

Community Council

Agenda March 24, 2021, 4:30 p.m.

Room 30

1. Welcome: In attendance are: Julie Lundell, Maree Pope, Jen Merrill, Eric Peterson, Lori James

Not attending: Erika Polley, Mrs. Rowhring, Amanda Mitchell

2. Review of Minutes : We reviewed the SIP goals and budgeting discussed at the last meeting, along with teacher priorities based on a survey. We had Mrs. Hogge come out to talk about our district vision with expectations for students and citizenship. Jen Merrill approved the minutes.
3. School Improvement Plan: The draft was presented for the SIP (goals, reporting on prior years, and budget looking forward). Our budget is reduced due to decrease in enrollment because of CoVid. Goals reviewed will focus on reading & Acadience Pathways to Progress data getting us to 63% typical or greater progress, Math and preselected benchmark proficiency of 70% or better, and SEL and a 10% drop in discipline referrals. The SIP was approved as it stands via unanimous vote by those in attendance. Mrs. Lundell will send this out digitally to absent members, and will collect digital signatures if necessary for the plan.
4. School business: Mask mandate expected for remainder of this school year. We are planning modifications for field day on Wednesday, June 2nd and also for sixth grade graduation, in combination with Dare graduation for them

too on Thursday, June 3rd. We discussed garden area plans for the southeast corner of our building where the pond was removed. There is also a plan in place to pour blacktop out near the ball wall on the east fence for bike racks, so that students don't have to walk them completely around to the west side of the school. We did review our plan to begin Summit learning for 5th and 6th grades for next year, and will be hosting a parent night in April surrounding this. Lower grade teachers (K-4) are beginning to train on LETRS reading strategies.

5. Community Business: We discussed anticipated numbers of students returning for next year. We are estimating that we will have up to around 450 next year with those returning from Davis Connect, but probably not back up to 500 in just a year's time. We did lose an FTE and are at 15.5 teachers for next year, at this point, which is going to make us tight for larger classes. We will be communicating that to parents after Spring Break, and this communication was requested by committee members as well.
