

## **530 IMMUNIZATION REQUIREMENTS**

### **I. PURPOSE**

The purpose of this policy is to require that all students receive the proper immunizations as mandated by law to protect the health and safety of all students.

### **II. GENERAL STATEMENT OF POLICY**

All students are required to be immunized in order to attend school or provide appropriate documentation exempting the student from immunization. Students are required to be free from any communicable diseases, as a condition of enrollment.

### **III. STUDENT IMMUNIZATION REQUIREMENTS**

- A. Students may be enrolled or remain enrolled in any elementary or secondary school within the school district if the student or the student's parent or guardian has submitted to the designated school district administrator the required proof of immunization. Prior to the student's first date of attendance, the student or the student's parent or guardian shall provide to the designated school district administrator one of the following statements:
1. a statement, from a physician or a public clinic which provides immunizations, stating that the student received the immunizations required by law, consistent with medically acceptable standards; or
  2. a statement, from a physician or a public clinic which provides immunizations, stating that the student received the primary schedule of immunizations required by law and has commenced a schedule of the remaining required immunizations, indicating the month and year each immunization was administered, consistent with medically acceptable standards.
- B. The statement of a parent or guardian of a student or an emancipated student may be substituted for the statement of a physician or public clinic that administers immunizations. If such a statement is substituted, this statement must indicate the day, month and year each immunization was administered.
- C. The parent or guardian of persons receiving instruction in a home school shall submit one of the statements set forth in Section III.A. or III.B., above, or statement of immunization set forth in Section IV., below, to the superintendent of the school district by October 1 of the first year of their home schooling in Minnesota and the grade 7 year.

- D. When there is evidence of the presence of a communicable disease, or when required by any state or federal agency and/or state or federal law, students and/or their parents or guardians may be required to submit such other health care data as is necessary to ensure that the student has received any necessary immunizations and/or is free of any communicable diseases. No student may be enrolled or remain enrolled in any preschool, elementary, secondary school or school sponsored day care within the school district until the student or the student's parent or guardian has submitted the required data.
- E. The school district will allow a student transferring into the school system a maximum of 30 days to submit a statement specified in Section III.A. or III.B., above, or Section IV., below. Students who do not provide the appropriate proof of immunization or the required documentation related to an applicable exemption of the student from the required immunization within the specified time frames shall be excluded from school until such time as the appropriate proof of immunizations or exemption documentation has been provided.
- F. If a person who is not a Minnesota resident enrolls in the school district online learning course or program that delivers instruction to the person only by computer and does not provide any teacher or instructor contact time or require classroom attendance, the person is not subject to the immunization, statement, and other requirements of this policy.

#### **IV. EXEMPTIONS FROM IMMUNIZATION REQUIREMENTS**

Students will be exempt from the foregoing immunization requirements under the following circumstances:

- A. The parent or guardian of a minor student or an emancipated student submits a physician's signed statement stating that the immunization of the student is contraindicated for medical reasons or that laboratory confirmation of the presence of adequate immunity exists; or
- B. The parent or guardian of a minor student or an emancipated student submits his or her notarized statement stating the student has not been immunized because of the conscientiously held beliefs of the parent, guardian or student.

#### **V. NOTICE OF IMMUNIZATION REQUIREMENTS**

- A. The school district will develop and implement a procedure to:
  - 1. notify parents and students of the immunization and exemption requirements by use of a form approved by the Department of Health;
  - 2. notify parents and students of the consequence for failure to provide required documentation regarding immunizations;

3. review student health records to determine whether the required information has been provided; and
4. make reasonable arrangements to send a student home when the immunization requirements have not been met and advise the student and/or the student's parent or guardian of the conditions for re-enrollment.
5. develop a plan during Quarter 1 in grades 7-12 and trimester 1 in grades K-6, with the parent, guardian or emancipated student to retrieve existing immunization verification and/or acquire missing immunizations.
6. notify parent, guardian or emancipated student that if noncompliance extends beyond Quarter 1/Trimester 1, they will receive notification from the District of suspended enrollment pending compliance with immunization requirements.

[See Attachments A, B, C, and D.]

- B. The notice provided shall contain written information describing the exemptions from immunization as permitted by law. The notice shall be in a font size at least equal to the font size and style as the immunization requirements and on the same page as the immunization requirements.

## **VI. IMMUNIZATION RECORDS**

- A. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student attains the age of majority.
- B. Upon request, the school district may exchange immunization data with persons or agencies providing services on behalf of the student. Immunization data is private student data and disclosure of such data shall be governed by Policy 515 Protection and Privacy of Pupil Records.
- C. The designated school district administrator will assist a student and/or the student's parent or guardian in the transfer of the student's immunization file to the student's new school within 30 days of the student's transfer.
- D. Upon request of a public or private post-secondary educational institution, the designated school district administrator will assist in the transfer of the student's immunization file to the post-secondary educational institution.

## **VII. OTHER**

Within 60 days of the commencement of each new school term, the school district will forward a report to the Commissioner of the Department of Education stating the number of students attending each school in the school district, including the number of students receiving instruction in a home school, the number of students who have not been

immunized, and the number of students who received an exemption. The school district also will forward a copy of all exemption statements received by the school district to the Commissioner of the Department of Health.
