### UPDATES FROM KIS ADMINISTRATION

#### **Extension on Quarantine**

The Ukrainian government has extended the quarantine until May 11th.

#### **Spring Break Calendar Change Next Week**

A reminder that next week, April 27-29th, will be school days. April 30th & May 1st we will not have school.

#### **2020-21 Invoices and Fees**

As we approach the 2020-21 school year, the KIS Business Office will be sending out invoices to those families who have completed the re-application process, via your family profile on Moodle. You will receive an email notification once the invoice/agreement has been added to your family profile.

#### **Re-application for 2020-21 School Year**

If you have not completed the re-application process, we ask that you take a moment to do this. It is very important for KIS to know how many students we will have in each section and places available for new applications

#### **Week Without Walls Excursions Canceled**

KIS has decided to cancel all of our Week Without Walls excursions for Middle School and Secondary students. Though this is not a big surprise for everyone, considering the current safety concerns and limitations in travel. KIS is seeking refunds for already purchased flights, hotels, and other expenses. We will be refunding these trips in full. KIS hopes to finalize and process these refunds, as soon as possible.

#### **KFN Lunch Service Refunds**

KFN is an independent entity from KIS and processes its own fees and payments. Please see the statement below from KFN regarding refunds for lunch services. We would like to thank KFN for the continued dedication and support of our community.

# INFORMATION FROM KFN

**KYIV INTERNATIONAL SCHOOL**

**KFN CAFETERIA**

Dear Parents,

We sincerely hope you and your families are healthy and safe during these uncertain and difficult times.

We, like many others, have suffered a negative financial impact as a result of the current coronavirus crisis.

The campus closure was, of course, an unforeseeable circumstance that has required us to work on a solution regarding pre-paid year program.

If you wish to receive a refund, we have landed on the following solution for clients who have paid for full yearly lunch programs.

All payments will be credited for the school year 2020-21 based on the following. We will calculate the amount and deduct the months that we were operational for and during which we provided services to you.

The remaining amount will be credited to you (name of your children) or to the debit card which can then be used for any future purchases, at our snack bar or for any lunch program, when we are back up and running again.

Families that are not attending next year will get the money back via transfer from our bank account. Please, contact us to explain the procedure.

We need the following information from you to do this as efficiently as possible:

A copy of your payment and the name of the student.

The program you paid for.

As soon as we know for certain whether the lockdown will end before the end of the school year or not, we will determine the correct amount to credit to your children account.

Please We need you to send this information before the end of school year or end of quarantine which ever comes first .

Please do not hesitate to contact Oxana or me, if you have any questions.

Thank you for your ongoing support and take care!

Best regards,  
Claudia and KFN team

## 10Z CLASS POETRY

The 10Z class has been working on Poetry this last week. They are finding that this time away from school has inspired them to reflect on their feelings about what is happening in the world right now. We are all in this together.

**KYIV INTERNATIONAL SCHOOL**

**CHELSEY ZOROMSKI**

College Board will be releasing another update for AP Coordinators on May 1. For now, if your student has questions encourage them to talk to their AP teacher, Ms. Zoromski, and Mr. Legan.

Recently, more colleges have released statements saying they are supporting College Board's decision to administer AP exams online.

"In this chaos, College Board has adapted admirably, finding a way to keep students on course to focus on their studies in the midst of distraction. We are looking forward to receiving AP scores from students, awarding credit, and enrolling them in classes that move them toward in-depth study and special opportunities that will soon be available again—research, internships, cooperative education, and much, much more."

**-Suzanne McCray, University of Arkansas**

"Seeing how the organization is working to provide an exam for students who have literally spent their entire high school years preparing for this has been heartening and rewarding."

**-Gisela Hoehler-Alden, Boston University**

"I encourage us to be flexible and explore ways, maybe even novel ways, to give students credit for their learning in these university and AP courses. All of us have had our lives disrupted by this pandemic, let us find ways to help others as we all struggle with the health, societal, and economic impacts of COVID-19."

**-Michael Dorff, Brigham Young University (and President of the Mathematical Association of America)**
