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Percentage of seniors successfully completing the UC a-g course of study	Minimum four-year admission requirements for entrance to a UC/CSU campus	Continual increase in the percentage of seniors who successfully completed the UC a-q course requirements.

# **School Site Council Membership**

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 6 Classroom Teachers
- 3 Other School Staff
- 5 Parent or Community Members
- **5** Secondary Students

#### Name of Members

Role

Raul Aguilera	Secondary Student
Bill Andrews	Parent or Community Member
Kara Cruz	Parent or Community Member
Hannah Fackrell	Secondary Student
Jason Farvour	Parent or Community Member
Tina Fenner	Other School Staff
John Hansen	Classroom Teacher
Jeff Heeren	Classroom Teacher
Cynthia Hopkins	Classroom Teacher
Kaitlyn Ishibashi	Secondary Student
Crystal Jones	Other School Staff
Maria Kibtya	Classroom Teacher
Stephanie McCarthy	Secondary Student
Kyle Miller	Secondary Student
Trisha Ordaz	Parent or Community Member
Christy Ricks	Other School Staff
Mary Ann Russell	Classroom Teacher
Renee Schwartz	Parent or Community Member
Gregg Stone	Principal
Samantha Williams	Classroom Teacher

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

## **Recommendations and Assurances**

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

#### Signature

#### **Committee or Advisory Group Name**

English Learner Advisory Committee Gifted and Talented Education Program Advisory Committee Other: Leadership Council

Faculty Forum

Faculty Forum Curriculum Sub-Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on January 19, 2021.

Attested:

Principal, Gregg Stone on 1/19/2021

SSC Chairperson, Maria Kibtya on 1/19/2021

# Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

# **Instructions: Linked Table of Contents**

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

For programmatic or policy questions regarding Title I schoolwide planning, please contact the local educational agency, or the CDE's Title I Policy and Program Guidance Office at <u>TITLEI@cde.ca.gov</u>.

For questions or technical assistance related to meeting federal school improvement planning requirements (for CSI, TSI, and ATSI), please contact the CDE's School Improvement and Support Office at <u>SISO@cde.ca.gov</u>.

# **Purpose and Description**

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

## Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

## Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

# **Stakeholder Involvement**

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

# **Resource Inequities**

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEAand school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

# Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

# Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the "Goal #" for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

## **Identified Need**

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

## **Annual Measurable Outcomes**

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school's identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school's identification.]

## **Strategies/Activities**

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency's budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

## Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating "All Students" or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

## **Proposed Expenditures for this Strategy/Activity**

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA's budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

# **Annual Review**

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

# Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

# **Budget Summary**

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

# Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

• Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

# **Appendix A: Plan Requirements**

## Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

## **Requirements for Development of the Plan**

- I. The development of the SPSA shall include both of the following actions:
  - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
    - 1. The comprehensive needs assessment of the entire school shall:
      - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
      - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to
        - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
        - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
        - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
        - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
        - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
  - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

## **Requirements for the Plan**

- II. The SPSA shall include the following:
  - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
  - 1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will-
    - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
    - b. use methods and instructional strategies that:
      - i. strengthen the academic program in the school,
      - ii. increase the amount and quality of learning time, and
      - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
    - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
      - i. strategies to improve students' skills outside the academic subject areas;
      - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
      - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
      - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
      - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
  - 1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
  - 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
  - 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
  - 1. Ensure that those students' difficulties are identified on a timely basis; and
  - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

# Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

## **Comprehensive Support and Improvement**

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

- Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
- Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseinvestment.pdf);
- 3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
- 4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

## **Targeted Support and Improvement**

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

- Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
- Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <u>https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseinvestment.pdf</u>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

## **Additional Targeted Support and Improvement**

A school identified for ATSI shall:

 Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

### Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.
