

## School Board Report

Kalskag Principal - Severin Gardner  
November 2020

### **JOGES**

In Ms. Maddeford's room she has a few students becoming emerging readers. She reports that considering the mandates for masks and social distancing, the students are adapting fast to the new rules and routines. We plan to start tutoring after returning from remote learning.

### **ZLES**

Ms. McCafferty encouraged her students to join the Battle of the Books. Her students are communicating with their teacher how much they enjoy the books this year. They are using their imaginations and are seeing the story come alive. On the star assessment Ms. McCafferty's students made great gains in Math.

### **GMSHS**

Having a Student Services Coordinator has really helped the high school scheduling and the updating power school. Todd has done a great job of making changes needed and in a very fast manner. Because of the remote learning the students in Excel will have to drop their online class and move it to the second semester. Students at GMSHS also started 2 pilots for the ELA curriculum. If these curriculums turn out to be worthwhile they could be considered for the next adoption cycle.
